Problem Based Neurosurgery Sam Eljamel, 2011 Problem Based Neurosurgery is a remarkable fusion of recent advances in neuro imaging and neurosurgery with modern teaching of integrated system based curricula It approaches each problem systematically from history and physical examination to differential diagnosis investigations and management options The book captures four decades of advances and experiences in diagnosis and management of patients The problems upon which the book is based are real patients and cover all aspects of neurosurgical practice with up to date modern images The blend of new scientific discoveries modern imaging and the art of smart history and physical examinations underpins the book to improve diagnosis investigation and the care of neurosurgical patients The main thrust of this book is that it is based on clinical problems faced by fellows residents and students rather than traditional topic based Problem based learning and management is the modern method of teaching in the new curriculum of teaching neurosurgery It is a practical handbook that will help students residents and community doctors alike There is no similar book on the market that fulfills the objectives of this handbook

Advances and Technical Standards in Neurosurgery H. Kräyenhühl, J. Brihaye, F. Loew, V. Logue, S. Mingrino, B. Pertuiset, L. Symon, H. Troupp, M. G. Yaşargil, 2012-12-06 There are two important reasons for commencing this new series of publications entitled Advances and Technical Standards in Neurosurgery 1 the lack of any organized common European postgraduate training system for young neurosurgeons and 2 the language barriers which impede the exchange of neuro surgical findings in Europe more than in other parts of the world The fact that the English language is well on the way to becoming the international medium at European scientific conferences is a great asset in terms of mutual understanding Therefore the Editors have decided to publish all contributions in English regardless of the native language of the authors All contributions are submitted to the entire editorial board before publication of any volume Our series is not intended to compete with the publications of original scientific papers in other neurosurgical journals Our
