Scott Howard, Broc Rossell, 2018-08-15 Poetics and Praxis After Objectivism includes an introduction ten chapters and a roundtable afterward all of which have been written specifically for this volume The collection examines late twentieth and early twenty first century poetic praxis within and against the dynamic disparate legacy of Objectivism and the Objectivists This is the first volume in the field to study this vital legacy through current poetic praxis renewing the complexities of the past in terms of the difficulties of the present The book's scope investigates the continuing relevance of the Objectivist ethos to poetic praxis in our time examining and exemplifying generative intersections of creativity and critique *Modernism, the Market and the Institution of the New* Rod Rosenquist, 2009-01-08 This book examines the problems faced by innovative writers working in a late modernist era dominated by Joyce Eliot and Pound *The Zukofsky Era* Ruth Jennison, 2012-07-30 Zukofsky Oppen and Niedecker wrote with a diversity of formal strategies but a singularity of purpose the crafting of an anticapitalist poetics Inaugurated in 1931 by Louis Zukofsky Objectivist poetry gave expression to the complex contours of culture and politics in America during the Great Depression This study of Zukofsky and two others in the Objectivist constellation George Oppen and Lorine Niedecker elaborates the dialectic between the formal experimental features of their poetry and their progressive commitments to the radical potentials of modernity Mixing textual analysis archival research and historiography Ruth Jennison shows how Zukofsky Oppen and Niedecker braided their experiences as working class Jews political activists and feminists into radical canon challenging poetic forms Using the tools of critical geography Jennison offers an account of the relationship between the uneven spatial landscapes of capitalism in crisis and the Objectivists paratactical textscapes In a rethinking of the overall terms in which poetic modernism is described she identifies and assesses the key characteristics of the Objectivist avant garde including its formal recognition of proliferating commodity cultures its solidarity with global anticapitalist movements and its imperative to develop poetics that nurtured revolutionary literacy The resulting narrative is a historically sensitive thorough and innovative account of Objectivism's Depression era modernism A rich analysis of American avant garde poetic forms and politics The Zukofsky Era convincingly situates Objectivist poetry as a politically radical movement comprising a crucial chapter in American literary history Scholars and students of modernism will find much to discuss in Jennison's theoretical study *Global Appetites* Allison Carruth, 2013-05-31 Global Appetites explores how industrial agriculture and countercultural food movements underpin US conceptions of global power in the century since the First World War Allison Carruth's study centers on what she terms the

literature of food a body of work that comprises literary realism late modernism and magical realism along with culinary writing food memoir and advertising Through analysis of American texts ranging from Willa Cather's novel *O Pioneers* 1913 to Novella Carpenter's non-fiction work *Farm City* 2009 Carruth argues that stories about how the United States cultivates distributes and consumes food imbue it with the power to transform social and ecological systems around the world Lively and accessible this interdisciplinary study will appeal to scholars of American literature and culture as well as those working in the fields of food studies food policy agriculture history social justice and the environmental humanities The Undergraduate's Companion to Women Poets of the World and Their Web Sites Katharine A. Dean, 2004-03-30 Devoted exclusively to women poets this volume in the Undergraduate Companion Series presents students with an abundance of important resources necessary for 21st century literary research The most authoritative informative and useful Web sites and print resources have carefully been selected and compiled in a bibliographic guide to the introductory works of 221 women poets who write in English or have works available in English translation Representing more than 25 nationalities worldwide the women included in this volume have each contributed significantly to the genre of poetry For each author you will find concise lists of the best Web sites and printed sources including biographies criticisms dictionaries handbooks indexes concordances journals and bibliographies *Poetry and the Limits of Modernity in Depression America* Justin Parks, 2023-10-05 Furnishing a novel take on the poetry of the 1930s within the context of the cultural history of the Depression this book argues that the period's economic and cultural crisis was accompanied by an epistemological crisis in which cultural producers increasingly cast doubt on language in its ability to represent society *Poetry and the Limits of Modernity in Depression America* pursues this guiding premise through six chapters each framing the problem of the ongoing vitality of language as a social medium with respect to a particular poet Louis Zukofsky and the commodification of language Muriel Rukeyser and documentary photography Charles Reznikoff and Depression era historiography Sterling A Brown and the blues as both an ethnographic phenomenon and a marketable cultural product Norman Macleod and Southwest regionalism and Lorine Niedecker and ethnographic surrealism The book closes by examining the shifting status of the poet as society transitioned from a focus on production to an emphasis on consumption in the Post war period

Reminders Margaret Ronda, 2018-03-20 A literary history of the Great Acceleration *Reminders* examines an archive of postwar American poetry that reflects on new dimensions of ecological crisis These poems portray various forms of reminders from obsolescent goods and waste products to atmospheric pollution and melting glaciers that convey the ecological consequences of global economic development While North American ecocriticism has tended to focus on narrative forms in its investigations of environmental consciousness and ethics Margaret Ronda highlights the ways that poetry explores other dimensions of ecological relationships The poems she considers engage in more ambivalent ways with the problem of human agency and the limits of individual perception and they are attuned to the melancholic and damaging

aspects of environmental existence in a time of generalized crisis Her method which emphasizes the material histories and uneven effects of capitalist development models a unique critical approach to understanding the causes and conditions of ongoing biospheric catastrophe The Cambridge Introduction to Modernist Poetry Peter Howarth, 2011-11-10 Modernist poems are some of the twentieth century's major cultural achievements but they are also hard work to read This wide ranging introduction takes readers through modernism's most famous poems and some of its forgotten highlights to show why modernists thought difficulty and disorientation essential for poetry in the modern world In depth chapters on Pound Eliot Yeats and the American modernists outline how formal experiments take on the new world of mass media democracies total war and changing religious belief Chapters on the avant gardes and later modernism examine how their styles shift as they try to re make the community of readers Howarth explains in a clear and enjoyable way how to approach the forms politics and cultural strategies of modernist poetry in English
