Music, Meaning and Identity in Modern Greece Eleni Kallimopoulou, 2016-12-05 Since the 1980s musicians and audiences in Athens have been rediscovering musical traditions associated with the Ottoman period of Greek history The result of this revivalist movement has been the urban musical style of paradosiak traditional Drawing from a varied repertoire that includes Turkish art music and folk and popular musics of Greece and Turkey and identified by the use of instruments which previously had little or no performing tradition in Greece paradosiak has had to define itself by negotiating contrastive tendencies towards differentiation and a certain degree of overlapping in relation to a range of indigenous Greek musics This monograph explores paradosiak as a musical style and as a field of discourse seeking to understand the relation between sound and meanings constructed through sound It draws on interviews commercial

recordings written musical discourse and the author's own experience as a practising paradosiak musician. Some main themes discussed in the book are the migration of instruments from Turkey to Greece, the process of indigenization whereby paradosiak was imbued with local meanings and aesthetic value, the accommodation of the style within official and popular discourses of Greekness, its prophetic role in the rapprochement of Greek culture with modern Turkey and with suppressed aspects of the Greek Ottoman legacy as well as the varied worldviews and current musical dilemmas of individual practitioners in the context of professionalization, commercialization and the intensification of cross-cultural contact. The text is richly illustrated with transcriptions, illustrations and includes downloadable resources. The book makes a valuable contribution to ethnomusicology, cultural studies as well as to the study of the Balkans and the Mediterranean.
