**Russian Literature, 1995-2002** Norman N. Shneidman, 2004-12-15 Writers have a difficult time making a living in contemporary Russia Market driven publishing companies have pushed serious domestic prose to the fringes of their output and few people have money to buy books The disintegration of the Soviet Union in 1991 led Russian society to become polarized between an increasingly prosperous minority and a very poor majority This divide is also mirrored within the writing community with some writers supporting conservative nationalist pro Soviet thinking and others liberal democratic pro Western thought N N Shneidman in the tradition of his previous volumes Soviet Literature in the 1970s Soviet Literature in the 1980s Russian Literature 1988 1994 investigates the Russian literary scene with special emphasis on the relationship between thematic substance and the artistic quality of recently published prose Despite the many challenges besetting it Shneidman argues convincingly that literary activity in Russia continues to be dynamic and vibrant The future development of Russian literature may depend on general economic political and social factors but a new generation of talented writers is fast moving past older forms of ideology and embracing new ways of thinking about Russia Twentieth-Century Russian Poetry Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi authored study of changing cultural memory and identity this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary works that best express a nation's culture This process is of course fluid and subject to significant shifts particularly at times of epochal change This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008 In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy the way was open for wholesale reinterpretation of twentieth century poets such as Iosif Brodskii Anna Akhmatova and Osip Mandelstam their works and their lives In the last twenty years many critics have discussed the possibility of various coexisting canons rooted in official and non official literature and suggested replacing the term Soviet literature with a new definition Russian literature of the Soviet period Contributions to this volume explore the

multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics Among factors which may influence the composition of the canon are educational institutions competing views of scholars and critics including figures outside Russia and the self canonising activity of poets themselves Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre revolutionary cultural traditions through a narrative of the past which foregrounds continuity Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground Required reading for students teachers and lovers of Russian literature Twentieth Century Russian Poetry brings our understanding of post Soviet Russia up to date *Canadian-American Slavic Studies*, 2008 A quarterly journal devoted to Russia and East Europe The Artistic Censoring of Sexuality Susan Mooney, 2008 Through the twentieth century from colonial Ireland to the United States and from Franco's Spain to late Soviet Russia to include sexuality in a novel signaled social progressiveness and artistic innovation but also transgression Certain novelists such as James Joyce Vladimir Nabokov Luis Mart n Santos and Viktor Erofeev radicalized the content of the novel by incorporating sexual thoughts situations and fantasies and thus portraying repressed areas of social cultural political and mental life In The Artistic Censoring of Sexuality Fantasy and Judgment in the Twentieth Century Novel Susan Mooney extensively examines four modernist and postmodernist novels that prompted in their day harsh external censorship because of their sexual content *Ulysses* *Lolita* *Time of Silence* and *Russian Beauty* She shows how motifs of censorship with all its restrictions pressures rules judgments and forms of negation became artistically embedded in the novels plots characters settings tropes and themes These novels contest censorship's status quo and critically explore its processes and power This study reveals the impact of censorship on literary creation particularly in relation to the twentieth century's growing interest in sexuality and its discourses

L. Krementsov, 2018 In 1865 British polymath Francis Galton published his initial thoughts about the scientific field that would become eugenics The same year Russian physician Vasili Florinskii addressed similar issues in a sizeable treatise entitled Human Perfection and Degeneration Initially unheralded Florinskii s book would go on to have a remarkable afterlife in twentieth and twenty first century Russia In this lucid and insightful work Nikolai Krementsov argues that the concept of eugenics brings together ideas values practices and fears energised by a focus on the future It has proven so seductive to different groups over time because it provides a way to grapple with fundamental existential questions of human nature and destiny With and Without Galton develops this argument by tracing the life story of Florinskii s monograph from its uncelebrated arrival amid the Russian empire s Great Reforms to its reissue after the Bolshevik Revolution its decline under Stalinism and its subsequent resurgence first as a founding document of medical genetics and most recently as a manifesto for nationalists and racial purists Krementsov s meticulously researched biography of a book sheds light not only

on the peculiar fate of eugenics in Russia but also on its convoluted transnational history elucidating the field's protean nature and its continuing and contested appeal to diverse audiences multiple local trajectories and global trends It is required reading for historians of eugenics science medicine education literature and Russia and it will also appeal to the general reader looking for a deeper understanding of this challenging subject Publisher's website *Sjælens ingeniører* Loa Brix, Ole Nyegaard, Trine Søndergaard, 2005-08-30 *Sjælens ingeniører* behandler i otte artikler en række bemærkelsesværdige værker forfatterskaber og tendenser som alle har haft stor betydning for udviklingen af det 20. århundredes russiske litteratur Femten år efter Sovjetunionens opløsning forsøger antologien at revurdere synet på den russiske og sovjetiske litteratur give plads til nye betydninger og påpege dialoger imellem værker og på tværs af ideologiske skillelinjer Set retrospektivt er det tydeligt i hvor høj grad den kolde krigs polarisering mellem to konkurrerende verdensopfattelser påvirkede den internationale modtagelse af den sovjetrussiske litteratur De russiske værker blev ofte læst som politiske manifeste selvom de langt fra altid var det Antologien giver et nuanceret billede af udviklingen i det 20. århundredes russiske litteratur ved både at fokusere på værkernes enestående særpræg og deres samspil med den russiske litterære tradition De enkelte værker læses ikke udelukkende som politiske skrifter men samspillet mellem litteratur og stat læses heller ikke uden af syne Antologien bærer af begejstring for den russiske litteratur og et ønske om at give den en mere markant placering på det litterære verdenskort
