**Land, Water, Language and Politics in Andhra** Brian Stoddart, 2014-03-14 This book explains how access to and use of land water and language helped shape Andhra politics in India from 1850 down to the present day After independence the debate over land reform and policies on irrigation has shaped the fortunes of various governments while the debate over the make up of the language based state has stimulated separatist movements like the one in support of Telangana The book discusses how British innovations in irrigation in coastal Andhra in the mid nineteenth century transformed the economy there from food crops to cash crops and created new markets for local entrepreneurs This stimulated increased education and social reform in the region which in turn supported new politics in search of constitutional concessions The drive for a Telugu language based province then arose in concert and those political resources were then used to determine local patterns down to independence The 1930s rise of the socialists then the communist organisations was an extension of land and water tax debates which impacted the political nature of development both before and after independence This is one of the first books on Andhra that recounts this story and is based on extensive archival research exploring the deep relationships between land water language and politics It would be of primary interest to those studying modern nationalism in India natural resource management Indian politics and economic growth **The Blue Frontier** Ronald C. Po, 2018-08-23 Argues that Qing China was not just a continental empire but a maritime power protecting its interests at sea **Form Follows Fever** Christopher Cowell, 2024-03-14 Form Follows Fever is the first in depth account of the turbulent early years of settlement and growth of colonial Hong Kong across the 1840s During this period the island gained a terrible reputation as a diseased and deadly location Malaria then perceived as a mysterious vapour or miasma intermittently carried off settlers by the hundreds Various attempts to arrest its effects acted as a catalyst reconfiguring both the city's physical and political landscape though not necessarily for the better Caught in a frenzy to rebuild the city in the devastating aftermath this book charts the complex interplay between a cast of figures from military surveyors naval doctors Indian sepoys and corrupt and paranoid officials to opium traders arsonists Chinese contractors and sojourner architects and artists However Hong Kong's construction was not just physical but also imagined Architecture cartography epidemiology and urban infrastructure offer a critical forensic lens through which to examine the shifting ideologies of public health and space race and place making and commerce and politics all set against the radical alteration of the settlement from shore hugging to climbing city in response to miasma theory a pre bacteriological belief in gaseous emanations from a sickly environment This kaleidoscopic study

draws upon many unpublished textual sources including medical reports personal diaries and letters government records journal accounts newspaper articles and advertisements As this history is set a decade before the introduction of photography to the colony the book relies upon a variety of alternate visual evidence from previously lost watercolour illustrations of the city to maps plans and drawings that individually and in combination provide trace material enabling the reconstruction of this strange and rapidly evolving society Form Follows Fever sheds new light on a period often considered the colonial Dark Ages in the territory's history Christopher Cowell's account of British Hong Kong offers the most detailed account yet of the crucial first decade of the colony's existence His engagement with the medley of actors from across the globe that contributed to the colony's ultimate success is both intriguing and revealing It is a brilliant miniature of colonial urban development in action Alex Bremner Edinburgh School of Architecture and Landscape Architecture University of Edinburgh This is a beautifully written book Cowell offers fresh perspectives on how malaria played a decisive role in shaping the forms of the colonial built environment and the future course of the city It is a must read for anyone interested in Hong Kong history and urbanism Cecilia L Chu School of Architecture The Chinese University of Hong Kong A wonderfully rich and detailed architectural history of Hong Kong's first decade as a British colony that sheds new light on the consequential effects of disease and climate on what was built by whom and why Cole Roskam Department of Architecture The University of Hong Kong Form Follows Fever shows how Hong Kong's path from a so called barren island to a thriving port city was often a perilous one It is a wonderfully original and insightful study that weaves together an unlikely melange of urban history military engineering and medical history John M Carroll Department of History The University of Hong Kong

