Mongolian is the principal language spoken by some five million ethnic Mongols living in Outer and Inner Mongolia as well as in adjacent parts of Russia and China The spoken language is divided into a number of mutually intelligible dialects while for writing two separate written languages are used Cyrillic Khalkha in Outer Mongolia the Republic of Mongolia and Written Mongol in Inner Mongolia P R China In this grammatical description the focus is on the standard varieties of the spoken language as used in broadcasting education and everyday casual speech The dialectology of the language and its background as a member of the Mongolic language family are also dicussed Mongolian is an agglutinating language with a well developed suffixal morphology In the areal framework the language is a typical member of the trans Eurasian Ural Altaic complex with features such as vowel harmony verb final sentence structure and complex chains of non finite verbal phrases
Intermediate Mongolian John G. Hangin,1975 Completed Research Studies and Instructional Materials for Language Development Under the National Defense Education Act of 1958 United States. Office of Education,1969 *The Phonology of Mongolian* Jan-Olof Svantesson,2005-02-10 This book provides both the first comprehensive description of the phonology and phonetics of Standard Mongolian and the first account in any language of the historical phonology of the Mongolian group of languages **Completed Research, Studies and Instructional Materials for Language Development Under the National Defense Education Act of 1958, Title VI, Section 602** ,1969 **DHEW Publication No. (OE).** ,1972 **OE [publication]** ,1969 Mermaid Construction Tasaku Tsunoda,2020-08-10 This volume provides detailed studies of the crosslinguistically unusual mermaid construction in seventeen languages of Asia including Modern Standard Japanese and one language of Africa This construction appears to be absent in languages of Europe Oceania and the Americas The name mermaid construction alludes to its paradoxical make up where the structure closely resembling a verb predicate clause ends with what may look like a noun predicate clause Superficially it looks biclausal however syntactically it is monoclausal It has a compound predicate which contains an independent noun a clitic or an affix derived from a noun or a nominalizer Its compound predicate has a modal evidential aspectual temporal stylistic or discourse related meaning The paradox is resolved from a diachronic perspective insofar as a biclausal structure is reanalyzed as a monoclausal one This volume shows how a noun may be reanalyzed to become a constituent of a predicate It constitutes an important contribution to research on grammaticalization and in particular the grammaticalization of nouns

and more generally to the typology of syntactic reanalysis *Mongolia Today* Shirin Akiner, 2023-10-13 First published in 1991 *Mongolia Today* presents a collection of essays by leading scholars in the field and gives important insights into the economic political legal and military systems of Mongolia The Mongolian People's Republic formerly known as Outer Mongolia is three times the size of France but has population of just two million Sandwiched between Russia and China this remote heartland of Asia has long been one of the most inaccessible places in the world its isolation preserved by political as well as geographical barriers The modern history of Mongolia has been dominated by its two great neighbours strong economic and political ties with the erstwhile Soviet Union and problematic relations with China Relations with the West have been slow to develop Post cold war Mongolia is willing to explore new relationships with other parts of the world and transform this once isolated land into a trading partner of international potential This is an essential read for scholars and researchers of Central Asian studies Asian politics and Chinese studies **Foreign Language, Area, and Other International Studies** John P.
