**THE REIGN OF
JAMES VI**

Reign Of James Vi

Ralph Anthony Houlbrooke

Reign Of James Vi:

The Reign of James VI and I Alan Gordon Rae Smith, 1973 **The Reign of James VI** Julian Goodare, Michael Lynch, 2000-01-11 The reign of James VI 1567 1625 remains one of the most enigmatic in Scottish history There are long periods within it that resemble black holes in our knowledge This study is a concerted attempt by a group of ten scholars of the reign drawn from three different disciplines to shed light on its politics and government viewed through various perspectives These include the royal court which is analysed through its literature architecture and ceremony noble factionalism relations with England a revised model of tensions between church and state and the relationship between the government and the Highlands the Borders and the south west a future region of opposition to Charles I This study also analyses James as a literary author correspondent husband and universal king The book offers alternatives to accepted views of the reign dismissing both Melvillianism and laissez faire monarchy as useful tools It sees the centre of politics as the interaction between an expanded and increasingly expensive royal court and a phenomenal growth of the state based on a huge increase in legislation and the business of the Privy Council **Royal Subjects** Daniel Fischlin, Mark Fortier, 2002 Sixteen leading scholars explore the richness of King James s work from a variety of perspectives and in so doing seek to establish monarchic writing as an important genre in its own right Best known for his landmark version of the Protestant Bible James VI 1566 1625 of Scotland who succeeded Elizabeth I to the English throne was truly a monarch of the word From religious prose and verse to political treatises and social works to love poems and witty doggerel James used writing and the print media to inspire his subjects govern them keep his enemies at bay and even examine his own authority Until now the full span of James s work has received little critical attention by political and literary historians In **Royal Subjects** sixteen leading scholars explore the richness of his oeuvre from a variety of perspectives and in so doing seek to establish monarchic writing as an important genre in its own right Through its unprecedented look at monarchic writing **Royal Subjects** not only enriches our understanding of the reign of James VI and I but also offers fruitful suggestions for approaches to other Renaissance texts and other periods James VI and I Ralph Anthony Houlbrooke, 2006 James VI and I pursued various highly distinctive policies He also to an extent exceptional among monarchs expressed his ideas and aspirations by means of print pen and spoken word The essays in this volume explore four main themes of particular concern to James the union of England and Scotland the government of Scotland religious unity and James s involvement in culture as both author and patron They throw fresh light on the ways in which James communicated his ideas and designs to his subjects and important foreign audiences raising important questions about his judgement and skill as a monarch **James VI and I** Ralph Houlbrooke, 2017-03-02 James VI and I was the first king to rule both England and Scotland He was unique among British monarchs in his determination to communicate his ideas by means of print pen and spoken word James s own work as an author is one of the themes of this volume One essay also sheds new light on his role as a patron and protector of plays and

players A second theme is the king's response to the problems posed by religious divisions in the British Isles and Europe as a whole Various contributors to this collection elucidate James's own religious beliefs and their expression his efforts before 1603 to counter a potential Catholic claim to the English throne his attempted appropriation of scripture in support of his own authority and his distinctive vision of imperial kingship in Britain Some different reactions to the king to his expression of his ideas and to the implementation of his policies form this book's third theme They include the vigorous resistance to his attempt to change Scottish religious practice and the sharply contrasting assessments of his life and reign written after James's death

The Early Life of James VI Steven J. Reid, 2023-03-09 Shortlisted for the Saltire Society Scottish History Book of the Year Award James VI and I was arguably the most successful ruler of the Stewart Dynasty in Scotland and the first king of a united Great Britain His ableness as a monarch it has been argued stemmed largely from his Scottish upbringing This book is the first in depth scholarly study of those formative years It tries to understand exactly when in James long apprenticeship he seized political power and retraces the incremental steps he took along the way It also poses new answers to key questions about this process What relationship did he have with his mother Mary Queen of Scots Why did he favour his kinsman Esm Stuart ultimately Duke of Lennox to such an extent that it endangered his own throne And was there a discernible pattern of intent to the alliances he made with the various factions at court between 1578 and 1585 This book also analyses James early reign as an important case study of the impact of the Reformation on the monarchy of early modern Europe and examines the cultural activity at James early court

James VI and I Roger Lockyer, 1998 Adopting a thematic approach this addition to the Profiles in Power series aims to provide an objective assessment of James VI and I a figure who has traditionally been viewed critically as both as a man and a monarch

King James Pauline Croft, 2017-04-21 The accession of James VI of Scotland to the English throne in 1603 created a multiple monarchy covering the three kingdoms of England Scotland and Ireland which endured until 1922 Clear and concise Pauline Croft's study provides a compelling narrative of the king's reign in all of his dominions together with an authoritative analysis of his remarkable though flawed achievements Bringing together all of the latest researches and debates on the three realms in the years 1566 1625 Croft emphasises their interaction and the problems posed by multiple monarchy She also examines the interplay between domestic and foreign policy religious tensions at home and abroad finance and parliamentary politics and discusses the king's writings his personal life and his own view of his role An ideal introduction for all those with an interest in the reign of James VI of Scotland and I of England this is the first account to successfully place the king in the context of all his kingdoms

James VI and Noble Power in Scotland 1578-1603 Miles

Kerr-Peterson, Steven J. Reid, 2016-12-19 *James VI and Noble Power in Scotland* explores how Scotland was governed in the late sixteenth century by examining the dynamic between King James and his nobles from the end of his formal minority in 1578 until his accession to the English throne in 1603. The collection assesses James' relationship with his nobility, detailing how he interacted with them and how they fought, co-operated with and understood each other. It includes case studies from across Scotland from the Highlands to the Borders and burghs and on major individual events such as the famous Gowrie conspiracy. Themes such as the nature of government in Scotland and religion as a shaper of policy and faction are addressed as well as broader perspectives on the British and European nobility, bloodfeuds and state building in the early modern period. The ten chapters together challenge well-established notions that James aimed to be a modern centralising monarch seeking to curb the traditional structures of power and that the period represented a period of crisis for the traditional and unrestrained culture of feuding nobility. It is demonstrated that King James was a competent and successful manager of his kingdom who demanded a new level of obedience as a universal king. This volume offers students of Stuart Britain a fresh and valuable perspective on James and his reign.
