Poetry and the Question of Modernity Ian Cooper, 2020-01-15 Interest in Martin Heidegger was recently reawakened by the revelations in his newly published Black Notebooks of the full terrible extent of his political commitments in the 1930s and 1940s The revelations reminded us of the dark allegiances co existing with one of the profoundest and most important philosophical projects of the twentieth century one that is of incomparable importance for literature and especially for poetry which Heidegger saw as embodying a receptiveness to Being and a resistance to the instrumental tendencies of modernity Poetry and the Question of Modernity From Heidegger to the Present is the first extended account of the relationship between Heidegger s philosophy and the modern lyric It argues that some of the best known modern poets in German and English from Paul Celan to Seamus Heaney and Les Murray are in deep imaginative affinity with Heidegger s enquiry into finitude language and Being But the work of each of these poets challenges Heidegger because each appeals to a transcendence taking place in language that is inseparable from the motion of encounter with

embodied others It is thus poetry which reveals the full measure of Heidegger's relevance in redefining modern selfhood and poetry which reveals the depth of his blindness

Visual and Non-Visual Effects of Light Agnieszka Wolska, Dariusz Sawicki, Małgorzata Tafil-Klawe, 2020-07-29 The introduction of artificial lighting extends the time of wakefulness after dark and enables work at night thus disturbing the human circadian rhythm The understanding of the physiological mechanisms of visual and non visual systems may be important for the development and use of proper light infrastructure and light interventions for different workplace settings especially for shift work conditions Visual and Non Visual Effects of Light Working Environment and Well Being presents the impact of lighting in the working environment on human health well being and visual performance The physiological explanation of the visual and non visual effects of light on humans which discusses the biological bases of image and non image forming vision at the cellular level may be of particular interest to any professional in the field of medicine physiology and biology It is one of the intentions of this book to put forward some recommendations and examples of lighting design which take into account both the visual and non visual effects of light on humans These may be of particular interest to any professional in the field of lighting occupational safety and health and interior design What effects on health can a light overdose or light deficiency have What is bad light The authors of the monograph provide answers to these questions Just as for a physicist the dual nature of light comprises an electromagnetic wave and a photon the duality of light for a physician comprises visual and non visual effects Prof Jacek Przybylski Medical University of Warsaw This is a unique publication in the field of lighting technology The authors have skillfully combined both the technical and biomedical aspects involved which is unprecedented in the literature available As a result an important study has been created for many professional groups with a significant impact on the assessment of risks associated with LED sources Prof Andrzej Zaj c Military University of Technology Warsaw

Light for Art's Sake Christopher Cuttle, 2007-06-01 Conservation scientists in museums and galleries have a clear understanding of the damage that light can inflict on an object but what of the designers that create exhibitions to display these precious items Light for Arts Sake provides a basis for a level of professional expertise for lighting practice in museums Rather than portraying conservation and display as having diametrically opposed objectives the central concept is that the interaction of light and art media is the source for both the visual experience and the degradation of the artwork Optimal solutions derive from understanding and controlling the interaction process and the need is for the level of understanding among lighting professionals to be brought closer to that found among conservation scientists
