Kim, 1982 [The Oxford Handbook of Names and Naming](#) Carole Hough, 2016-04-28 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout

the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them

The Region of Lost Names Fred Arroyo, 2008 Remember that the dream of one is the dream of everyone Ernest is searching for a place where he can live beyond his past His family has returned to Puerto Rico and Ernest remains in the States desiring only distance from his memories of childhood displacement and work his parents tumultuous relationship and his own love for Magdalene Magdalene too looks to move beyond her memories as she follows Ernest s family home seeking resolution to her mother s hurtful secrets her father s unknown identity and her love for Ernest As Ernest moves through the fields of Michigan as Magdalene traverses the jungles of Puerto Rico and the shores of the Caribbean they discover that their dreams and identities are linked within the framework of their families and their pasts Together Ernest and Magdalene must come to terms with the secrets and mistakes made by the previous generation the histories of disloyalty and abandonment of secrecy and sorrow Their struggles take place in a region of lost names where loves and memories are banished and found Fred Arroyo writes a story in two voices following Ernest and Magdalene by turns in prose that is elegant and lyrical His words evoke another world lush with the scent of salt spray the taste of mangoes and the rush of leaves alive with characters whose ardors and pathos are achingly real Arroyo explores the ebb and flow between past and present and themes that are enduring Ultimately Ernest and Magdalene must live with more than their memories they must rediscover the intimacies of the region of lost names

Literary Names Alastair Fowler, 2012-09-06 Why do authors use pseudonyms and pen names or ingeniously hide names in their work with acrostics and anagrams How has the range of permissible given names changed and how is this reflected in literature Why do some characters remain mysteriously nameless In this rich and learned book Alastair Fowler explores the use of names in literature of all periods primarily English but also Latin Greek French and Italian casting an unusual and rewarding light on the work of literature itself He traces the history of names through Homer Spenser Shakespeare Milton Thackeray Dickens Joyce and Nabokov showing how names often turn out to be the thematic focus Fowler shows that the associations of names at first limited become increasingly salient and sophisticated as literature itself develops
