Modern Fantasy David Pringle, 1988 **The A to Z of Fantasy Literature** Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites [The Cambridge Companion to Fantasy Literature](#) Edward James, Farah Mendlesohn, 2012-01-26 This is the first introduction to the whole field of modern fantasy literature in the English speaking world **The Vampire in Folklore, History, Literature, Film and Television** , 2015-09-18 This comprehensive bibliography covers writings about vampires and related creatures from the 19th century to the present More than 6 000 entries document the vampire s penetration of Western culture from scholarly discourse to popular culture politics and cook books Sections by topic list works covering various aspects including general sources folklore and history vampires in literature music and art metaphorical vampires and the contemporary vampire community Vampires from film and television from Bela Lugosi s Dracula to Buffy the Vampire Slayer True Blood and the Twilight Saga are well represented *Michael Bishop and the Persistence of Wonder* Joe Sanders, 2022-02-23 Since they began appearing in the 1970s Michael Bishop s science fiction and fantasy stories have been recognized for their polished prose and their depth of thought and feeling His award winning fiction includes No Enemy but Time 1982 Unicorn Mountain 1988 Brittle Innings 1994 and the outstanding short story The Pile 2008 After the 2017 publication of his collection Other Arms Reach Out to Me Bishop was inducted into the Georgia Writers Hall of Fame Revision and republication of much of Bishop s fiction in recent years have renewed interest in Bishop s explorations of religion belief and the pursuit of human truth This book is the first comprehensive study of Michael Bishop s literary body examining his work in full Featured are close readings of all his novels and studies of short stories poetry and essays that Bishop himself identified for special attention **Historical Dictionary of Fantasy Literature** Allen Stroud, 2023-06-12

Fantasy is both old and new In the ancient past stories of magic where supernatural creatures existed the gods walked the earth and heroes saved their civilizations from the dark fate that awaited them were intermingled with history religion and fact It is only in the last few hundred years that a conscious suspension of disbelief has allowed us to return to fantasy the literature of the impossible and appreciate it for its craft and storytelling once more Historical Dictionary of Fantasy Literature Second Edition contains a chronology an introduction an extensive bibliography and cross referenced entries on more than 800 authors ranging across the entire historical spectrum More than 200 other entries describe the fantasy sub genres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies This book is an excellent resource for students researchers and anyone wanting to know more about fantasy literature *Visions of Wonder* David G.
