

SOCIOLOGICAL THEORY

Sociology is the scientific study of human society, social relationships, and the patterns of behavior that emerge within them.

OVERVIEW

Sociology explores how individuals are shaped by social structures, cultural norms, and institutions, and how they, in turn, shape society. Sociologists analyze various social phenomena such as inequality, social change, and group dynamics to understand how they impact individuals and communities.

KEY THEORIES

- **Functionalism:** The study of how societies achieve stability and order through social institutions.
- **Critical Theory:** The study of how social institutions maintain social inequalities and power imbalances.
- **Symbolic Interactionism:** The study of how society is constructed through shared meanings, symbols, and interactions among individuals.

Models Of Social Order An Introduction To Sociological Theory:

Models of Social Order Orrin Edgar Klapp, 1973 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1975 Deviance Duane L. Dobbert Ph.D., Thomas X. Mackey, 2015-07-14 Contributors to this unique book explain and compare major theories drawn from several academic fields to uncover the root causes of deviance In this unparalleled exploration of antisocial and aberrant behavior criminologists and other experts examine the theoretical perspectives of 15 classical psychological political science and economics scholars to shed light on the impetus for deviant behaviors Murder mayhem robbery sexual assault and sexual activity with minor children are among the degenerate behaviors cited Each chapter focuses on the effectiveness of a specific theory and considers conundrums such as Does the Darwinian approach explain sexual assault as a drive to procreate Can B F Skinner s theoretical perspective explain pedophilia and Can an individual be incompetent at the time of an offense and competent at the time of the trial The book reveals how the major psychological social and environmental doctrines can explain the behaviors and patterns of a nonconforming mindset The work addresses the theories of well known thinkers like Karl Marx Charles Darwin Travis Hirschi and Sigmund Freud among others Handbook of Contemporary Sociological Theory Seth Abrutyn, 2016-06-22 This Handbook provides the hidden common threads that tie sociological inquiry together and featuring eminent scholars it separates itself from its predecessors in substance and organization Rather than rehashing old debates or longingly gazing at the past this book presents sociologists with new ways of conceptualizing the organization and presentation of sociological theory At the heart of this Handbook s vision is the twin goals of making theory a viable enterprise by reconceptualizing how we teach theory and keeping theory closely tied to its empirical applications Three strategies are offered 1 Elucidating how classic issues like integration or interaction are interrogated today 2 Presenting a coherent vision of the social levels of reality that theorists work on such as communities groups and the self as well as how the coherence of these levels speaks to the macro micro link and 3 Theorizing the social world rather than celebrating theorists or theories that is one can look at how theory is used holistically to understand the constraints the social world places on our lived experience or the dynamics of social change Hence in the second decade of the 21st century it has become clear that sociology is at a crossroads as the number of theorists and amount of theory available is increasingly unmanageable and unknowable by the vast majority of professionals and students As such this Handbook of Contemporary Sociological Theory presents the novice and the expert with the a roadmap for traversing this crossroad and building a more coherent robust and cumulative sociology

Relational Models Theory Nick Haslam, 2004-09-22 Relational models theory first developed by Alan Page Fiske an anthropologist provides a framework for understanding the psychological bases of social behavior that has in recent years attracted the interest of a diverse and growing group of behavioral and social scientists It proposes that human activities are structured in accordance with four fundamental models communal sharing authority ranking equality matching and market
