Weep Not for Me, Dear Mother Roberson, Elizabeth Whitley,1991

Arming the Confederacy Robert C. Whisonant,2015-02-21 This is a fresh look at the American Civil War from the standpoint of the natural resources necessary to keep the armies in the field This story of the links between minerals topography and the war in western Virginia now comes to light in a way that enhances our understanding of America s greatest trial Five mineral products niter lead salt iron and coal were absolutely essential to wage war in the 1860s For the armies of the South those resources were concentrated in the remote Appalachian highlands of southwestern Virginia From the beginning of the war the Union knew that the key to victory was the destruction or occupation of the mines furnaces and forges located there as well as the railroad that moved the resources to where they were desperately needed To achieve this Federal forces repeatedly advanced into the treacherous mountainous terrain to fight some of the most savage battles of the War

War Photographs Taken on the Battlefields of the Civil War Mathew B. Brady,Alexander Gardner,2013-06-01 Fought over the course of four years the Civil War pitted countrymen against countrymen North versus South friend against

friend and brother against brother The photographs within these pages document the war that united America as one These rare shots were taken in the middle of the battlefield during the earliest days of photography Selected from a collection of seven thousand original negatives these historic photos capture nearly every aspect of Civil War life Among these photos are images of camps sprawling across acres soldiers at their battlements firing of heavy artillery the aftermath of battle and the terror that these young men faced See first hand of Union and Confederate officers strategizing their next moves and Abraham Lincoln addressing his Union commanders Originally released from the private collection of Edward Bailey Eaton in 1907 this edition is a must have for any Civil War buff or historian No collection can be considered complete without these photographs by Matthew Brady and Alexander Gardner as well as the meticulous passages that put the images in illuminating context

Original Photographs Taken on the Battlefields during the Civil War of the United States (Illustrations) Francis Trevelyan Miller, 2020-04-17 This is undoubtedly the most valuable collection of historic photographs in America It is believed to be the first time that the camera was used so extensively and practically on the battle field It is the first known collection of its size on the Western Continent and it is the only witness of the scenes enacted during the greatest crisis in the annals of the American nation As a contribution to history it occupies a position that the higher art of painting or scholarly research and literal description can never usurp It records a tragedy that neither the imagination of the painter nor the skill of the historian can so dramatically relate The existence of this collection is unknown by the public at large Even while this book has been in preparation eminent photographers have pronounced it impossible declaring that photography was not sufficiently advanced at that period to prove of such practical use in War Distinguished veterans of the Civil War have informed me that they knew positively that there were no cameras in the wake of the army This incredulity of men in a position to know the truth enhances the value of the collection inasmuch that its genuineness is officially proven by the testimony of those who saw the pictures taken by the personal statement of the man who took them and by the Government Records For forty two years the original negatives have been in storage secreted from public view except as an occasional proof is drawn for some special use How these negatives came to be taken under most hazardous conditions in the storm and stress of a War that threatened to change the entire history of the world is itself an interesting historical incident Moreover it is one of the tragedies of genius While the clouds were gathering which finally broke into the Civil War in the United States there died in London one named Scott Archer a man who had found one of the great factors in civilization but died poor and before his time because he had overstrained his powers in the cause of science It was necessary to raise a subscription for his widow and the government settled upon the children a pension of fifty pounds per annum on the ground that their father was the discoverer of a scientific process of great value to the nation from which the inventor had reaped little or no benefit This was in 1857 and four years later when the American Republic became rent by a conflict of brother against brother Mathew B Brady of Washington and New York asked the permission of the Government and the protection of the Secret

Service to demonstrate the practicability of Scott Archer's discovery in the severest test that the invention had ever been given Brady was an artist by temperament and gained his technical knowledge of portraiture in the rendezvous of Paris. He had been interested in the discoveries of Niepce and Daguerre and Fox Talbot along the crude lines of photography but with the introduction of the collodion process of Scott Archer he accepted the science as a profession and during twenty five years of labor as a pioneer photographer took the likenesses of the political celebrities of the epoch and of eminent men and women throughout the country. Brady's request was granted and he invested heavily in cameras which were made specially for the hard usage of warfare. These cameras were cumbersome and were operated by what is known as the old wet plate process requiring a dark room which was carried with them onto the battle fields. The experimental operations under Brady proved so successful that they attracted the immediate attention of President Lincoln, General Grant and Allan Pinkerton known as Major Allen and chief of the Secret Service. Equipments were hurried to all divisions of the great army and some of them found their way into the Confederate ranks. To be continued in this ebook

Emancipating Slaves, Enslaving Free Men Jeffrey Hummel, 2013-12-10 Combines a sweeping narrative history of the Civil War with a bold new look at the war's significance for American society. Professor Hummel sees the Civil War as America's turning point simultaneously the culmination and repudiation of the American revolution. A unique feature of the book is the bibliographical essays which follow every chapter. Here the author surveys the literature and points out where his own interpretation fits into the continuing clash of viewpoints which informs historical debate on the Civil War

Southern Women Novelists and the Civil War Sharon Talley, 2014-04-09 During and after the Civil War southern women played a critical role in shaping the South's evolving collective memory by penning journals and diaries, historical accounts, memoirs and literary interpretations of the war. While a few of these writings, most notably Mary Chesnut

s diaries and Margaret Mitchell's novel *Gone with the Wind* have been studied in depth by numerous scholars until now there has been no comprehensive examination of Civil War novels by southern women. In this welcome study Sharon Talley explores works by fifteen such writers illuminating the role that southern women played in fashioning cultural identity in the region. Beginning with Augusta Jane Evans's *Macaria* and Sallie Rochester Ford's *Raids and Romance of Morgan and His Men* which were published as the war still raged, Talley offers a chronological consideration of the novels with informative introductions for each time period. She examines Reconstruction works by Marion Harland, Mary Ann Cruse, and Rebecca Harding Davis novels of the Redeemed South and the turn of the century by Mary Noailles Murfree, Ellen Glasgow, and Mary Johnston and narratives by Evelyn Scott, Margaret Mitchell, and Caroline Gordon from the Modern period that spanned the two World Wars. Analysis of Margaret Walker's *Jubilee* 1966, the first critically acclaimed Civil War novel by an African American woman of the South, as well as other post World War II works by Kaye Gibbons, Josephine Humphreys, and Alice Randall offers a fitting conclusion to Talley's study by addressing the inaccuracies in the romantic myth of the Old South that *Gone with the Wind* most famously engraved on the nation's consciousness. Informed by feminist poststructural and cultural studies theory, Talley's close readings of these various novels ultimately refute the notion of a monolithic interpretation of the Civil War, presenting instead unique and diverse approaches to balancing fact and fiction in the long period of artistic production concerning this singular traumatic event in American history. Sharon Talley, professor of English at Texas A M University, Corpus Christi, is the author of *Ambrose Bierce and the Dance of Death* and *Student Companion to Herman Melville*. Her articles have appeared in *American Imago*, *Journal of Men's Studies*, and *Nineteenth Century Prose*.

Financing Armed Conflict, Volume 2 Thomas M. Meagher, 2017-02-08. This second part of a two volume series examines in detail the financing of America's major wars from the Spanish American War to the Vietnam War. It interweaves analyses of political policy, military strategy and operations, and war finance and economic mobilization with examinations of the events of America's major armed conflicts, offering useful case studies for students of military history and spending policy, policymakers, military comptrollers, and officers in training. *El-Hi Textbooks and Serials in Print*, 1985.
