Model Shipwright Number 46:

The Master Shipwright's Secrets Richard Endsor, 2020-03-05 AWARDED THE ANDERSON MEDAL 2020 This splendid book will appeal to maritime historians archaeologists model makers and nautical enthusiasts across the board Colin Martin The Nautical Archaeology Society A remarkable piece of work J D Davies Historian and Author Inspired by the recent discovery of mathematically calculated digital plans for a fourth rate ship by the Deptford master shipwright John Shish The Master Shipwright's Secrets is an illustrated history of Restoration shipbuilding focused on the Tyger one of the smaller but powerful two deck warships of the period It examines the proceedings of King Charles II in deciding the types of ship he wanted and his relationship with his master shipwrights This fascinating book reveals the many secrets of Charles II's shipwrights through an analysis of John Shish's plans for the Tyger revealing innovative practical calculations which differ significantly from the few contemporary treatises on the subject and the complicated process of constructing the moulds necessary to make the ship's frame All the other duties performed by the master shipwrights such as repairing ships controlling their men and keeping up with the latest inventions are also discussed in detail The Master Shipwright's Secrets is replete with beautiful and detailed illustrations of the construction of the Tyger and explores both its complicated history and its complex rebuilding complete with deck plans internal sections and large scale external shaded drawings The title also explores associated ships including another fourth rate ship the Mordaunt which was purchased into the Navy at the time and underwent a dimensional survey by John Shish A rare contemporary section drawing of another fourth rate English ship and constructional drawings of Shish's later fourth rate ship St Albans are also included **Model Shipwright** Bowen J Staff, 1983-12

Historic Ship Models Arnold Kriegstein, Henry Kriegstein, 2022-10-04 In terms of quality historical significance and sheer numbers the Kriegstein family's ship model collection in the United States is the finest in private hands anywhere in the world Principally made up of official 17th and 18th century models in the Admiralty or Navy Board style the collection is unrivalled by any museum outside the British national collection at Greenwich As the models are not on public display this book fills the need for a detailed catalogue and visual reference with superb colour photos of all the models both overall portraits and multiple close ups Apart from lengthy descriptions of these magnificent artefacts space is devoted to how they were identified and the valuable research done by Arnold and Henry Kriegstein the identical twins whose shared passion brought this all together Beyond the technicalities of the ships the story has a human dimension in the brothers' adventures in pursuit of every model and their dogged determination to secure them against official obstruction and dubious antiques trade practices This is an entirely new and revised edition of Seventeenth and Eighteenth Century Ship Models first published in 2007 now expanded to include the additions to the collection since that date **The Bomb Vessel** Chris Ware, 1994 One of the first specialist warships the bomb vessel was a floating siege engine carrying huge shell firing mortars for the purposes of bombarding stationary targets such as coastal towns fortifications or harbours For its time it was

a complex and high tech weapons system and was widely used by the British in every conflict between 1689 and the War of 1812 Because of their strength bomb vessels played a major role in Arctic exploration **Publications of the Navy**
