*Поліморфічність форм власності господарювання породжує конкурентні загрози, за яких кожна з них (в т.ч. і фермерські господарства) намагаються реалізувати власні переваги та мінімізувати негативні аспекти. У становленні фермерства в Україні виокремлено чотири етапи. Кожен із етапів має свої передумови, які певною мірою проявлялись в тому чи іншому регіоні. У Харківській області у 2010 році функціонувало 1196 фермерських господарств, найбільша кількість у Харківському (127), Богодухівському (103) та Вовчанському (85) районах. Частка фермерських господарств у загальнообласному виробництві сільськогосподарської продукції залишається незначною. Визначено спеціалізацію фермерських господарств Харківської області (2000–2010 рр.), відповідно виробничим типам є зернове господарство у поєднанні з вирощуванням соєвих та цукрових буряків з доповненнями – скотарством, птицеводством, свинарством, овочівництвом і картоплярством.*

**Ключові слова:** фермерські господарства, аграрна економіка, етапи становлення фермерства, земельний фонд, спеціалізація фермерських господарств.

**Ключевые слова:** фермерские хозяйства, аграрная экономика, этапы становления фермерства, земельный фонд, специализация фермерских хозяйств.

**Myroslav Zayachuk. SPECIALIZATION OF FARMING ECONOMIES IN THE KHARKIV OBLAST IN THE CONTEXT OF UKRAINIAN AGRARIAN ECONOMICS MARKET FORMATION AND DEVELOPMENT.** Polymorphism of the forms of economy ownership discharges competitiveness where each economy (including farm economy) seeks to realize its advantages simultaneously minimizing negative challenges. Formation of farming in Ukraine is distinctive for passing through four stages of its development; each stage having its own pre-conditions that manifested themselves one way or another in this or that region. The Kharkiv Oblast showed 1196 farming economies functioning in 2010 with the biggest number of 127 economies in the Kharkiv, 103 in the Bogodukhiv and 85 in the Vovchansk Rayons. The economies share in the Oblast's agricultural production still stays inconsiderable. The Oblast farming economies' primary types of specialization through 2000–2010 are arable farming in combination with sunflower and sugar-beet growing, while cattle, pig and poultry breeding, vegetable and potato farming are represented as satellite types.

**Keywords:** farming economies, agrarian economics, farming economy stage of formation in the Kharkiv oblast, land fund; specialization of farming economies.

**Актуальність дослідження.** Формування аграрного ринку нерозривно пов'язане з поділом праці, який здійснюється у формі спеціалізації сільськогосподарських виробників на виробництві окремих видів продукції. Сучасний аграрний сектор потребує встановлення науковообґрунтованої спеціалізації, активного пошуку нових організаційних форм кооперації (в т.ч. і кластеризації), виконання їх новим економічним і соціальним змістом, переосмислення і переорієнтації ролі, місця та значення цих процесів в умовах ринкового середовища. У період становлення ринкових відносин об'єктивні ринкові закони, механізми та принципи діють нестабільно. В цих умовах невиправданно покладатися на спонтанне регулювання економіки. Констатуючи поліформність форм власності і господарювання значимим, що кожна з них випускає свою найбільш прийнятну нішу в регіональній економіці. В тому числі і фермерські господарства, які як і інші намагаються реалізувати власні переваги та пом'якшити, нейтралізувати негативні моменти. Становлення фермерства в Україні відбувається загалом нестабільно зі значними відмінностями в регіонах, що проявляються в обсягах виробництва сільськогосподарської продукції, матеріально-технічному забезпеченні та рівні рентабельності тощо. Отже, суспільно-географічні дослідження становлення та функціонування фермерського укладу є значимими та актуальними.

**Мета і завдання дослідження.** Мета дослідження полягає у проведенні суспільно-географічного аналізу сучасного стану фермерства в Харківській області. Для досягнення цієї мети потрібно вирішити такі завдання: проаналізувати особливості становлення та функціонування фермерства, дати оцінку виробництву сільськогосподарської продукції, визначити спеціалізацію фермерських господарств та вказати на проблеми і перспективи їх розвитку. Матеріалами написання статті послужили дані Головного управління статистики у Харківській області.
