*A Citizen's Guide to Politics in America* Barry Rubin, 2016-09-16 This book is an antidote for civic apathy and disillusionment. It takes the reader step by step through the process of successful action for change from the germ of an idea to finding allies, getting the word out and building the critical mass of people, energy and support to accomplish the desired result. Filled with abundant practical examples and guidelines for success, the book covers all the bases: how to recognize that it's time for action, how to lobby decision makers, how to go to court, how to use information, how to use the internet effectively, how to get media attention, how to influence public opinion, how to mobilize grassroots support, how to form coalitions, how to organize an initiative or referendum and more.

**The Information Society Reader** with Raimo Blom, Erkki Karvonen, Harri Melin, Kaarle Nordenstreng, Ensio Puoskari, Frank Webster, Professor Frank Webster, 2020-04-02 There has been much debate over the idea of the information society. Some thinkers have argued that information is becoming the key ordering principle in society, whereas others suggest that the rise of information has been overstated. Whatever the case, it cannot be denied that informatization has produced vast changes in advanced societies. *The Information Society Reader* pulls together the main contributions to this debate from some of the key figures in the field. Major topics addressed include post-industrialism, surveillance, transformations, the network society, democracy, digital divisions, virtual relations. With a comprehensive introduction from Frank Webster, selections from Manuel Castells, Anthony Giddens, Michel Foucault and Christopher Lasch, amongst others, and section introductions contextualising the readings, this book will be an invaluable resource for students and academics studying contemporary society and all things cyber.

As a beguiling tool of political persuasion in times of war, peace and uncertainty, propaganda incites people to take often violent action, consciously or unconsciously. This pervasive influence is particularly prevalent in world politics and international relations today. In this interdisciplinary Handbook, the editors have gathered together a group of world class scholars from Europe, America, Asia and the Middle East to discuss leadership propaganda, war propaganda, propaganda for peace, marketing propaganda as a psychological tool, terror enhanced propaganda and the contemporary topics of internet mediated propaganda. Unlike previous publications on the subject, this book brings to the forefront current manifestations and processes of propaganda such as Islamist and Far Right propaganda from interdisciplinary perspectives. In its four parts, the Handbook offers researchers and academics of propaganda studies, peace and conflict studies, media and communication
