Merwin in a New Century* Cheri Colby Langdell, 2023-01-01 This edited collection explores the work of highly awarded and twice American Poet Laureate W S Merwin Spanning Merwin s early career his mid career success his Hawaiian epic his eco poetry his lesser known later poetry and the influence of Buddhism on his work the volume offers new perspectives on Merwin as a major poet Exploring his works across the twentieth and twenty first century this collection presents Merwin as a necessary and contemporary poet It emphasizes contemporary readings of Merwin as an environmental advocate showing how his poetry seeks to help each reader re establish an intimate relationship with the natural world It also highlights how Merwin s work presents our place in history as a pivotal moment of transition into a new era of international cooperation This volume both celebrates his life and writing and takes scholarship on his work forward into the new century **Zoopoetics** Aaron M. Moe, 2013-12-19 Zoopoetics assumes Aristotle was right The general origin of poetry resides in part in the instinct to imitate But it is an innovative imitation An exploration of the oeuvres of Walt Whitman E E Cummings W S Merwin and Brenda Hillman reveals the many places where an imitation of another species poiesis Greek makings contributes to breakthroughs in poetic form However humans are not the only imitators in the animal kingdom Other species too achieve breakthroughs in their makings through an attentiveness to the ways of being of other animals For this reason mimic octopi elephants beluga whales and many other species join the exploration of what zoopoetics encompasses Zoopoetics provides further traction for people interested in the possibilities when and where species meet Gestures are paramount to zoopoetics Through the interplay of gestures the human animal textual spheres merge making it possible to recognize how actual biological animals impact the material makings of poetry Moreover as many species are makers zoopoetics expands the poetic tradition to include nonhuman poiesis **Ecocriticism and the Poiesis of Form** Aaron Moe, 2019-02-14 Ecocriticism and the Poiesis of Form Holding on to Proteus demonstrates how a fractal imagination helps one hold the form of a poem within the reaches of Deep Time and it explores the kinship between the hazy liminal moment when Sound becomes Syllable and the hazy liminal moment when the sage energy of the Atom made a leap toward the gaze of the first cell to echo Merwin Moe distills his methodology as follows My work I point asserted the aphorism That s what I do To point the project integrates a wide range of interdisciplinary ideas including biosemiotics fractals phi trauma theory the Mandelbrot Set hyperobjects meditative chants Goethe s morphology Ramanujan s summation a spiderweb s sonic properties and Thoreau s sense of the plant like burgeoning force of an Atom in order to open up multiple trajectories In this context the volume foregrounds the insights of poets storytellers including Hillman Snyder Anzald a EEC okpik Whitman Dickinson Gladding Melville Morrison and Toomer for they are most attentive to that liminal moment when the vibratory hum in language and in the cosmos turns kinetic As this volume draws on a wide range of writers from many backgrounds it allows the myriad voices to engage with one another

across differences in race gender and ethnicity These writers show us how to echo Dickinson the Freight Of a delivered Syllable can split and how the energy unleashed came from and points us back toward the energy un making the forms of Gaia The starting point for discussing the energy of a poem can no longer begin with the human rather Holding on explores how the poem s energy is but a sliver of a hyperobject massively distributed throughout the cosmos a sage energy that brings forth form

J. Davis,2008-08-01 There are many general surveys of the Reformation available and they all typically devote some space to how theologians such as Martin Luther and John Calvin understood the Lord's Supper and Christ's presence in the bread and wine. However they usually do not provide a great deal of detail about the development of the Reformers' thoughts or the finer elements of their respective opinions. This volume by Thomas Davis fills these gaps with a more narrowly focused study. He devotes several chapters to Luther and to Calvin examining their use of language and their understanding of the presence of Christ both in the Lord's Supper and in the broader sense of his presence in the church. *The West Side of Any Mountain* J. Scott Bryson,2005-04-01 In contrast to nature poets of the past who tended more toward the bucolic and pastoral many contemporary nature poets are taking up radical environmental and ecological themes. In the last few years interesting and evocative work that examines this poetry has begun to lay the foundation for studies in ecopoetics. Informed in general by current thinking in environmental theory and specifically by the work of cultural geographer Yi Fu Tuan *The West Side of Any Mountain* participates in and furthers this scholarly attention by offering an overarching theoretical framework with which to approach the field. One area that contemporary theorists have found problematic is the dualistic civilization/wilderness binary that focuses on the divisions between culture and nature thereby increasing the modern sense of alienation. Tuan's place/space framework offers a succinct vocabulary for describing the attitudes of ecological poets and other nature writers in a way that avoids setting up an adversarial relationship between place and space. Scott Bryson describes the Tuanian framework and employs it to offer fresh readings of the work of four major ecopoets: Wendell Berry, Joy Harjo, Mary Oliver, and W. S. Merwin. *The West Side of Any Mountain* will be of great interest to scholars and teachers working in the field of contemporary nature poetry. It is recommended for nature writing courses as well as classes dealing with 20th century poetry, contemporary literary criticism, and environmental theory. **From Outlaw to Classic** Alan Golding,2009-08-26 *From Outlaw to Classic* presents a sweeping history of the forces that have shaped and continue to shape the American poetry canon. Students, scholars, critics, and poets will welcome this enlightening and impressively documented book. Recent writings by critics and theorists on literary canons have dealt almost exclusively with prose. Alan Golding shows that like all canons, those of American poetry are characterized by conflict. Choosing a series of varied but representative instances, he analyzes battles and contentions among poets, anthologists, poetry magazine editors, and schools of thought in university English departments. The chapters present a history of American poetry anthologies, compare competing models of canon formation, the aesthetic poet-centered and the institutional critic-centered, discuss the influence of the New Critics, emphasizing their status as practicing poets, their anti-nationalist reading of American poetry, and the landmark textbook *Understanding Poetry* by Cleanth Brooks and Robert Penn Warren, examine the canonizing effects of an experimental little magazine, *Origin*, trace how the Language poets address in both their theory and their method the canonizing institutions and canonical assumptions of the age. *Modern literature* Swann Galleries (New York),1828 **W.
