Proceedings of the 2nd UPY International Conference on Education and Social Science (UPINCESS 2023) Ari Kusuma Wardana, 2023-12-31 This is an open access book Technology has had a huge impact on education and social dynamics around the world Since the introduction of information and communication technologies ICTs such as the internet smartphones and social media much has changed in the way we learn and interact with others In education technology has enabled students and teachers to access more diverse and engaging educational resources With internet access students and teachers can access educational resources from all over the world and learn about various topics and disciplines In addition technology also enables distance learning which allows students and teachers to connect from different locations However there are also negative impacts of using technology in education For example excessive use of social media and the internet can cause concentration disorders and addiction in students In addition too much reliance on technology can also reduce students ability to think critically and solve problems independently In social dynamics technology has allowed us to connect with people from all over the world

and paved the way for greater collaboration and cultural exchange However technology has also brought negative impacts on social dynamics such as the spread of fake news or hoaxes cyberbullying and social media addiction In this regard technology can be a very useful tool if used wisely and with proper understanding of its impact Therefore to support this Universitas PGRI Yogyakarta was hold an international conference and Call for Papers The 2nd UPY International Conference on Education and Social Science UPINCESS The Impact of Technology on Education and Social Dynamics on September 27 2023 The conference aims to discuss in depth about the impact of technology on education and social dynamics as well as finding appropriate solutions and strategies to minimize its negative impact and maximize its benefits Experts researchers and practitioners in the field of education and technology from around the world can share their knowledge and experience in this conference and can encourage collaboration and innovation in this field Global Mindsets John Kuada,2016-04-28 Global Mindsets seeks to tackle a topic that is relatively new in research and practice and is considered by many to be critical for firms seeking to conduct global business It argues that multiple mindsets exist across and within organizations that they operate in a global context and that they are dynamic and undergo change and action Part of the mindset s may depend upon place situation and context where individuals and organizations operate The book examines the notion of mindset is situational and dynamic especially in a global setting why it is important for future scholars and managers and how it could be conceptualized The book includes conceptual chapters that push the current boundaries of research on the topic and empirical chapters that demonstrate how different organizations in different countries apply mindset perspectives in their management practices It seeks to help academics consultants and researchers understand what has been said and studied about global mindsets in action and gain insights into possible directions and challenges that the field may face in the future
