China's Education, Curriculum Knowledge and Cultural Inscriptions Weili Zhao, 2018-06-27

With a focus on the role of discourse and language in education, this book examines China's educational reform from an original perspective that avoids mapping on Westernized educational sensibilities to a Chinese environment. Zhao untangles the tradition/modernity division expressed in China's educational language about the body and teacher/student difference. Exploring the historical and cultural implications of the ways China's schooling is talked about and acted upon, Zhao argues that Chinese notion *wind feng* is a defining aspect of Chinese teaching and learning. Incorporating Western and Chinese literature, this book explores the language of education, curriculum, and knowledge on a cross-cultural landscape and as cultural inscriptions.
