Modern Art in the Making Bernard S. Myers, 1959 **Making It Modern: Essays on the Art of the Now** Linda Nochlin, 2022-03-08 A selection of key essays on art from the nineteenth century to the present day by one of the most influential voices in art history This illustrated collection of essays brings together some of art historian Linda Nochlin's most important writings on modernism and modernity from across her six decade career Before the publication of her seminal essay on feminism in art *Why Have There Been No Great Women Artists* she had already firmly established herself as a major practitioner of a politically sophisticated and class conscious social art history Nochlin was part of an important cohort of scholars writing on modernity determined to rethink the narratives of the subject under the pressure of contemporary events such as student uprisings the women's liberation movement and the Vietnam War with the help of politically engaged literary criticism that was emerging at the same time Nochlin embraced Charles Baudelaire's conviction that modernity is meant to be of one's time and that the role of an art historian was to understand the art of the past not only in its own historical context but according to the urgencies of the contemporary world From academic debates about the nude in the eighteenth century to the work of Robert Gober in the twenty first whatever she turned her analytic eye to was conceived as the art of the now Including seven previously unpublished pieces this collection highlights the breadth and diversity of Nochlin's output across the decades including discussions on colonialism fashion and sex **How New York Stole the Idea of Modern Art** Serge Guilbaut, 1983 Why was New York abstract expressionism so successful after World War II To answer that question Serge Guilbaut takes a controversial look at the complicated intertwining relationship among art politics and ideology He explores the changing New York and Paris art scenes of the Cold War period the rejection by artists of political ideology and the coopting by left wing writers and politicians of the artistic revolt **Imagining the Future of the Museum of Modern Art** Museum of Modern Art (New York, N.Y.), 1998 Edited by John Elderfield Introduction by Glenn D Lowry *What is Modern Art?* Museum of Modern Art (New York, N.Y.), Edgar Kaufmann, 1950 **The Symbolist Roots of Modern Art** Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Mor announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist

approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments **Midcentury Modern Art in Texas** Katie Robinson

Edwards,2014-07-01 Before Abstract Expressionism of New York City was canonized as American postwar modernism the United States was filled with localized manifestations of modern art One such place where considerable modernist activity occurred was Texas where artists absorbed and interpreted the latest most radical formal lessons from Mexico the East Coast and Europe while still responding to the state s dramatic history and geography This barely known chapter in the story of American art is the focus of Midcentury Modern Art in Texas Presenting new research and artwork that has never before been published Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas with an emphasis on the era s most abstract and compelling artists Edwards looks first at the Dallas Nine and the 1936 Texas Centennial which offered local artists a chance to take stock of who they were and where they stood within the national artistic setting She then traces the modernist impulse through various manifestations including the foundations of early Texas modernism in Houston early practitioners of abstraction and non objectivity the Fort Worth Circle artists at the University of Texas at Austin Houston artists in the 1950s sculpture in and around an influential Fort Worth studio and to see how some Texas artists fared on a national scale the Museum of Modern Art s Americans exhibitions The first full length treatment of abstract art in Texas during this vital and canon defining period Midcentury Modern Art in Texas gives these artists their due place in American art while also valuing the quality of Texan ness that subtly undergirds much of their production Modern in the Making Austin Porter,Sandra Zalman,2020-10-29 Today the Museum of Modern Art is widely

recognized for establishing the canon of modern art yet in its early years the museum considered modern art part of a still unfolding experiment in contemporary visual production By bracketing MoMA s early history from its later reputation this book explores the ways the Museum acted as a laboratory to set an ambitious agenda for the exhibition of a multidisciplinary idea of modern art Between its founding in 1929 and its 20th anniversary in 1949 MoMA created the first museum departments of architecture and design film and photography in the country marshaled modern art as a political tool and brought consumer culture into a versatile yet institutional context Encompassing 14 essays that investigate the diversity of modern art this volume demonstrates how MoMA s programming shaped a version of modern art that was not elitist but fundamentally intertwined with all levels of cultural production The Museum of Modern Art in this Century Glenn D. Lowry,2009 In the eighty years since The Museum of Modern Art was founded contemporary art has been completely transformed from a movement appreciated by a few to a cosmopolitan globe spanning multidisciplinary undertaking that permeates every corner of culture In The Museum of Modern Art in This Century MoMA Director Glenn D Lowry explores

Siedell,2015-01-07 Modern art can be confusing and intimidating even ugly and blasphemous And yet curator and art critic Daniel A Siedell finds something else something much deeper that resonates with the human experience With over thirty essays on such diverse artists as Andy Warhol Thomas Kinkade Diego Velazquez Robyn O Neil Claudia Alvarez and Andrei Rublev Siedell offers a highly personal approach to modern art that is informed by nearly twenty years of experience as a museum curator art historian and educator Siedell combines his experience in the contemporary art world with a theological perspective that serves to deepen the experience of art allowing the work of art to work as art and not covert philosophy or theology or visual illustrations of ideas meanings and worldviews Who's Afraid of Modern Art celebrates the surprising beauty of art that emerges from and embraces pain and suffering if only we take the time to listen Indeed as Siedell reveals a painting is much more than meets the eye So who's afraid of modern art Siedell's answer might surprise you
