Mineral Assessment Report 45 The Sand :

Mineral Assessment Report ,1984 *Bibliography and Index of Geology* ,1985 Solway Country Allen J. Scott,2014-11-19 The Solway Country the lands surrounding the inner Solway Firth constitutes one of the many small regional worlds of the British Isles that are remarkable for the ways in which their landscapes evoke a powerful sense of territorial identity rooted not only in their physical appeal but also in the richness and distinctiveness of their human history and geography The Solway Country is an archetypical but hitherto little known exemplar of places like these This book captures the spirit and substance of the Solway Country s allure by means of a series of layered narratives dealing with its natural milieu its past social and political turmoil its changing forms of rural and agrarian life and its responses to the industrial and urban forces that were unleashed in Britain after the eighteenth century The Solway Country has the added charm of being partly in England and partly in Scotland so that its personality partakes of elements of both At the same time the region exhibits a composite geographic unity derived from the central physical feature of the Solway Firth itself and from the many common aspects of local life and livelihood that have left deep imprints on the landscape This unity is expressed symbolically in the peculiar hybrid culture of ballads and songs that emerged alongside the theft murder and mayhem that raged in the Anglo Scottish marchlands in the days of the border reivers **Innermost Asia; Detailed Report of Explorations in Central Asia, Detailed Report of Explorations in Central Asia, Kan-su and Eastern Īrān, Carried Out and Described Under the Orders of H. M. Indian Government** Sir Aurel Stein,1928 Minerals Yearbook ,2003

Report of Professor George H. Cook Upon the Geological Survey of New Jersey ... New Jersey Geological Survey, 1863-1915,1874 **Quaternary of the Trent** David R. Bridgland,Andy Howard,Mark J. White,Tom S. White,2014-03-31 This volume is an integrated overview and synthesis of available data relating to the Quaternary evolution of the River Trent It provides detailed descriptions of the Pleistocene sedimentary records from the Trent its tributaries and related drainage systems a sedimentary record that spans a period of approximately half a million years and the biostratigraphical and archaeological material preserved therein Significant new data are presented from recently discovered sites of geological and archaeological importance including previously unrecognised fluvial deposits as well as novel analyses such as mathematical modelling of fluvial incision as recorded by the river terrace deposits In combination with a thorough review of the literature on the Trent these new data have contributed to revised chronostratigraphical and palaeogeographical frameworks for central England and revealed the complexity of the Pleistocene fluvial and glacial records in this region The fragmentary Trent terrace sequence is an important element of wider reconstructions of Pleistocene palaeodrainage in Britain providing a link between the records preserved in the English Midlands and those in East Anglia **Annual Report on Mineral Industry Operations in Ontario During Calendar Year ...** ,1928 *Investigations of Mineral Resources and the Mining Industry* Canada. Mines Branch,1924 *British Geological Literature* ,1983 **Mineral War Reports** United

States. Bureau of Mines,1943 *Oil Shales and Tar Sands* United States. Department of Energy,1977 *Annual Report of the State Geologist of New Jersey for ...* Geological Survey of New Jersey,1876 Energy Abstracts for Policy Analysis ,1986

Quaternary of Scotland J.E. Gordon,D.G. Sutherland,2012-12-06 In describing the geomorphological heritage of Scotland this volume offers a remarkable account of how the natural environment responded in terms of landforms processes and plant communities to severe climatic change as the Quaternary era progressed over the last two million years This legacy as preserved in the 138 nationally important GCR sites described documents a remarkable diversity of landforms in a relatively small area The rugged highland contrast with the rolling hills and flat plains found further south while the western and northern islands together with the highly indented coastline add further to the scenic diversity How this variety of landscapes came into being the forces which shaped it and the climatic extremes which drove it are the themes explored in this volume **Sessional Papers** Canada. Parliament,1914 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement U.S. Geological Survey Bulletin ,1983 *U.S. Geological Survey Bulletin* John L. Dwyer,Sandra H. B. Clark,Tom Gray Lovering,Allen Van Heyl,Elwin L. Mosier,John Thomas Nash,1983 *Contributions to Commodity Geology Research* John H. DeYoung,Jane Marie Hammarstrom,Geological Survey (U.S.),1992 **Aggregates** Mick R. Smith,L. Collis,P. G. Fookes,2001
