Jones, Wendy Oliver, 2022-02-01 National Dance Education Organization Ruth Lovell Murray Book Award UNCG Susan W Stinson Book Award for Dance Education Strategies for recovering the Africanist roots of jazz dance in teaching and practice An African American art form jazz dance has an inaccurate historical narrative that often sets Euro American aesthetics and values at the inception of the jazz dance genealogy The roots were systemically erased and remain widely marginalized and untaught and the devaluation of its Africanist origins and lineage has largely gone unchallenged Decolonizing contemporary jazz dance practice this book examines the state of jazz dance theory pedagogy and choreography in the twenty first century recovering and affirming the lifeblood of jazz in Africanist aesthetics and Black American culture Rooted Jazz Dance brings together jazz dance scholars practitioners choreographers and educators from across the United States and Canada with the goal of changing the course of practice in future generations Contributors delve into the Africanist elements within jazz dance and discuss the role of Whiteness including Eurocentric technique and ideology in marginalizing African American vernacular dance which has resulted in the prominence of Eurocentric jazz styles and the systemic erosion of the roots These chapters offer strategies for

teaching rooted jazz dance examples for changing dance curricula and artist perspectives on choreographing and performing jazz. Above all, they emphasize the importance of centering Africanist and African American principles, aesthetics, and values. Arguing that the history of jazz dance is closely tied to the history of racism in the United States, these essays challenge a century of misappropriation and lean into difficult conversations of reparations for jazz dance. This volume overcomes a major roadblock to racial justice in the dance field by amplifying the people and culture responsible for the jazz language.

Making Music for Modern Dance traces the collaborative approaches, working procedures, and aesthetic views of the artists who forged a new and distinctly American art form during the first half of the 20th century. The book offers riveting first-hand accounts from innovative artists in the throes of their creative careers and provides a cross-section of the challenges faced by modern choreographers and composers in America. These articles are complemented by excerpts from astute observers of the music and dance scene as well as by retrospective evaluations of past collaborative practices. Beginning with the careers of pioneers Isadora Duncan, Ruth St. Denis, and Ted Shawn and continuing through the avant-garde work of John Cage to Merce Cunningham, the book offers insights into the development of modern dance in relation to its music. Editor Katherine Teck's introductions and afterword offer historical context and tie the artists' essays in with collaborative practices in our own time. The substantive notes suggest further materials of interest to students practicing dance, artists and musicians, dance and music history scholars, and to all who appreciate dance.

Dance in Musical Theatre Phoebe Rumsey, Dustyn Martincich, 2023-12-14. From Oklahoma and West Side Story to Spring Awakening and Hamilton, dance remains one of the most important and key factors in musical theatre. Through the integration of song and dance in the dream ballets of choreographers like Agnes de Mille, the triple-threat performances of Jerome Robbins dancers, the signature style creation by choreographers like Bob Fosse with dancers like Gwen Verdon, and the contemporary identity-driven work of choreographers like Camille A. Brown, the history of the body in movement is one that begs study and appreciation. Dance in Musical Theatre offers guidelines in how to read this movement by analyzing it in terms of composition.
