Russias Restless Frontier The Chechnya Factor In Post Soviet Russia:

Russia's Restless Frontier Dmitri V. Trenin, Alexey Malashenko, 2010-04 The conflict in Chechnya going through its low and high intensity phases has been doggedly accompanying Russia's development In the last decade the Chechen war was widely covered both in Russia and in the West While most books look at the causes of the war explain its zigzag course and condemn the brutalities and crimes associated with it this book is different Its focus lies beyond the Caucasus battlefield In Russia's Restless Frontier Dmitri Trenin and Aleksei Malashenko examine the implications of the war with Chechnya for Russia's post Soviet evolution Considering Chechnya's impact on Russia's military domestic politics foreign policy and ethnic relations the authors contend that the Chechen factor must be addressed before Russia can continue its development

Russia's Restless Frontier Dmitri Trenin, Aleksei Vsevolodovich Malashenko, Anatol Lieven, 2004 The conflict in Chechnya going through its low and high intensity phases has been doggedly accompanying Russia's development In the last decade the Chechen war was widely covered both in Russia and in the West While most books look at the causes of the war explain its zigzag course and condemn the brutalities and crimes associated with it this book is different Its focus lies beyond the Caucasus battlefield In Russia's Restless Frontier Dmitri Trenin and Aleksei Malashenko examine the implications of the war with Chechnya for Russia's post Soviet evolution Considering Chechnya's impact on Russia's military domestic politics foreign policy and ethnic relations the authors contend that the Chechen factor must be addressed before Russia can continue its development

Ethnic Relations in Post-Soviet Russia Andrew Foxall, 2014-10-03 While the collapse of communism in Russia was relatively peaceful ethnic relations have been deteriorating since then This deterioration poses a threat to the functioning of the Russian state and is a major obstacle to its future development Analysing ethnic relations in the North Caucasus this book demonstrates how a myriad of processes that characterised post Soviet transition including demographic change economic upheaval geopolitical instability and political restructuring have affected daily life for citizens It raises important questions about ethnicity identity nationalism sovereignty and territoriality in the post Soviet space

Russian Foreign Policy toward Missile Defense Bilyana Lilly, 2014-08-21 This book is devoted to one of the central issues in U S Russian and NATO Russian relations ballistic missile defense Drawing on more than 2 000 primary sources interviews with Russian and NATO officials and a variety of Russian and Western publications this book offers an unparalleled in depth analysis of the reasons behind Russia's policy towards the construction of a U S ballistic missile defense in Europe It provides a critical assessment of the decision making mechanisms that shape Russia's position on ballistic missile defense as well as Russia's strategic relations with the United States and Russia's interaction with European and non European powers Lilly argues that contrary to Moscow's official claims during the Putin era Russian objections to the construction of ballistic missile defense in Europe have not been wholly dictated by security concerns To Russia missile defense is not purely an issue in and of itself but rather a symbol and instrument of broader political considerations At the international level the factors

that have shaped Russia's response include Moscow's perception of the overall state of U.S.-Russian relations, the Kremlin's capacity to project influence and power abroad and NATO's behavior in the post-Soviet space. Domestically, the issue of missile defense has been a facilitating instrument for strengthening Putin's regime and justifying military modernization. Taken together, these instrumental considerations and their fluctuating intensity in different periods prompt the Russian leadership to pursue contradictory policy approaches simultaneously. On the one hand, the Kremlin seeks U.S. cooperation while on the other hand it threatens retaliation and reinforces Russian offensive capabilities. The result is Moscow's incoherence, inconsistency and double speak over the issue of missile defense. From Conquest to Deportation Jeronim Perovic, 2018-06-01

A synoptic history of Imperial and Soviet Russian conquest and colonization of the North Caucasus

Terrorism and the Politics of Naming Michael Bhatia, 2013-10-18 Previously published as a special issue of *Third World Quarterly*, this volume assesses the nature, power, role and function of names in global politics and the international media. Names are not objective; they accrue subjective associations. For example, Terrorist has a very different connotation to Freedom fighter. The contributors seek the truth beneath the names assigned in an effort to remove the obscurity created by the power of the politics of naming to the reality of the situation, taking examples from Al Qaeda, Russia's demonization of the Chechens and naming in the Israeli-Palestine conflict among other important contemporary debates. *Terrorism and the Politics of Naming* makes a substantial contribution towards elucidating the power of naming in the discourse of conflict and will be of great interest to students and scholars of political philosophy, political theory and politics and the media. *The Caucasus - An Introduction* Frederik Coene, 2009-10-16 This book presents a comprehensive introduction to the Caucasus. It covers the geography and the historical development of the region, economics, politics and government, population, religion and society, culture and traditions and conflicts and international relations. It is written throughout in an accessible style and requires no prior knowledge. *International Organizations and Internal Conditionality* R. Fawn, 2013-11-12 This book explores how norms-based international organizations, namely the Council of Europe and the OSCE, are still able to win in world politics. Fawn uses the concept of internal conditionality to explain how these organizations have been able to respond to members with a lack of material incentives or instruments of coercion.

The Foreign Policy of Russia Robert H. Donaldson, Terrorism and Human Rights Magnus Ranstorp, Paul Wilkinson, 2013-09-13 This book reinforces our knowledge and understanding of the problems involved in balancing human rights protection and security concerns, considering how these human rights issues have been raised by the various international debates and policy issues which have been created by the continuing global war on terrorism. In the shadow of 9/11, the threat of terrorism is an ever-increasing global preoccupation. *Terrorism and Human Rights* discusses the effects of the legal and social aspects of terrorism by examining the relation between security issues and human rights from the angle of international organizations, political bodies and different countries. Some of the examples covered and which are examined in light of their approach and

reaction to terrorism include the European Union the UN Russia and the United States Previously published as a special issue of Terrorism and Political Violence this volume will be useful for all students of security politics and terrorism studies but also for policy makers legislators and law enforcers
