Catalog, 1926 Isabella Mitchell Cooper,Marion Horton,1926 *The Rise of Communist China* John Kennett,1973 **Contemporary Studies on Modern Chinese History II** Zeng Yeying,2020-10-29 The study of modern Chinese history has developed rapidly in recent decades and has seen increased exploration of new topics and innovative approaches Resulting from a special issue of Modern Chinese History Studies this volume is devoted to showcasing the healthy development of Chinese modern history studies and has already been revised twice in the original language This volume exhibits major achievements on the study of modern Chinese history and shows how the role of history was in debate transformation and re evaluation throughout this tortuous yet prosperous period Articles on seven different topics are collected from over ten prominent historians in order to represent their insights on the developmental paths of Chinese historical studies Drawing on a large

number of case studies of critical historical events such as imperial China and the Chinese Workers Movement this volume sets out to explore topics such as the history of Sino foreign relations as well as the history of workers movements and youth movements This book will be a valuable reference for scholars and students of Chinese history **The Art of Modern**

China Julia F. Andrews,Kuiyi Shen,2012-09-24 In the early twenty first century China occupies a place on center stage in the international art world But what does it mean to be a Chinese artist in the modern age This first comprehensive study of modern Chinese art history traces its evolution chronologically and thematically from the Age of Imperialism to the present day Julia Andrews and Kuiyi Shen pay particular attention to the dynamic tension between modernity and tradition as well as the interplay of global cosmopolitanism and cultural nationalism This lively accessible and beautifully illustrated text will serve and enlighten scholars students collectors and anyone with an interest in Asian art and artists Unravelling Modern

China Haico Ebbers,2019-04-05 This book provides a comprehensive and balanced view of the main transformations that are happening in the Chinese economy today This view has developed from more than 200 interviews and numerous surveys based on primary data in addition to mainstream literature by academia and consultancy companies The general view of China is often either black or white Global markets are generally guided by euphoria or fear Academia are optimistic or pessimistic about China s longer term growth potential People believe or distrust Chinese data These black and white pictures are in many cases easy to communicate and even proved by anecdotic evidence but are not correct Modern China is not the result of tradeoffs but ambiguities market driven AND government driven central government AND local government control increasing brand loyalty AND extreme price sensitivity fall of consumption as percentage of GDP AND strong increase in consumption export as an important driver behind longer term development AND yet hardly visible as a determinant of today s economic growth The aim of this book is to help readers understand the often conflicting nature of China not only from an economic point of view but also from political and social point of view In this sense it tries to give the reader an eclectic picture of China the country of contradictions That is a difficult task because of the linkages between reforms and the fact that there are many preconceived ideas of China its development and choices It is interesting to note that the further from China people are the more negative their views towards China This book will make clear that this pessimism is overdone In the longer term the author is quite positive about China s transformations believing that the rise of China is here to stay and that this is the major factor of change of this century **Contemporary Studies on Modern Chinese History**

Zeng Yeying,2021-03-15 The study of modern Chinese history has developed rapidly in recent decades and has seen increased exploration of new topics and innovative approaches Resulting from a special issue of Modern Chinese History Studies this set is devoted to showcasing the healthy development of Chinese modern history studies and has already been revised twice in the original language This three volume set exhibits major achievements on the study of modern Chinese history and shows how the role of history was in debate transformation and re evaluation throughout this tortuous yet

prosperous period Articles on 23 different topics are collected from over 30 prominent historians in order to represent their insights on the developmental paths of Chinese historical studies Drawing on a large number of case studies of critical historical events that contribute to the establishment of the People's Republic of China this set offers a panoramic view on the studies of modern Chinese history In addition it incorporates more pioneering topics such as intellectual history cultural history and translations of overseas studies on contemporary Chinese history This set will be a valuable reference for scholars and students of Chinese history

Modern China: A Very Short Introduction Rana Mitter, 2008-02-28 China today is never out of the news from human rights controversies and the continued legacy of Tiananmen Square to global coverage of the Beijing Olympics and the Chinese economic miracle It seems a country of contradictions a peasant society with some of the world's most futuristic cities heir to an ancient civilization that is still trying to find a modern identity This Very Short Introduction offers the reader with no previous knowledge of China a variety of ways to understand the world's most populous nation giving a short integrated picture of modern Chinese society culture economy politics and art

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Legal Reforms and Deprivation of Liberty in Contemporary China Elisa Nesossi, Sarah Biddulph, Flora Sapio, Susan Trevaskes, 2016-06-03 The volume presents an extensive investigation into the process of reforms of detention powers in today's China and offers an in depth analysis of the debates surrounding the reformist attempts The chapters in this collection demonstrate that legislative and institutional reforms in this area result from political opportunities openings and tensions at the central institutional levels of political authority and contingent social and political factors The book examines legal and institutional reforms to institutions of detention and imprisonment that have occurred since the 1990s with a particular focus on the 21st century Its content follows three particular lines of enquiry concerning the issue of deprivation of liberty in contemporary China The first deals with the academic and theoretical debates on the subject of imprisonment and detention The related chapters explain the difficulties encountered in this area of research and understandings of the discourses of reform through labour in Western and Chinese scholarship The second deals with the specific issues of criminal and administrative forms of deprivation of liberty examining in particular the institutional and legislative dimensions considering the relationship between reforms and criminal justice policy agendas The third assesses the meaning of institutional reforms in the context of the changing state society relationship in contemporary China

The Making of Modern Chinese Medicine, 1850-1960 Bridie Andrews, 2014-04-01 Medical care in nineteenth century China was spectacularly pluralistic herbalists shamans bone setters midwives priests and a few medical missionaries from the West all competed for patients This book examines the dichotomy between Western and Chinese medicine showing how it has been greatly exaggerated As missionaries went to

lengths to make their medicine more acceptable to Chinese patients modernizers of Chinese medicine worked to become more scientific by eradicating superstition and creating modern institutions Andrews challenges the supposed superiority of Western medicine in China while showing how traditional Chinese medicine was deliberately created in the image of a modern scientific practice

The Second Generation Andreas W. Daum, Hartmut Lehmann, James J. Sheehan, 2015-12-01 Of the thousands of children and young adults who fled Nazi Germany in the years before the Second World War a remarkable number went on to become trained historians in their adopted homelands By placing autobiographical testimonies alongside historical analysis and professional reflections this richly varied collection comprises the first sustained effort to illuminate the role these men and women played in modern historiography Focusing particularly on those who settled in North America Great Britain and Israel it culminates in a comprehensive meticulously researched biobibliographic guide that provides a systematic overview of the lives and works of this second generation

Japan faces the World, 1925-1952 Mary L. Hanneman, 2013-11-14 By 1925 the process of Japan's transition to a modern industrialised westernised state was pretty much complete Not only had the imperial tradition been restored with the Meiji Restoration in 1868 but some forms of democratic parliamentary institutions had been set up However during the years that followed the so called imperial democracy came under pressure as the Japanese sought to impose tight control over not only their own people but their neighbours as well This impressive survey looks at developments at home Japan's aggressive foreign policy particularly in China during the 1930s and 1940s and her role in the Second World War Finally the post war reconstruction orchestrated by the Americans is examined The cut off point is 1952 the date when Allied Occupation formally came to an end and Japan once again became independent
