but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front *The Battle of the Fields* tells the story of rural community and authority in Britain during the Second World War by looking at the County War Agricultural Executive Committees From 1939 they were imbued with powers to transform British farming to combat the loss of food imports caused by German naval activity and initial European mainland successes Their powers were sweeping and draconian When fully exercised against recalcitrant farmers dispossession in part or whole could and did result This book includes the most detailed analysis of these dispossessions including the tragic case of Ray Walden the Hampshire farmer who was killed by police after refusing to leave his farmhouse in 1940 The committees were deemed successful by Whitehall as harbingers of modernity mechanization draining artificial fertilizers reclamation of heaths marshes and woodlands We now deplore some of these changes but Britain did not starve in large part thanks to their efforts This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front It will also demonstrate to all who are anxious about food security in the modern age how this question was dealt with 70 years ago BRIAN SHORT is Emeritus Professor of Historical Geography at the University of Sussex and formerly Dean of School and Head of the Department of Geography

Battleground Sussex

John Grehan, 2012-03-19 From its south eastern tip Sussex is little more than sixty miles from continental Europe and the county's coastline some seventy six miles long occupies a large part of Britain's southern frontier Before the days of Macadam and the Turnpike water travel could prove more certain than land transportation and the seas that define the borders of our nation aided rather than deterred the invader Though the last successful invasion of Britain took place almost 1 000 years ago the gently shelving beaches of Sussex have tempted the prospective invader with the promise of both an easy disembarkation and a short and direct route to London the last time being just seven decades ago As the authors demonstrate the repeated threat of invasion from the Continent has shaped the very landscape of the county The rounded tops of the Iron Age hill forts the sheer walls of the medieval castles the squat stumps of Martello towers the moulded Vaubanesque contours of the Palmerstone redoubts and the crouched concrete blocks and bricks of the Second World War pillboxes constitute the visible evidence of Sussex's position on Britain's front line

Churchill's Last Wartime Secret Adrian Searle, 2016-11-30 It's been a State secret for more than 70 years The official line in the UK has always been that it never happened but this new work challenges the assertion that no German force set foot on British soil during World War Two the Channel Islands excepted on active military service Churchill's Last Wartime Secret reveals the remarkable story of a mid war seaborne enemy raid on an Isle of Wight radar station It describes the purpose and scope of the attack the composition of the raiding German force and how it was immediately and understandably hushed up by Winston Churchill's wartime administration in order to safeguard public morale Circumventing the almost complete lack of official British archival

documentation the author relies on compelling and previously undisclosed firsthand evidence from Germany to underpin the book's narrative and claims thus distinguishing it from other tales of rumored seaborne enemy assaults on British soil during the 1939-45 conflict After examining the outcome and repercussions of this astonishing incident what emerges is an event of major symbolic significance in the annals of wartime history **Contemporary Rural Geographies** Hugh Clout,2007-06-11 A cohesive set of research statements on critical related issues in British rural geography **Kent and Sussex 1940** Stuart Hylton,2004-09-20 In June 1940 Britain's front line against the German armies was the coast of Kent and Sussex Across the Channel Hitler's forces gathered preparing for invasion as the Home Forces struggled desperately to recover from the disaster and miracle of Dunkirk Occupation of these islands was nearer than for almost nine hundred years Kent and Sussex 1940 tells the story of the communities that found themselves in the front line placing their experience within the context of huge historic events **A - Airports** British Library,2012-05-21 No detailed description available for A Airports *The Shell Weekend Guide to London and the South-East* Robert Nicholson,1979 Covers London and an area approximately 50 miles around it *Contemporary Architects* Muriel Emanuel,2016-01-23 **War and the Cultural Construction of Identities in Britain** ,2021-12-28 The British have been involved in numerous wars since the Middle Ages Many if not all of these wars have been re-constructed in historical accounts in the media and in the arts and have thus kept the nation's cultural memory of its wars alive Wars have influenced the cultural construction and reconstruction not only of national identities in Britain personal communal gender and ethnic identities have also been established shaped reinterpreted and questioned in times of war and through its representations Coming from Literary Film and Cultural Studies History and Art History the contributions in this multidisciplinary volume explore how different cultural communities in the British Isles have envisaged war and its significance for various aspects of identity formation from the Middle Ages through to the 20th century
