Louis Icart The Complete Etchings:

Louis Icart: The Complete Etchings, Revised and Expanded 5th Edition William R. Holland, Clifford P.

Catania, Nathan D. Isen, 2015-09-28 This newly expanded book on Louis Icart one of France's most well known art deco artists now includes a section on his oil paintings as well as over 512 different etchings painstakingly acquired and photographed. Particular attention has been given to the early years 1911-1924 when Icart was a relatively unknown artist and his edition sizes were small. With few exceptions the book contains large full color illustrations that give the reader a true representation of the full size etchings. The authors clarify some of the existing confusion surrounding Icart's work explaining the variations in his signature, the use of the Windmill seal and other seals and the myriad copyright notations found on his artwork. The illustrations have been carefully measured and dated. This is a great addition to the Icart legacy. **The Etchings of Louis**

Icart S. Michael Schnessel, Mel Karmel, 1997-01-09 Artist Louis Icart's famous etchings of beautiful women are pictured here in 456 photos with critical appraisals of his techniques. A family background includes personal photos of Icart's wife, scenes from his home and studio and a chronological catalog of many of his etchings. **The Etchings of Louis Icart** S. Etchings of Louis Icart Louis Icart, 19?? *Being Doll* Lisa Pavlik-Malone, 2014-07-24 In this second volume following *Dolls* Clowns Things the author once again explores the symbolic relationship between the self and the object. This time however the possible fundamental role of cognitive consonance is characterized here as the ability of the mind to integrate opposing ideas into a single expanded understanding of Self. Self is studied in terms of how it might relate to the following three categories of intuitive experience: One, my physical object in which consonance or wholeness expands one's understanding of Self when ideas about youngness and oldness become integrated as part of episodic memories that involve an actual physical toy doll; Two, my objectified being in which consonance takes place when again ideas about youngness and oldness become integrated through the metaphoric objectification of certain points located on the human female body; And three, in which consonance develops as youngness and oldness ideas become integrated through a doll as a work of art. Within the theoretical framework of each of these three categories various psychological dynamics which encompass memory, metaphor and neuroplasticity are understood to be essential to the molding and shaping of one's subjective experience of doll.
