The Russian Empire 1450-1801 Nancy Shields Kollmann, 2017-02-09 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today The Russian Empire 1450 1801 surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450 1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures

Quest for Status Deborah Welch Larson, Alexei Shevchenko, 2019-01-01 A look at how the desire to improve international status affects Russia's and China's foreign policies Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia Applying social identity theory the idea that

individuals derive part of their identity from larger communities to nations they contend that China and Russia have used various modes of emulation competition and creativity to gain recognition from other countries and thus validate their respective identities To make this argument they analyze numerous cases including Catherine the Great s attempts to westernize Russia China s identity crises in the nineteenth century and both countries responses to the end of the Cold War The authors employ a multifaceted method of measuring status factoring in influence and inclusion in multinational organizations military clout and cultural sway among other considerations Combined with historical precedent this socio psychological approach helps explain current trends in Russian and Chinese foreign policy

Personality and Place in Russian Culture Simon Dixon,2010 Lindsey Hughes 1949 2007 made her reputation as one of the foremost historians of the age of Peter the Great by revealing the more freakish aspects of the tsar s complex mind and reconstructing the various physical environments in which he lived Contributors to Personality and Place in Russian Culture were encouraged to develop any of the approaches featured in Hughes s work pointillist and panoramic playful and morbid quotidian and bizarre The result is a rich and original collection ranging from the sixteenth century to the present day in which a group of leading international scholars explore the role of the individual in Russian culture the myriad variety of individual lives and the changing meanings invested in particular places The editor Simon Dixon is Sir Bernard Pares Professor of Russian History at UCL School of Slavonic and East European Studies

Russia in the Early Modern World Donald Ostrowski,2022-01-25 A fundamental problem in studying early modern Russian history is determining Russia s historical development in relationship to the rest of the world The focus throughout this book is on the continuity of Russian policies during the early modern period 1450 1800 and that those policies coincided with those of other successful contemporary Eurasian polities The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia s success Instead Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know how mostly from Europe but also from Asia In this respect they were willing to look abroad for solutions to domestic problems Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies The Church played an active role in supporting the government and in seeking to eliminate opposition to the government

Seapower States Andrew Lambert,2018-11-27 A fascinating geopolitical chronicle A superb survey of the perennial opportunities and risks in what Herman Melville called the watery part of the world The Wall Street Journal In this volume one of the most eminent historians of our age investigates the extraordinary success of five small maritime states Andrew Lambert author of The Challenge Britain Against America in the Naval War of 1812 winner of the prestigious Anderson Medal turns his attention to Athens Carthage Venice the Dutch

Republic and Britain examining how their identities as seapowers informed their actions and enabled them to achieve success disproportionate to their size Lambert demonstrates how creating maritime identities made these states more dynamic open and inclusive than their lumbering continental rivals Only when they forgot this aspect of their identity did these nations begin to decline Recognizing that the United States and China are modern naval powers rather than seapowers is essential to understanding current affairs as well as the long term trends in world history This volume is a highly original big think analysis of five states whose success and eventual failure is a subject of enduring interest by a scholar at the top of his game An intriguing series of stories of communities thinking seriously about how to stand their own ground when outpowered how to do so in ways that are consistent with their values and sometimes how to negotiate the descent from being a great power when the cards just aren't in their favor any more These are timely questions Times Higher Education Supplement Lambert is without a doubt the most insightful naval historian writing today The Times **Pushkin's**

Historical Imagination Svetlana Evdokimova,1999-01-01 This book explores the historical insights of Alexander Pushkin 1799 1837 Russia's most celebrated poet and arguably its greatest thinker Svetlana Evdokimova examines for the first time the full range of Pushkin's fictional and nonfictional writings on the subject of history writings that have strongly influenced Russians' views of themselves and their past Through new readings of his drama Boris Godunov such narrative poems as Poltava The Bronze Horseman and Count Nulin prose fiction including The Captain's Daughter and Blackamoor of Peter the Great lyrical poems and a variety of nonfictional texts the author presents Pushkin not only as a progenitor of Russian national mythology but also as an original historical and political thinker Evdokimova considers Pushkin within the context of Romantic historiography and addresses the tension between Pushkin the historian and Pushkin the fiction writer She also discusses Pushkin's ideas on the complex relations between chance and necessity in historical processes on the particular significance of great individuals in Russian history and on historical truth Peter the Great Changes Russia Marc
