Modern Catholic Social Documents And Political Economy:

Modern Catholic Social Documents and Political Economy Albino F. Barrera, 2001-08-09 As western economies have moved from feudalism to industrialism to the information age Catholic social thought has kept pace responding to the economic realities of the day Linking Catholic social teaching with modern economic theory Albino F Barrera examines the changing political economy embedded within the moral theology and social justice documents issued by the Church during the last hundred years Barrera discusses the evolution of Catholic social teachings from scholastic thinking on the concept of the just price to a modern emphasis on the importance of a living wage As the conduct of economic life according to traditional custom and common law has given way to institutional and impersonal market forces these teachings have moved from a preoccupation with personal moral behavior to an intense scrutiny of the structures of society Amidst these changes the Church's social documents have sought to address systemic shortcomings as a means of promoting the common good through economic justice Barrera also looks ahead to the challenges posed by a postindustrial society characterized by a global knowledge based economy arguing that Catholic social thought will likely shift its focus from advocacy of the living wage to demands for greater equality of socioeconomic participation Written for scholars and students of economics theology and political science interested in religious social thought this book bridges the gap between moral theology and economic theory

Economic Compulsion and Christian Ethics Albino Barrera, 2005-09-08 Markets can often be harsh in compelling people to make unpalatable economic choices any reasonable person would not take under normal conditions Thus workers laid off in mid career accept lower paid jobs that are beneath their professional experience for want of better alternatives Economic migrants leave their families and cross borders legally or illegally in search of a livelihood These are examples of economic compulsion These economic ripple effects have been virtually ignored in ethical discourse because they are generally accepted to be the very mechanisms that generate the market s much touted allocative efficiency Albino Barrera argues that Christian thought on economic security offers an effective framework within which to address the consequences of economic compulsion

Distant Markets, Distant Harms Daniel Finn, 2014-03-19 Does a consumer who bought a shirt made in another nation bear any moral responsibility when the women who sewed that shirt die in a factory fire or in the collapse of the building Many have asserted without explanation that because markets cause harms to distant others consumers bear moral responsibility for those harms But traditional moral analysis of individual decisions is unable to sustain this argument Distant Harms Distant Markets presents a careful analysis of moral complicity in markets employing resources from sociology Christian history feminism legal theory and Catholic moral theology today Because of its individualistic methods mainstream economics as a discipline is not equipped to understand the causality entailed in the long chains of social relationships that make up the market Critical realist sociology however has addressed the character and functioning of social structures an analysis that can helpfully be applied to the market The True Wealth of Nations research project of the Institute for Advanced Catholic Studies brought together an international group of sociologists economists moral theologians and others to describe these causal relationships and articulate how Catholic social thought can use these insights to more fully address issues of economic ethics in the twenty first century The result was this interdisciplinary volume of essays which explores the causal and moral responsibilities that consumers bear for the harms that markets cause to distant others

Cultural Landscapes Gabriel R. Ricci,2018-02-06 A dualism between man and nature has been a persistent feature of Western thought and spirituality from ancient times to the present The opposition of mind and body consciousness and world has tended to obscure the ways in which humans are ecologically part of interconnected systems some of which are obvious while others operate in hidden but life sustaining ways Cultural Landscapes explores the physical ways in which we are intimately linked to the land and the intellectual and aesthetic connections human consciousness has with the landscape Following the editor s introductory essay the lead article by Jame Schaeffer Quest for the Common Good A Collaborative Public Theology for a Life Sustaining Climate assesses the lightning rod issue of global warming in the context of a public and ecumenical theology and sets the tone for this normative assessment of our relationship with nature Likewise David Kenley s essay Three Gorges be Dammed The Philosophical Roots of Environmentalism in China reveals the traditional philosophical and cultural values that can sustain a vital environmentalism in the East David Brown s historical insights into the use of the American landscape to define historical writing complement Patricia Likos Ricci s historical treatment of nineteenth century landscape painting and the first call to preserve wilderness in the United States Matt Willen An Feochszn and David Martinez What Worlds are Made of The Lakota Sense of Place both demonstrate how space is transformed into place through song and mythic tales On a metaphysical note Andreas Philippopoulos Mihalopolos essay On the Line of the Horizon Anxiety in de Chirico s Metaphysical Spaces provides the reader with psychological and existential insights into the disorienting paintings of de Chirico and Gabriel Ricci s concluding essay tours the landscape that underpins Heidegger s ontological speculations The contributions to this volume are posited on the belief that culture society and human history are ultimately rooted in the natural world This integration may explain why humanity has always looked to nature for moral and ethical guidelines Gabriel R Ricci is associate professor of humanities and the chair of the Department of History at Elizabethtown College in Pennsylvania He is the author of Time Consciousness The Philosophical Uses of History published by Transaction

The Vocation of Business John C. Médaille,2007-05-25 This is a textbook on the Social Teaching of the Roman Catholic Church for would be business professionals Part I does 3 things provides 1 a history of moral discourse since the Enlightenment 2 a history of economic thought from Aristotle and Aquinas to Ludwig Mises and Milton Friedman and 3 a history of property Part II provides a close

reading of 3 major social encyclicals Part III examines the tensions between Catholic social teaching and neoclassical economics Part IV explores 5 case studies of the actual implementation of Catholic like social teaching The over riding theme of the book is that the original unity of distributive and corrective justice that prevailed in both economics and moral discourse until the 16th and 17th centuries was shattered by the rise of an individualistic capitalism that relied on corrective justice justice in exchange only The rise of individualistic business practice was paralleled by a movement in moral thinking from a discourse of virtue and the common good to a discourse of utilitarianism and emotivism individual preference became all that mattered and only the market is capable of correlating individual preferences An economics that lacks a distributive principle will attain neither equity nor equilibrium and will be inherently unstable and increasingly reliant on government power Keynesianism to correct the balances Catholic social teaching emphasizes equity in the distribution of land the means of production and a just wage **Journal of Moral Theology, Volume 7, Number 1** Mary Doyle Roche,2018-01-23
