The Natural History of Rabies, 2nd Edition George M. Baer, 1991-03-26 This book provides essential worldwide reference information regarding rabies for public health officials veterinarians physicians virologists epidemiologists infectious disease specialists laboratory diagnosticians and wildlife biologists The book is divided into six main sections covering topics such as the rabies virus including antigenic and biochemical characteristics pathogenesis including the immune response to the infection pathology and latency diagnostic techniques rabies epidemiology in a variety of wild and domestic animals rabies control including vaccination of wild and domestic animals as well as control on the international level and finally a discussion of rabies in humans local wound and serum treatment and human post exposure vaccination Natural History of Rabies First Edition has been the principal worldwide reference since 1975 The new Second Edition has been completely updated providing current information on this historically deadly disease Murciélagos de Tabasco y Campeche Cornelio Sánchez Hernández, María de Lourdes Romero Almaraz, 1995 **Geological Survey Circular** , *The 9.5mm Vintage Film Encyclopaedia* Patrick Moules, 2020-07-28 Written in both English and French The 9 5mm Vintage Film Encyclopaedia provides a single volume comprehensive catalogue of all known 9 5mm film releases including Films Comprising 12 460 individual entries this A Z reference index provides the main listing for each film and its origin where known along with additional information including cast and crew and cross references to other relevant material People This index of all known actors and film crew comprising over 12 000 names provides a listing which is cross referenced to the main entry for each original film they worked on Numbers Path Baby Path scope and other distributors catalogue numbers film length release dates where known and the series in which the films were organised are set out in detail With a foreword from eminent film historian and filmmaker Keith Brownlow this extensively researched text explains the importance of the 9 5mm film from its beginnings in the early 1920s to becoming synonymous with Home Cinema throughout Europe Readers will also find a brief technical explanation on how 9 5mm films were produced along with relevant images Ecological Knowledge and Environmental Problem-Solving National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee on the Applications of Ecological Theory to Environmental Problems, 1986-02-01 This volume explores how the scientific tools of ecology can be used more effectively in dealing with a variety of complex environmental problems Part I discusses the usefulness of such ecological knowledge as population dynamics and interactions community ecology life histories and the impact of various materials and energy sources on the environment Part II contains 13 original and instructive case studies pertaining to the biological side of environmental problems which Nature described as carefully chosen and extremely interesting *Revista Mundial de Zootecnia* , 1993 **The missing woodland resources** Marian Berihuete-Azorín, María Martín Seijo, Oriol López-Bultó, Raquel Piqué, 2022-02-05 Woodlands are a key source of raw materials for many purposes since early Prehistory Wood bark resin leaves fibers fungi moss or tubers have been gathered to fulfill

almost every human need That led societies to develop specific technologies to acquire manage transform elaborate use and consume these resources The materials provided by woodlands covered a wide range of necessities such as food shelter clothing or tool production but they also provided resources employed for waterproofing dying medicine and adhesives among many others All these technological processes and uses are commonly difficult to identify through the archaeological record Some materials are exclusively preserved by charring or in anaerobic conditions at very exceptional sites or leave only a very slight trace behind them e g containers Consequently they have received far less attention in archaeobotanical studies compared to other kind of plant materials consumed as food or firewood This book provides an overview of technological uses of plants from the Palaeolithic to the Post Medieval period This collection of papers presents different archaeobotanical and archaeological studies dealing with the use of a wide range of woodland resources most of them among the less visible for archaeology such as bast fibers and fungi These papers present different approaches for their study combining archaeology archaeobotany and ethnoarchaeology

Natural History of Vampire Bats Arthur M. Greenhall, 2018-05-04 A major problem with vampire bats is that whatever information exists is scattered throughout the literature or is not recorded There are some excellent books on the ecology and biology of bats with very little on vampire bats This volume fills that gap to provide an in depth presentation of these unique animals
