

The background of the cover is a photograph of an ancient stone temple entrance. The structure is made of large, weathered stone blocks with intricate carvings and reliefs. The entrance is framed by a heavy lintel and pilasters. The lighting is dramatic, with strong shadows and highlights that emphasize the texture and depth of the stone carvings.

perspective this book can be useful to any reader who would like to acquire knowledge of religious issues The Study of Religion in an Age of Global Dialogue Leonard J. Swidler, Paul Mojzes, 2000 Religion is the most fundamental comprehensive of all human activities it tries to make sense out of not simply one or another aspect of human life but of all aspects of human experience At the core of every civilization lies its religion which both reflects and shapes it Thus if we wish to understand human life in general and our specific culture and history we need to understand religion What is religion Religion is an explanation of the ultimate meaning of life and how to live accordingly based on a notion of the Transcendent Normally it contains the four C s Creed Code Cult Community structure CREED refers To The cognitive aspect of a religion it is everything that goes into the explanation of the ultimate meaning of life CODE OF BEHAVIOR or ethics includes all the rules and customs of action that somehow follow from one aspect or another of the Creed CULT means all the ritual activities that relate the follower to one aspect or another of the Transcendent either directly or indirectly prayer being an example of the former and certain formal behavior toward representatives of the Transcendent such as priests of the latter COMMUNITY STRUCTURE refers To The relationships among the followers this can vary widely from a very egalitarian relationship As among Quakers through a republican structure as Presbyterians have To a monarchical one As with some Hasidic Jews have with their Rebbe THE TRANSCENDENT As the roots of the word indicate means that which goes beyond the everyday The ordinary The surface experience of reality it can mean spirits gods a Personal God An Impersonal God Emptiness etc This volume looks at the ways we humans have developed to study religion However a new age in human consciousness is now dawning The Age of Global Dialogue a radically new consciousness which fundamentally shifts the ways we understand everything in life including religion This global dialogical way of understanding life does not lead to one global religion but it does lead toward a consciously acknowledged common set of ethical principles a Global Ethic The book looks at these two movements the Age of Global Dialogue and inchoative Global Ethic in order to help readers understand what is going on around them So they might make informed intelligent decisions about the meaning of life and how to live it Author note Leonard Swidler is Professor of Religion at Temple University Paul Mojzesis Academic Dean and Professor of Religious Studies at Rosemount College Mysticism and the Spiritual Quest Phyllis Zagano, 2013 A crosscultural exploration of the meanings definitions practices and common themes of mysticism via a study of original texts in translation from different parts of the world It brings together the writings of the mystics from Christianity Judaism Islam Buddhism Hinduism Taoism and Confucianism in one volume **Rediscovering the Dead Sea Scrolls** Maxine L. Grossman, 2010-06-28 Fifteen respected DSS scholars representing diverse perspectives offer here a window into the scholarly study of these ancient texts Rediscovering the Dead Sea Scrolls introduces readers to a wide range of established and experimental treatments of the Scrolls including paleography archaeology manuscript analysis and a variety of literary historical and social scientific approaches The authors provide not only an introduction to a given approach but also a more self reflective assessment of
