Emanuel, 1998 Addressing the subject of euthanasia medical ethicist Dr Linda Emanuel assembles testimony from leading experts to provide not only a clear account of the arguments for and against physician assisted suicide and euthanasia but also historical empirical and legal perspectives on this complex and often heart rending issue *Taking Issue* Baruch A. Brody, 2004-06-30 A pioneer in the theory of pluralistic casuistry the idea that there are almost as many facets to moral choices as there are cases that call for choices Baruch Brody takes issue with conventional bioethical wisdom and challenges the rigid principlism of contemporary bioethics His views have been seen as controversial but they are firmly held and convincingly argued all of which have led him to be one of the most widely discussed and highly admired bioethicists of our time He argues for the fundamental distinction between active and passive euthanasia for a need to reconceptualize approaches to brain death and for the right of providers to unilaterally discontinue life support He shows support for the waiving of the requirement of informed consent for some research for the widespread use of animals in research and for the use of placebos in many international clinical trials When it comes to morality as it is practiced in medicine Brody makes clear that the ethical issues are never as simple as black and white that there are myriad factors and fine nuances that can and should challenge decision making as it is commonly practiced in difficult medical cases In this collection delving thoughtfully and systematically into methodology research ethics clinical ethics and Jewish medical ethics he tackles thorny life and death questions head on and fearlessly He casts a light into all the corners of end of life decisions a field in which he has exemplary credentials while illuminating a new understanding of morality and ethics The introduction outlines Brody's approach defines the terminology

used and contrasts his ethical positions with much of the competing literature Taking Issue will be invaluable to students and scholars in medical ethics bioethics and philosophy of medicine The Oxford Handbook of Judaism and Economics Aaron Levine,2010-11-12 The interaction of Judaism and economics encompasses many different dimensions Much of this interaction can be explored through the way in which Jewish law accommodates and even enhances commercial practice today and in past societies From this context The Oxford Handbook of Judaism and Economics explores how Judaism as a religion and Jews as a people relate to the economic sphere of life in modern society as well as in the past Bringing together an astonishingly strong group of top scholars the volume approaches the subject from a variety of angles providing one of the most comprehensive well rounded and authoritative accounts of the intersections of Judaism and economics yet produced Aaron Levine first offers a brief overview of the nature and development of Jewish law as a legal system then presents essays from a variety of angles and areas of expertise The book offers contributions on economic theory in the bible and in the Talmud on the interaction between Jewish law ethics modern society and public policy then presents illuminating explorations of Judaism throughout economic history and the ways in which economics has influenced Jewish history The Oxford Handbook of Judaism and Economics at last offers an extensive and welcome resource by leading scholars and economists on the vast and delightfully complex relationship between economics and Judaism **Contrasts in American and Jewish Law** Daniel Pollack,2001 American law and the American legal system are rights based whereas Jewish law and the halakhic system are duty based This distinction goes to the heart of the two legal systems the basis on which each is founded how they conceptualize human nature and the social order and how they function The American legal system is a human construction forged in a secular society The halakhic system while honed and clarified over the centuries by human decisors is ultimately grounded in a text revealed by God In consequence the two legal systems approach problems quite differently This is explained and illustrated in this volume by discussions of such compelling social issues as euthanasia medical treatment without consent search and seizure in schools procreation rights of prisoners liability for environmental damage termination of parental rights due to mental incapacity and the capacity of the mentally retarded to give informed consent *The Routledge Handbook of Muslim-Jewish Relations* Josef Meri,2016-06-23 The Routledge Handbook of Muslim Jewish Relations invites readers to deepen their understanding of the historical social cultural and political themes that impact modern day perceptions of interfaith dialogue The volume is designed to illuminate positive encounters between Muslims and Jews as well as points of conflict within a historical framework Among other goals the volume seeks to correct common misperceptions about the history of Muslim Jewish relations by complicating familiar political narratives to include dynamics such as the cross influence of literary and intellectual traditions Reflecting unique and original collaborations between internationally renowned contributors the book is intended to spark further collaborative and constructive conversation and scholarship in the academy and beyond **Biotechnology** Sean D. Sutton,2009-07-02 Considers the

ethics and challenges of biotechnology **Hot Topics** Behrman House, Susan Freeman, 2005 Ideal as a complete course text or as an informative supplement to one shot classroom discussions this complement to Teaching Hot Topics encourages students to engage with issues through its interactive design pertinent scenarios probing questions and charts that summarize points and counterpoints for each topic
