~THEœ RUSSIAN EXPERIMENT IN ART ~1863-1922œ (EIGHTEEN HUNDRED AND SIXTY-THREE TO NINETEEN HUNDRED AND TWENTY-TWO). Camilla Gray,1986 **The Russian Experiment in Art, 1863-1922** Camilla Gray,1971

Nineteenth-century Painters and Painting Geraldine Norman,1977-01-01 **Dan Flavin** Tiffany Bell,Michael Govan,2004-01-01 New scholarship and interpretation of Flavin s work also appears in the form of three critical essays by experts and an extensive chronology comprehensive bibliography and exhibition history In addition this book includes Flavin s text in daylight or cool white an autobiographical sketch originally published in Artforum in 1965 and two interviews with the artist one from 1972 and the other from 1982 BOOK JACKET *Russian Genre Painting in the Nineteenth Century* Rosalind Polly Blakesley,2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West **The Fate of the New Man** Claire McCallum,2018-07-03 Between 1945 and 1965 the catastrophe of war and the social and political changes it brought in its wake had a major impact on the construction of the Soviet masculine ideal Drawing upon a wide range of visual material The Fate of the New Man traces the dramatic changes in the representation of the Soviet man in the postwar period It focuses on the two identities that came to dominate such depictions in the two decades after the end of the war the Soviet man s previous role as a soldier and his new role in the home once the war was over In this compelling study Claire McCallum focuses on the reconceptualization of military heroism after the war the representation of contentious subjects such as the war damaged body and bereavement and postwar changes to the depiction of the Soviet man as father McCallum shows that it was the Second World War rather than the process of de Stalinization that had the greatest impact on the masculine ideal proving that even under the constraints of Socialist Realism the physical and emotional devastation caused by the war was too great to go unacknowledged The Fate of the New Man makes an important contribution to Soviet masculinity studies McCallum s research also contributes to broader debates surrounding the impact of Stalin s death on Soviet society and on the nature of the subsequent Thaw as well as to those concerning the relationship between Soviet culture and the realities of Soviet life This fascinating study will appeal to scholars and students of Soviet history masculinity studies and visual culture studies *The Futurist Files* Iva Glisic,2018-10-26 Futurism was Russia s first avant garde movement Gatecrashing the Russian public sphere in the early twentieth century the movement

called for the destruction of everything old so that the past could not hinder the creation of a new modern society Over the next two decades the protagonists of Russian Futurism pursued their goal of modernizing human experience through radical art The success of this mission has long been the subject of scholarly debate Critics have often characterized Russian Futurism as an expression of utopian daydreaming by young artists who were unrealistic in their visions of Soviet society and naïve in their comprehension of the Bolshevik political agenda By tracing the political and ideological evolution of Russian Futurism between 1905 and 1930 Iva Glisic challenges this view demonstrating that Futurism took a calculated and systematic approach to its contemporary socio political reality This approach ultimately allowed Russia's Futurists to devise a unique artistic practice that would later become an integral element of the distinctly Soviet cultural paradigm Drawing upon a unique combination of archival materials and employing a theoretical framework inspired by the works of philosophers such as Lewis Mumford Karl Mannheim Ernst Bloch Fred Polak and Slavoj Žižek *The Futurist Files* presents Futurists not as blinded idealists but rather as active and judicious participants in the larger project of building a modern Soviet consciousness This fascinating study ultimately stands as a reminder that while radical ideas are often dismissed as utopian and impossible they did and can have a critical role in driving social change It will be of interest to art historians cultural historians and scholars and students of Russian history

Soviet Socialist Realism and Art in the Asia-Pacific Alison Carroll, 2024-10-08 This study evaluates how the ideology of Socialist Realism developed by the Soviets in policies and the practices of art has been influential in the Asia Pacific region from 1917 until today Focusing primarily on Russia then China Vietnam Korea Singapore Indonesia the Philippines and Australia this book demonstrates how each society adopted and adapted the Soviet example to make some of the most important imagery of recent history Included is an examination of how the practice of Western art history the nature of art history in Asia and the forces of the Cold War have led to this influence being inadequately acknowledged across Asia and more widely The book will be relevant to those interested in art history Asian studies political history and cultural history

Language and Metaphors of the Russian Revolution Lonny Harrison, 2020-12-16 *Language and Metaphors of the Russian Revolution* Sow the Wind Reap the Storm is a panoramic history of the Russian intelligentsia and an analysis of the language and ideals of the Russian Revolution from its inception over the long nineteenth century through fruition in early Soviet society This volume examines metaphors for revolution in the storm flood and harvest imagery ubiquitous in Russian literary works At the same time it considers the struggle to own the narrative of modernity including Bolshevik weaponization of language and cultural policy that supported the use of terror and social purging This uniquely cross disciplinary study conducts a close reading of texts that use storm flood and agricultural metaphors in diverse ways to represent revolution whether in anticipation and celebration of its ideals or in resistance to the same A spotlight is given to the lives and works of authors who responded to Soviet authoritarianism by reclaiming the narrative of revolution in the name of personal freedom and restoration of humanist values Hinging on the

clashes of culture wars and class wars and residing at the intersection of ideas at the very core of the fight for modernity this book provides a critical reading of authoritarian discourse and investigates rare examples of the counter narratives that thrived in spite of their suppression
