Armand Marie, 1912 *Medicine and Maladies* ,2018-07-03 *Medicine and Maladies* explores the aesthetic medical and socio-political contexts that informed depictions of illness and disease in nineteenth century France Eleven essays by specialists in nineteenth century French literature and visual culture probe the acts of writing reading and viewing corporeal afflictions across the works of medical practitioners surgeons pharmacists novelists and artists Tracing scientific discourse in literary narratives and signalling references to fiction in medical texts the contributions to this interdisciplinary volume invite us to rethink the relationship between the humanities and the medical sciences Young Foucault Elisabetta Basso, 2022-11-22 In the 1950s long before his ascent to international renown Michel Foucault published a scant few works His early writings on psychology psychopathology and anthropology have been dismissed as immature However recently discovered manuscripts from the mid 1950s when Foucault was a lecturer at the University of Lille testify to the significance of the work that the philosopher produced in the years leading up to the archaeological project he launched with *History of Madness* Elisabetta Basso offers a groundbreaking and in depth analysis of Foucault's Lille manuscripts that sheds new light on the origins of his philosophical project She considers the epistemological style and methodology of these writings as well as their philosophical context and the scholarly networks in which Foucault was active foregrounding his relationship to existential psychiatry Young Foucault blurs the boundaries between biography and theory exploring the transformations and at times contradictions that characterize the intellectual trajectory of a philosopher who as Foucault himself put it turned to psychology and from psychology to history Retracing the first steps of the philosopher's intellectual journey Basso shows how Foucault's early writings provide key insights into his archaeological work of the 1960s Assembling a vast array of archival sources including manuscripts reading notes notes for lectures and conferences and correspondence this book develops a

new and deeper understanding of Foucault's body of work