**Religion, Caste, and Politics in India** Christophe Jaffrelot, 2010 Following independence the Nehruvian approach to socialism in India rested on three pillars secularism and democracy in the political domain state intervention in the economy and diplomatic non alignment mitigated by pro Soviet leanings after the 1960s These features defined a distinct Indian model if not the country's political identity From this starting point Christophe Jaffrelot traces the transformation of India throughout the latter half of the twentieth century particularly the 1980s and 90s The world's largest democracy has sustained itself by embracing not only the vernacular politicians of linguistic states but also Dalits and Other Backward Classes or OBCs The simultaneous and related rise of Hindu nationalism has put minorities and secularism on the defensive In many ways the rule of law has been placed on trial as well The liberalization of the economy has resulted in growth yet not necessarily development and India has acquired a new global status becoming an emerging power intent on political and economic partnerships with Asia and the West The traditional Nehruvian system is giving way to a less cohesive though more active India a country that has become what it is against all odds Jaffrelot maps this tumultuous journey exploring the role of religion caste and politics in determining the fabric of a modern democratic state

popular music of the day From the First Anglo Burmese War of 1824-6 until Burma regained its independence in 1948 more than 180 musical works with Burma related themes were written in English speaking countries in addition to the many hymns composed in and about Burma by Christian missionaries Servicemen posted to Burma added to the lexicon with marches and ditties and after 1913 most movies about Burma had their own distinctive scores Taking Rudyard Kipling's 1890 ballad Mandalay as a critical turning point this book surveys all these works with emphasis on popular songs and show tunes also looking at classical works ballet scores hymns soldiers songs sea shanties and film soundtracks It examines how they influenced Western perceptions of Burma and in turn reflected those views back to Western audiences The book sheds new light not only on the West's historical relationship with Burma and the colonial music scene but also Burma's place in the development of popular music and the rise of the global music industry In doing so it makes an original contribution to the fields of musicology and Asian Studies

**Managing Famine, Flood and Earthquake in China** Lauri Paltemaa,2015-10-05 China suffers frequently from many types of natural disasters which have affected the lives of many millions of Chinese The steps which the Chinese state has taken to prevent disasters mitigate their consequences and reconstruct in the aftermath of disasters are therefore key issues This book examines the single metropolis of Tianjin in northern China a city which has suffered particularly badly from natural disasters the great famine of 1958 61 the great flood of 1963 and the great earthquake of 1976 It discusses how the city managed these disasters what policies and measures were taken to prevent and mitigate disasters and to promote reconstruction afterwards It also explores who suffered from and who benefited from the disasters Overall the book shows how disaster management was erratic sometimes managed highly efficiently and in other cases disappointingly delayed and inept It concludes that although the Maoist state possessed formidable resources disaster management was always constrained by other political and economic considerations and was never an automatic priority

**South Asian Studies** ,1985 *The Chinese State at the Borders* Diana Lary,2011-11-01 In this ground breaking study Hsiao Ting Lin demonstrates that the Chinese frontier was the subject neither of concerted aggression on the part of a centralized and indoctrinated Chinese government nor of an ideologically driven nationalist ethnopolitics Instead nationalist sovereignty over Tibet and other border regions was the result of rhetorical grandstanding by Chiang Kai shek and his regime Tibet and Nationalist China s Frontier makes a crucial contribution to the understanding of past and present China Tibet relations A counterpoint to erroneous historical assumptions this book will change the way Tibetologists and modern Chinese historians frame future studies of the region

**Indonesia's Maritime Policy from Independence to 2019** Indra Alverdian,2024-08-02 Alverdian explores how a distinct national character of maritime governance has influenced the nature of Indonesia s

aspiration to go beyond archipelagic towards a maritime nation through focusing on the intersection between the nation's political culture historical changes and geopolitical contexts which gave rise to the primacy of the theme of unity in the nation's discourse The main theme of this research is the three pillar framework of the Tanah Air concept which includes the political culture of persatuan nasional national unity the strategic culture of cakra manggilingan turning of the times from dark to golden periods and the geopolitical context of posisi silang dunia world crossroad position The findings of this publication indicate the dominant influence of Javanese political culture philosophy values and traditions on the distinct character of Indonesia's maritime orientation Specifically Javanese political philosophy and traditions within each pillar of Tanah Air have influenced continuity rather than change in the evolution of Indonesia's maritime policy This book helps readers understand how the defining theme of unity in national political culture has shaped the evolution of Indonesia's maritime policy from 1945 to 2019 It illustrates how the continuous influence of the theme of national unity as devised by the political elites through history has addressed the realities of the archipelago's geography and it is significant from both an academic and practical policy perspective A book designed for academics and the general public interested in gaining greater insight and knowledge on Indonesia's maritime policy and maritime nation aspirations
