Reading Hegel Robert Lucas Scott, 2025-03-14 Retrieves Hegelian speculative experience for literary theory The relationship between Hegel and literary theory has for a long time been both contested and paradoxical On the one hand theory is often skeptical of all that Hegel ostensibly stood for idealism systematicity and identity at the expense of difference Yet in spite of itself literary theory is taken to owe a profound debt to Hegel s philosophy Robert Lucas Scott s book complicates this account and argues that literary theory has made the mistake of abstracting Hegel s thought from its more dynamic presentation in Hegel s writings reducing Hegel to a series of propositions or positions Literary theory Scott argues misses what is perhaps the greatest innovation of Hegel s philosophy a presentation of experience that begins precisely by setting aside all preconceptions or prior assumptions It is on this point that Hegel s philosophy itself approaches literature its content cannot be simply abstracted from the singular experience of reading it Only through a mode of reading alive to speculative experience can literary theory become truly Hegelian Scott s exposition of Hegel offers a model of reading with relevance beyond philosophy one that is critical without pretensions of mastery and detachment and that honors the singularity of the reading experience without succumbing to the subjectivism of the postcritical The book also includes engagements with the work of Luther Kant Marx Gillian Rose Fredric Jameson Robert Brandom Catherine Malabou and more in its recovery of Hegel s thought for a critical understanding of our time

Marx and We Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations

Literary Drowning Stephanie Pocock Boeninger, 2020-10-23 Literary depictions of drowning or burial at sea provide fascinating glimpses into the often conflicted human relationship with memory For many cultures and religious traditions properly remembering the dead involves burial a funeral and some kind of grave marker Traditional rituals of memorialization are disturbed by the drowned body which may remain lost at sea or be washed up unrecognized on a distant shore The first book of its kind Literary Drowning explores depictions of the drowned body in twentieth century Irish and Caribbean postcolonial literature uncovering a complex transatlantic conversation that reconsiders memory forgetfulness and the role that each plays in the making of the postcolonial subject and nation Faced with fissures in cultural memory postcolonial writers often identify their situation and their nation s with that of the drowned body Floating aimlessly without a grave unmemorialized and perhaps unremembered the drowned corpse embodies the troubled memory of the postcolonial nation or individual Boeninger follows a trail of drowned bodies and literary influence from the turn of the century Irish playwright J M Synge through the poems and plays of St Lucian Nobel laureate Derek Walcott to the lesser known work of Guyanese British novelist and poet David Dabydeen and finally to the contemporary Irish plays of Marina Carr Each author while borrowing from those who came before changes the image of the drowned body to reflect different facets of the project of remembering postcolonially
