Model: Choosing Love Instead of Fear* John L. Stone,2023-12-05 C H O I C E S Model Choosing Love Instead of Fear is a self empowerment book which was 35 years in the making and based on extensive research That research distilled down to its essence demonstrates that stress is not as is often portrayed in popular culture the enemy Data from two separate fields academia and industry while having opposing views on who is responsible for reducing felt stress both agree that the primary mitigator of harmful distress is locus of control LOC Internal LOC locates the control within the individual whereas external LOC locates the control from outside forces The consensus by academia and industry is the more LOC is internal the less distress is felt Chosen versus imposed stressors yield less harmful impacts from the distress This research becomes a powerful tool to help reduce distress by restoring control to the individual Life can be so overwhelming that automatic knee jerk reactions are used to fend off a constant barrage of stressors The CHOICES Model provides a way to be proactive The more this is done consciously the greater the sense of wellbeing The book presents seven life areas which give purpose and meaning The areas include Community Health Occupation Investment Creativity Education and Spirituality Each is essential to a quality life The premise of this book is that an individual s perception of their own personal power increases with every small success and one area of success gives the individual confidence to believe in themselves enough to attempt challenges in the other domains There s a chapter for each of these seven equally important domains Each area is defined along with the rationale and tools necessary for personal development Community is important because we are social beings with needs for belonging Letting someone know you care allows joy to spring through both your hearts No matter our physical or mental condition health matters to all of us Our personal level of wellbeing sets the limits for what can be our personal best Build strength and immunity when feeling well and be gentle with yourself when you re not Occupation is important because we all have a need to be part of something bigger than ourselves a calling to make a difference and a desire to leave a meaningful legacy This needn t be one s vocation It is literally what occupies our time and energy It may be an avocation or volunteer service work However we spend our time let our life s work lift our hearts and move us all into better days Investment is not limited to finances This area is all about how we spend our resources Besides money it includes our time energy and level of commitment Let s be generous and give of ourselves without expecting anything in return In this way we all have the power to be superheroes Creativity is important because it defines who we are We build a life We express who we are We make something that only we can imagine Expressions from our hearts are never wasted When we bring something new into this world we give birth to something that will survive us Education is something we do naturally and have done since we took our first breath Lifelong learning helps us make our way in the world We know

Panic Disorder - the Choice and Willpower to Survive Suf Supiani,2015-06-08 Happy survivor or unhappy survivor your choice We all have a limit to tolerance We may think our capacity for tolerance is huge However our body has a different opinion and reacts to your troubles This book was written in the hope to help people around the world facing stress in their life and to balance life so as to prevent panic disorder to ever happen A cluttered mind is like a piece of onion Over the years even small unresolved issues become layers and if we do not make an effort to eliminate them fast they linger We need to peel them off consciously The heart connects more strongly with the mind compared to a vivid eyesight A diagnosis on your mental condition is not much different from a diagnosis on any other serious medical condition Only through acceptance the next step of procuring a better and happier life in a long or short period of time can this be achieved By accepting who you are you become free and freedom is power Be mindful that there is hope You need to believe in yourself more than anyone else can Never allow anyone to take your dreams away It is important to identify the cycle that triggers the anxiety and panic attacks especially the vicious ones Upon identifying break it and change the cycle In other words the diagnosis may actually turn out to be the best thing that happened to you While only patients can actually know how it feels caregivers should continuously believe in and focus on the strengths of the patient If you can raise their self esteem with words of encouragement and touches of love your support becomes invaluable
