James Marsh Sternberg MD (Dr J), 2025-07-29 The dummy comes down Have you seen this deal before Probably not this exact deal but likely the same type of deal There are only so many themes in bridge second suits crossruffs squeezes and others Recognizing the underlying theme either as the declarer or a defender will guide you to the correct line of play There are many variances and after studying the deals in this book you will have a keener awareness of the underlying themes and how to recognize them at the table **Sales EQ** Jeb Blount, 2017-03-02 The New Psychology of Selling The sales profession is in the midst of a perfect storm Buyers have more power more information more at stake and more control over the sales process than any time in history Technology is bringing disruptive change at an ever increasing pace creating fear and uncertainty that leaves buyers clinging to the status quo Deteriorating attention spans have made it difficult to get buyers to sit still long enough to challenge teach help give insight or sell value And a relentless onslaught of me too competitors have made differentiating on the attributes of products services or even price more difficult than ever Legions of salespeople and their leaders are coming face to face with a cold hard truth what once gave salespeople a competitive edge controlling the sales process command of product knowledge an arsenal of technology and a great pitch are no longer guarantees of success Yet this is where the vast majority of the roughly 20 billion spent each year on sales training goes It s no wonder many companies are seeing 50 percent or more of their salespeople miss quota Yet in this new paradigm an elite group of top 1 percent sales professionals are crushing it In our age of technology where information is ubiquitous and buyer attention spans are fleeting these superstars have learned how to leverage a new psychology of selling Sales EQ to keep prospects engaged create true competitive differentiation as well as shape and influence buying decisions These top earners are acutely aware that the experience of buying from them is far more important than products prices features and solutions In Sales EQ Jeb Blount takes you on an unprecedented journey into the behaviors techniques and secrets of the highest earning salespeople in every industry and field You ll learn How to answer the 5 Most Important Questions in Sales to make it virtually impossible for prospects to say no How to master 7 People Principles that will give you the power to influence

anyone to do almost anything How to shape and align the 3 Processes of Sales to lock out competitors and shorten the sales cycle How to Flip the Buyer Script to gain complete control of the sales conversation How to Disrupt Expectations to pull buyers towards you direct their attention and keep them engaged How to leverage Non Complementary Behavior to eliminate resistance conflict and objections How to employ the Bridge Technique to gain the micro commitments and next steps you need to keep your deals from stalling How to tame Irrational Buyers shake them out of their comfort zone and shape the decision making process How to measure and increase you own Sales EQ using the 15 Sales Specific Emotional Intelligence Markers And so much more Sales EQ begins where The Challenger Sale Strategic Selling and Spin Selling leave off It addresses the human relationship gap in the modern sales process at a time when sales organizations are failing because many salespeople have never been taught the human skills required to effectively engage buyers at the emotional level Jeb Blount makes a compelling case that sales specific emotional intelligence Sales EQ is more essential to success than education experience industry awareness product knowledge skills or raw IQ and sales professionals who invest in developing and improving Sales EQ gain a decisive competitive advantage in the hyper competitive global marketplace Sales EQ arms salespeople and sales leaders with the tool **UNBORED Games** Joshua Glenn,Elizabeth Foy Larsen,2014-10-14 UNBORED Games has all the smarts creativity and DIY spirit of the original UNBORED It s a book It s a guide It s a way of life Los Angeles Magazine but with a laser like focus on the activities we do for pure fun to while away a rainy day to test our skills and stretch our imaginations games There are more than seventy games here 50 of them all new plus many more recommendations and they cover the full gambit from old fashioned favorites to today s high tech games The book offers a gold mine of creative constructive fun intricate clapping games bike rodeo Google Earth challenges croquet golf capture the flag and the best ever apps to play with Grandma to name only a handful Gaming is a whole culture for kids to explore and the book will be complete with gaming history and interviews with awesome game designers The lessons here all games can be self customized or hacked You can even make up your own games Some could even change the world The original UNBORED has taken its place as a much beloved distinctly contemporary family brand UNBORED Games extends the franchise also including UNBORED Adventure in a new handy flexibound format illustrated in full color throughout This is a whole shelf of serious fun the whole family can enjoy indoors outdoors online and offline Fun With Games of Rummy: America's Most Popular Game William S. Trump* Dan P. McAdams,2020-02-17 The Strange Case of Donald J Trump provides a coherent and nuanced psychological portrait of Donald Trump drawing upon biographical events in the subject s life and contemporary scientific research and theory in personality developmental and social psychology Dan P McAdams renowned psychologist who pioneered the study of lives examines the

central personality traits personal values and motives and the interpersonal and cultural factors that together have shaped Trump's psychological makeup with an emphasis on the strangeness of the case that is how Trump again and again defies psychological expectations regarding what it means to be a human being The book's central thesis is that Donald Trump is the episodic man The chapters structured as stand alone essays each riffing on a single psychological theme build on each other to present a portrait of a person who compulsively lives in the moment without an internal story to integrate his life in time With an emphasis on scientific personality research rather than political rhetoric McAdams shows that Trump's utter lack of an inner life story is truly exceptional This book is a remarkable case study which should be of as much interest to psychologists as it is to readers trying to reckon with the often confounding behavior and temperament of the 45th President of the United States
