Lawrence Kolbe, William B. Tye, Stewart C. Myers, 2012-12-06 It is common to assert that utility investors are compensated in the allowed rate of return for the risk of large disallowances such as arise for investments found imprudent or not used and useful However this book develops a new theory of asymmetric regulatory risk that shows that infallible estimates of the cost of capital are sure to provide downward biased estimates of the necessary allowed rates of return in the presence of such

regulatory risks The book uses the new theory of regulatory risk to understand recent developments in the risk of natural gas pipelines and other regulated industries

**The Economics of Regulation** Alfred E. Kahn, 1988-06-22 As Chairman of the Civil Aeronautics Board in the late 1970s Alfred E Kahn presided over the deregulation of the airlines and his book published earlier in that decade presented the first comprehensive integration of the economic theory and institutional practice of economic regulation In his lengthy new introduction to this edition Kahn surveys and analyzes the deregulation revolution that has not only swept the airlines but has transformed American public utilities and private industries generally over the past seventeen years While attitudes toward regulation have changed several times in the intervening years and government regulation has waxed and waned the question of whether to regulate more or to regulate less is a topic of constant debate one that The Economics of Regulation addresses incisively It clearly remains the standard work in the field a starting point and reference tool for anyone working in regulation Kahn points out that while dramatic changes have come about in the structurally competitive industries the airlines trucking stock exchange brokerage services railroads buses cable television oil and natural gas the consensus about the desirability and necessity for regulated monopoly in public utilities has likewise been dissolving under the burdens of inflation fuel crises and the traumatic experience with nuclear plants Kahn reviews and assesses the changes in both areas he is particularly frank in his appraisal of the effect of deregulation on the airlines His conclusion today mirrors that of his original seminal work that different industries need different mixes of institutional arrangements that cannot be decided on the basis of ideology

**The Political Economy of Regulation in Turkey** Tamer Çetin, Fuat Oğuz, 2011-01-12 The Political Economy of Regulation in Turkey brings together leading international scholars and experts on Turkey and regulatory reform to provide essential information on the recent Turkish experience and its relation to competition policy After the 1980 liberalization reform Turkey tried to introduce competition in many industries but network industries have remained as monopolies At the end of the 1990s regulatory reform was initiated and independent regulatory

agencies have been established by the government Comprehensive discussions of these network industries in particular airlines electricity natural gas telecommunications and environment regulations are offered The contributors inquire how economic theory and historical analyses can enlighten the character of market processes and the role for government action in these industries and the contributions shed light on the very recent changes in the regulatory structure and important legal cases that shape the future of regulated industries This book discusses these issues in an international perspective and relates the Turkish experience to other similar countries such as in Eastern Europe and Central America This book serves as a useful guide to those who want to understand major changes in Turkey and regulatory reforms in other emerging markets making it of interest to researchers and PhD students concerned with regulatory economics the Turkish economy and economic policy in emerging markets

*Competition Law and Economic Regulation in Southern Africa* Imraan Valodia, Jonathan Klaaren, Simon Roberts, 2017-07-04 Shaping markets through competition and economic regulation is at the heart of addressing the development challenges facing countries in southern Africa The contributors to *Competition Law and Economic Regulation Addressing Market Power in southern Africa* critically assess the efficacy of the competition and economic regulation frameworks including the impact of a number of the regional competition authorities in a range of sectors throughout southern Africa Featuring academics as well as practitioners in the field the book addresses issues common to southern African countries where markets are small and concentrated with particularly high barriers to entry and where the resources to enforce legislation against anti competitive conduct are limited What is needed the contributors argue is an understanding of competition and regional integration as part of an inclusive growth agenda for Africa By examining competition and regulation in a single framework and viewing this within the southern African experience this volume adds new perspectives to the global competition literature It is an essential reference tool and will be of great interest to policymakers and regulators as well as the rapidly growing ecosystem of legal practitioners and economists engaged in the field

*The Political Economy of Regulation* Kenneth J. Meier, 1988-01-01 This is the first comprehensive study of the history politics and economics of the insurance industry in the United States It is designed as a theoretical challenge to the conventional wisdom in political economy which says that regulation benefits the regulated In fact Meier shows that because the insurance industry is far too divided to impose its will on the regulatory system the political economy of regulation is actually the product of a complex interaction of industry interests consumer groups insurance regulations and political elites Using both historical and quantitative approaches the author examines a variety of insurance issues including the development of insurance regulation the impact of regulation on the availability and price of insurance the stringency of state regulation and the product liability insurance crisis of 1985 86 The book concludes with a series of recommendations for reforming the regulation of insurance

*Regulatory Governance* Abha Yadav, 2025-04-01 This book explores the role of regulatory bodies and their emergence as the fourth branch of governments It brings together

professionals academicians and experts working in regulatory sector to present a foundational text on regulatory regime in India From case studies to theoretical interventions the book brings together a wide range of insights on an important but often neglected aspect of governance It examines a range of themes including the need for regulatory policy in a post Covid world regulatory excellence impact of regulatory assessments regulation of hazard competition commissions regulation of digital assets stakeholder interests and investor activism and anti trust laws The volume will be of great interest to scholars and researchers of law and governance public policy and South Asian studies
