Love Data:

Love Data Simon Drake, 2005-09-07 *Love Data* is an engaging tragicomedy set in the near future and explores the clash of love cloning and indulgence Bill is an inventor with futuristic vices and ambitious experiments on his mind To use technology to trial his version of creative artificial intelligence and bring back a dead lover Jessie He needs a breakthrough and he needs help But the only aid he can find is from Casper a wholesaler of clone androids to the sex industry Casper wishes to help Bill and create history by donating two androids Betty and Jane But Betty and Jane prove more cunning by taking on a life of their own Does any experiment go to plan

Data Love Roberto Simanowski, 2016-09-13 Intelligence services government administrations businesses and a growing majority of the population are hooked on the idea that big data can reveal patterns and correlations in everyday life Initiated by software engineers and carried out through algorithms the mining of big data has sparked a silent revolution But algorithmic analysis and data mining are not simply byproducts of media development or the logical consequences of computation They are the radicalization of the Enlightenment's quest for knowledge and progress *Data Love* argues that the cold civil war of big data is taking place not among citizens or between the citizen and government but within each of us Roberto Simanowski elaborates on the changes data love has brought to the human condition while exploring the entanglements of those who out of stinginess convenience ignorance narcissism or passion contribute to the amassing of ever more data about their lives leading to the statistical evaluation and individual profiling of their selves Writing from a philosophical standpoint Simanowski illustrates the social implications of technological development and retrieves the concepts events and cultural artifacts of past centuries to help decode the programming of our present
