Modern Electrochemistry John O'M. Bockris, Amulya K.N. Reddy, 2012-12-06 Europe is the name for a scintillating variety of historically emerged concepts constantly developed and discussed over time Its complexity and fuzziness is reflected in a multitude of myths topoi symbols and boundaries which all constitute shared knowledge of the concept of EUROPE and which continue to influence attempts to de and re construct European identity The case studies collected in this volume investigate the competing concepts of Europe in political and public discourses from a wide range of perspectives e g frame semantics discourse linguistics multimodal analysis focusing on the following aspects How is EUROPE conceptualised re negotiated and legitimised by different political actors political bodies and institutions How does the European idea change throughout history and how is the re emerging idea of nationality evaluated **Volume 1 Modern**
