1989 and 2011 In the context of the dramatic socio economic restructuring processes changes in urban governance and physical transformation of the city following the Fall of the Wall the new Berlin was not only being built physically but staged for visitors and Berliners and marketed to the world through events and image campaigns which featured the iconic architecture of large scale urban redevelopment sites Public private partnerships were set up specifically to market the new Berlin to potential investors tourists Germans and the Berliners themselves The book analyzes the images of the city and the narrative of urban change which were produced over two decades In the 1990s three key sites were turned into icons of the new Berlin the new Postdamer Platz the new government quarter and the redeveloped historical core of the Friedrichstadt Eventually the entire inner city was staged through a series of events which turned construction sites into tourist attractions New sites and spaces gradually became part of the 2000s place marketing imagery and narrative as urban leaders sought to promote the creative city By combining urban political economy and cultural approaches from the disciplines of urban politics geography sociology and planning the book contributes to a better understanding of the interplay between the symbolic politics of representation through place marketing and the politics of urban development and place making in contemporary urban governance

The Urban Wisdom of Jane Jacobs Sonia Hirt,Diane Zahm,2012-10-02 Here for the first time is a thoroughly interdisciplinary and international examination of Jane Jacobs s legacy Divided into four parts I Jacobs Urban Philosopher II Jacobs Urban Economist II Jacobs Urban Sociologist and IV Jacobs Urban Designer the book evaluates the impact of Jacobs s writings and activism on the city the professions dedicated to city building and more generally on human thought Together the editors and contributors highlight the notion that Jacobs s influence goes beyond planning to philosophy economics sociology and design They set out to answer such questions as What explains Jacobs s lasting appeal and is it justified Where was she right and where was she wrong What were the most important themes she addressed And although Jacobs was best known for her work on cities is it correct to say that she was a much broader thinker a philosopher and that the key to her lasting legacy is precisely her exceptional breadth of thought [Join the Revolution, Comrade](#)

Charles Foran,2008-04-15 In [Join the Revolution Comrade](#) Charles Foran brings to the essay form the same restlessness and originality that mark his novels and non fiction Foran visits places in Vietnam that have been colonized by western war films talks to Shanghai residents about their colossal city and commiserates with the people of Bali about the effects of terrorist bombs on their island In Beijing he looks up old friends he had known back in 1989 during the days before and after the June 4th massacre [Join the revolution Comrade](#) a friend had loved to say quoting a line from a Bertolucci film Foran also encounters Miguel de Cervantes the Buddha of Compassion and the pumped up American Tom Wolfe He maps the geography of Canadian literature and pinpoints the inner Newfoundland of Wayne Johnston He defends the novel against those who would tame it and uses an ancient Chinese philosopher to explain how one imagination his own works Whether exploring the waterways of Thailand or the streets of his childhood in suburban Toronto meditating on raising children in

The Transparent Eye

Eugene Chen Eoyang,1993-02-01 In this remarkably stimulating and erudite series of essays Eugene Chen Eoyang explores many of the underlying paradigms and presumptions in world literature highlighting issues of cultural interchange and cultural hegemony Translation is seen in this perspective as a central rather than a peripheral factor in understanding the meanings of literary works Taking concrete examples from Chinese literature Eoyang illuminates not only the semantic collisions that underlie the complexities of translation but also the cultural identities reflected in language and values The title alludes to a passage from Emerson reminding us that the object on view is not only the vision we see but is also the organ through which that vision is apprehended The confrontation with a radical other which is for many Westerners what Chinese literature represents is thus both a discovery and a self discovery Part of the book's originality is that it identifies a new audience one that is incipiently bicultural or knowledgeable about what has been called East as well as what has been called West Readers with an interest in the theory and practice of translation will find this an inspiring and indispensable work one that prepares the way for a comparative poetics that recognizes the intense subjectivities in every culture and at the same time establishes a basis for a comparison that tries to transcend even as it acknowledges provincialities

Healthy City Planning Jason Corburn,2013-04-12

Healthy city planning means seeking ways to eliminate the deep and persistent inequities that plague cities Yet as Jason Corburn argues in this book neither city planning nor public health is currently organized to ensure that today's cities will be equitable and healthy Having made the case for what he calls adaptive urban health justice in the opening chapter Corburn briefly reviews the key events actors ideologies institutions and policies that shaped and reshaped the urban public health and planning from

the nineteenth century to the present day He uses two frames to organize this historical review the view of the city as a field site and as a laboratory In the second part of the book Corburn uses in depth case studies of health and planning activities in Rio de Janeiro Nairobi and Richmond California to explore the institutions policies and practices that constitute healthy city planning These case studies personify some of the characteristics of his ideal of adaptive urban health justice Each begins with an historical review of the place its policies and social movements around urban development and public health and each is an example of the urban poor participating in shaping and being impacted by healthy city planning Garden Suburbs of Tomorrow? Martin Crookston,2013-12-04 Named one of the Top 10 books about council housing the Guardian online Faced with acute housing shortages the idea of new garden cities and suburbs is on the UK planning agenda once again but what of the garden suburbs that already exist Over the first six decades of the twentieth century councils across Britain created a new and optimistic form of housing the cottage estates of corporation suburbia By the early 1960s these estates provided homes with gardens for some 3 million mainly working class households It was a mammoth achievement But because of what then happened to council housing over the later years of the century this is not very often appreciated In Garden Suburbs of Tomorrow Martin Crookston suggests that making the most of the assets which this housing offers is a positive story it can be positive for housing policy for councils and their place making endeavours and for the residents of the estates This is especially important when all housing market and development options are so constrained and likely to remain so for the next decade or more Following an examination of what the estates of corporation suburbia are and what they are like there follow chapters on specific examples from different parts of the country on how they are affected by the workings of the housing market and then not unconnectedly on how attitudes to this socially built stock have evolved Then the final chapters try to draw out the potentials and to suggest what future we might look for in corporation suburbia in the twenty first century **Evidence-based Clinical Chinese Medicine - Volume 18: Cancer Pain** Brian H May,Yihong

Sociable Cities Peter Hall, Colin Ward, 2014-06-05 Peter Hall and Colin Ward wrote *Sociable Cities* to celebrate the centenary of publication of Ebenezer Howard's *To-morrow: A Peaceful Path to Real Reform* in 1998 an event they then marked by co-editing with Dennis Hardy the magnificent annotated facsimile edition of Howard's original long lost and very scarce in 2003 In this revised edition of *Sociable Cities* sadly now without Colin Ward Peter Hall writes the sixteen years separating the two editions of this book seem almost like geological time Revisiting the 1998 edition is like going back deep into ancient history The glad confident morning following Tony Blair's election has been followed by political disillusionment the fiscal crash widespread austerity and a marked anti-planning stance on the part of the Coalition government But closely following the argument of *Good Cities Better Lives: How Europe discovered the Lost Art of Urbanism* Routledge 2013 to which this book is designed as a companion Hall argues that the central message is now even stronger we need more planning not less And this planning needs to be driven by broad high level strategic visions national regional of the kind of country we want to see Above all Hall shows in the concluding chapters Britain's escalating housing crisis can be resolved only by a massive programme of planned decentralization from London at least equal in scale to the great Abercrombie plan seventy years ago He sets out a picture of great new city clusters at the periphery of South East England sustainably self-sufficient in their daily patterns of living and working but linked to the capital by new high speed rail services This is a book that every planner and every serious student of policy making will want to read Published at a time when the political parties are preparing their policy manifestos it is designed to make a major contribution to a major national debate
