The Domestication of Critical Theory Michael J. Thompson, 2016-02-26 Critical theory was one of the most vigorous and insightful intellectual traditions of the twentieth century At its core was a critique of culture and consciousness tied to instrumental rationality and capitalist economic life Yet Michael J Thompson argues in this highly original book that this once critical tradition has been domesticated it no longer offers a philosophically convincing nor politically viable form of social critique Thompson demonstrates that critical theory has surrendered its concerns with domination alienation and the pathologies of capitalist modernity and shifted its focus toward neo Idealist themes This new critical theory has turned its back on the insights of the classical critical theorists Thompson traces how this shift occurred and how we can reclaim critique in an age of conformism apathy and depoliticization He goes on to defend the different aspects of critical theory that can be used to reformulate social critique one that must be brought into a dialogue with contemporary political social and moral philosophy that protects the lasting and crucial legacy of critical theory as an emancipatory political project

Culture, Class, and Critical Theory David Gartman, 2013 Culture Class and Critical Theory develops a theory of culture that explains how ideas create and legitimate class inequalities in modern society This theory is developed through a critique and comparison of the powerful ideas on culture offered by Pierre Bourdieu and the Frankfurt School thinkers especially Theodor Adorno These ideas are illuminated and criticized through the development of two empirical cases on which Gartman has published extensively automobile design and architecture Bourdieu and the Frankfurt School postulate opposite theories of the cultural legitimation of class inequalities Bourdieu argues that the culture of modern society is a class culture a ranked diversity of beliefs and tastes corresponding to different classes The cultural beliefs and practices of the dominant class are arbitrarily defined as superior thus legitimating its greater share of social resources By contrast the thinkers of the Frankfurt School conceive of modern culture as a mass culture a leveled homogeneity in which the ideas and tastes shared by all classes disguises real class inequalities This creates the illusion of an egalitarian democracy that prevents inequalities from being contested Through an empirical assessment of the theories against the cases Gartman reveals that both are correct but for different parts of modern culture These parts combine to provide a strong legitimation of class inequalities

Kire Sharlamanov, 2024-03-04 This book identifies the turning points in Habermas s work and his transition from one stage to another in the development of his theoretical oeuvre Habermas began his academic career as part of the Frankfurt School but the two key points at which his career changes trajectory are moving from historical materialism to normative idealism and playing with some of the ideas of liberalism Normative idealism is an ahistorical theory that insists on the independence of the normative from material reality severing the connection between base and superstructure that Marx wrote about The break with the basic concepts of Marxism enabled Habermas to build his own discursive critical theory which especially since the end of the 1980s takes the ideas of liberalism seriously This book makes a systematic multidimensional and detailed analysis of Habermas s theoretical oeuvre in two dimensions chronological in the order in which Habermas worked on certain topics and thematic enclosing certain thematic units **Africana Critical Theory**
