Reed, 2001 This is the classic account of one of the

most dramatic episodes in Mexican history the revolt of the Maya Indians of Yucat n against their white and mestizo oppressors that began in 1847 Within a year the Maya rebels had almost succeeded in driving their oppressors from the peninsula by 1855 when the major battles ended the war had killed or put to flight almost half of the population of Yucat n A new religion built around a Speaking Cross supported their independence for over fifty years and that religion survived the eventual Maya defeat and continues today This revised edition is based on further research in the archives and in the field and draws on the research by a new generation of scholars who have labored since the book s original publication 36 years ago One of the most significant results of this research is that it has put a human face on much that had heretofore been treated as semi mythical Reviews of the First Edition Reed has not only written a fine account of the caste war he has also given us the first penetrating analysis of the social and economic systems of Yucat n in the nineteenth and twentieth centuries American Historical Review In this beautifully written history of a little known struggle between several contending forces in Yucat n Reed has added an important dimension to anthropological studies in this area American Anthropologist Not only is this exciting history as compelling and dramatic as the best of historical fiction but it covers events unaccountably neglected by historians This is a brilliant contribution to history Don t miss this book Los Angeles Times One of the most remarkable books about Latin America to appear in years Hispanic American Report **Supplement to the Handbook of** Middle American Indians, Volume 6 Barbara W. Edmonson, 2010-06-28 In 1981 UT Press began to issue supplemental volumes to the classic sixteen volume work Handbook of Middle American Indians These supplements are intended to update scholarship in various areas and to cover topics of current interest Supplements devoted to Archaeology Linguistics Literatures Ethnohistory and Epigraphy have appeared to date In this Ethnology supplement anthropologists who have carried out long term fieldwork among indigenous people review the ethnographic literature in the various regions of Middle America and discuss the theoretical and methodological orientations that have framed the work of areal scholars over the last several decades They examine how research agendas have developed in relationship to broader interests in the field and the ways in which the anthropology of the region has responded to the sociopolitical and economic policies of Mexico and Guatemala Most importantly they focus on the changing conditions of life of the indigenous peoples of Mesoamerica This volume thus offers a comprehensive picture of both the indigenous populations and developments in the anthropology of the region over the last thirty years Climate Change and Human Security Michael R. Redclift, David Manuel Navarrete, Mark Pelling, 2011 The challenge presented by climate change is by its nature global The populations of the Mexican Caribbean the focus of this book are faced by everyday decisions not unlike those in the urban North The difference is that for the people of the Mexican Caribbean evidence of the effects of climate change including hurricanes is very familiar to them This important study documents the choices and risks of people who are powerless to change the economic development model which is itself forcing climate change The book examines the Mexican Caribbean coast and explores the wider issues of managing

climate change in vulnerable areas of the tropics It also points to the inability to integrate development thinking into climate change adaptation The authors suggest that failures in local governance the transparency of state actions and the local populations lack of effective power represents a greater threat to adaptation than the absence of technical capacity in vulnerable areas Using local case studies of communities fishing villages and tourist destinations this well researched book will appeal to international students and academics working on climate change and professionals in development conservation and tourism industries Handbook of Latin American Studies ,1993 Contains records describing books book chapters articles and conference papers published in the field of Latin American studies Coverage includes relevant books as well as over 800 social science and 550 humanities journals and volumes of conference proceedings Most records include abstracts with evaluations The Yucatan and Mayan Mexico Nick Rider, 2002-06-12 Whether travelers are planning their city break in advance or want instant guidance exploring Cadogan City Guides are the ideal companions They provide a truly accessible way into the heart of a city with a unique introductory full color section packed with ideas for days out and itineraries and extensive cross referenced maps with all listings clearly marked the fullest listings of any city guide available They also include a wealth of engaging cultural and historical knowledge along with anecdotes and colorful stories written in the enthusiastic informed personal way for which Cadogan is renowned The Yucatan capital of Cancun boasts one of the ten biggest resorts in the world and Mexico s stunning Caribbean coastline is one of the world s fastest growing holiday areas Visitor figures have risen to over 10 million a year and 90% of them come from the United States The guide balances practical advice and information on the best places to dive kayak and parasail with engrossing background detail It features informed and sensitive commentary on the culture and history of the Yucatan its Spanish colonial heritage and modern Mayan communities The author lived in Spain for many years and has traveled tens rely in Mexico Special sections provide insights into the area's prolific ancient Mayan legacy the magnificent ins of Tulum and Chichen Itza and the Giant Catacombs at Loltun The guide encompasses the staggering diversity of the southern states revealing empty tropical beaches wild turtle islands old pirate villages and the most glorious coral reefs in the world Journal of Mesoamerican Studies ,2012 Jungian Analysis of Toxic Modern Society Erik Goodwyn, 2024-08-08 Using evidence from anthropology neuroscience psychiatry analytical psychology and evolutionary biology within this book Dr Erik Goodwyn explores the current cultural psyche and how elements of modern society are contributing to the current loneliness epidemic Despite tremendous advances in technology developed countries are more anxious depressed suicidal and addicted today than we were 100 years ago Why Research from many fields of study show that loneliness has become an epidemic in the industrialized world causing very real medical consequences such as addiction depression anxiety and suicide all things which have been on the rise for decades And yet because of various historical philosophical and economic reasons we do not nurture traditional cultural ways of satisfying these instincts This book will explore the idea that stopping the rising misery will not only require socioeconomic

changes but will require a profound cultural change Only then will we be able to stop the slow starvation of social belonging archetypal narratives rituals spirituality and images as vessels of meaning This will be an insightful read for depth psychologists and scholars of analytical psychology as well as health care providers therapists sociologists and those with an interest in cross cultural studies Latin American Studies Ana María Cobos, Ana Lya Sater, 2002 The Latin American studies collections at many community junior and four year colleges and large public libraries often contain materials that are too specialized uneven outdated incomplete or written in Spanish or Portuguese thus rendering them essentially useless to English reading patrons Better materials are out there but librarians simply have not had until now a good resource guide to help in locating them This work designed as an acquisitions tool for colleges and libraries is an annotated bibliography of approximately 1 400 recommended books published from 1986 through 2000 in the field of Latin American studies It is divided into chapters that deal with reference works descriptive accounts and travel guides the humanities language and literature the social sciences and science and technology For the purposes of this book Latin America is defined as all geographic locations south of the Rio Grande While these are chiefly Spanish and Portuguese speaking regions works about French English and Dutch speaking areas are also included The literary works of authors living abroad are included if they are considered quintessentially Latin American Periodicals children's literature audio visual resources and works about the Hispanic and Latino experience in the United States are not included The majority of the works presented here were selected based on reviews from Booklist Choice Hispanic American Historical Review Library Journal Los Angeles Times Book Review New York Review of Books New York Times Book Review and Publisher's Weekly also consulted were the catalogs of major university presses that focus on Latin American studies Chicana/Latina Studies ,2009 Cancún, Cozumel & the Yucatán, 2008 Indians of North and South America Carolyn E.
