Setting their sights on sumitting Lucania in the summer of 1937 Washburn and Bates put together a team of four climbers for the expedition But when Bates and Washburn flew to the Walsh Glacier at the foot of Lucania they discovered that freakish weather conditions had turned the ice to slush Their pilot was barely able to take off again alone and there was no question of returning with the other two climbers or more supplies Washburn and Bates found themselves marooned on the glacier more than a hundred miles from help in forbidding and desolate territory Eschewing a trek out to the nearest mining town eighty miles away by air they decided to press ahead with their expedition Escape from Lucania recounts Washburn and Bates s determined drive toward Lucania s 17 150 foot summit under constant threat of avalanches blinding snowstorms and hidden crevasses Against awesome odds they became the first to set foot on Lucania s peak not realizing that their greatest challenge still lay beyond Nearly a month after being stranded on the glacier and with their supplies running dangerously low they would have to navigate their way out through uncharted Yukon territory racing against time as the summer warmth caused rivers to swell and flood to unfordable depths But even as their situation grew more and more desperate they refused to give up Escape from Lucania tells this amazing story in thrilling and vivid detail from the climbers exultation at reaching the summit to their darkest moments confronting seemingly insurmountable obstacles It is a tale of awesome adventure and harrowing danger But above all it is the story of two men of extraordinary spirit inspiring comradeship and great courage Today Washburn and Bates now in their nineties are legends in climbing circles Bates co led 1938 and 1953 expeditions to K2 the world s second highest mountain Washburn whose record of Alaskan first ascents is unmatched became founding director of Boston s Museum of Science and is one of the premier mountain photographers in the world Some of his remarkable images from the 1937 Lucania expedition are included in this book **Miles From Nowhere** Barbara Savage,1985-01-31 A well loved classic tale of adventure Read this and you ll find yourself recommending it to friends again and again This is the story of Barbara and Larry Savage s sometimes dangerous often zany but ultimately rewarding 23 000 miles global bicycle odyssey which took them through 25 countries in two years Miles From Nowhere is an adventure not to be missed Along the way these near neophyte cyclists encountered warm hearted strangers eager to share food and shelter bicycle hating drivers who shoved them off the road various wild animals including a roof ape and an attack camel sacred cows rock throwing Egyptians overprotective Thai policeman motherly New Zealanders meteorological disasters bodily indignities and great personal joys The stress of traveling together constantly for two years tested and ultimately strengthened the young couple s relationship As their trip ends you ll find yourself yearning for Barbara and Larry to mount back up and keep pedaling It s a story that makes you feel like you ve grown right along with the author Wanderlust Rebecca Solnit,2001-06-01 A passionate thought provoking exploration of walking as a political and cultural activity from the author of Orwell s Roses Drawing together many histories of anatomical evolution and city design of treadmills and labyrinths of walking clubs and sexual mores Rebecca Solnit creates a fascinating portrait of the range of possibilities

presented by walking Arguing that the history of walking includes walking for pleasure as well as for political aesthetic and social meaning Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture from philosophers to poets to mountaineers She profiles some of the most significant walkers in history and fiction from Wordsworth to Gary Snyder from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja finding a profound relationship between walking and thinking and walking and culture Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car dependent and accelerated world *Over the Top* Peter Potterfield, Greg Child, 2002 Trips gone wrong embarrassing incidents unfortunate pratfalls and hilarious reflections are part of *Over the Top* Humorous Mountaineering Tales Volume 3 the newest volume in The Mountaineers Anthology Series Kurt Diemberger's A Lesson in French and Greg Child's Chalk are examples of climbers keen appreciation for the absurd droll ironic and hilarious moments in their world

Life and Death on Mt. Everest Sherry B. Ortner, 2020-03-31 The Sherpas were dead two more victims of an attempt to scale Mt Everest Members of a French climbing expedition sensitive perhaps about leaving the bodies where they could not be recovered rolled them off a steep mountain face One body however crashed to a stop near Sherpas on a separate expedition far below They stared at the frozen corpse stunned They said nothing but an American climber observing the scene interpreted their thoughts Nobody would throw the body of a white climber off Mt Everest For more than a century climbers from around the world have journeyed to test themselves on Everest's treacherous slopes enlisting the expert aid of the Sherpas who live in the area Drawing on years of field research in the Himalayas renowned anthropologist Sherry Ortner presents a compelling account of the evolving relationship between the mountaineers and the Sherpas a relationship of mutual dependence and cultural conflict played out in an environment of mortal risk Ortner explores this relationship partly through gripping accounts of expeditions often in the climbers own words ranging from nineteenth century forays by the British through the historic ascent of Hillary and Tenzing to the disasters described in Jon Krakauer's Into Thin Air She reveals the climbers or sahibs to use the Sherpas phrase as countercultural romantics seeking to transcend the vulgarity and materialism of modernity through the rigor and beauty of mountaineering She shows how climbers behavior toward the Sherpas has ranged from kindness to cruelty from cultural sensitivity to derision Ortner traces the political and economic factors that led the Sherpas to join expeditions and examines the impact of climbing on their traditional culture religion and identity She examines Sherpas attitude toward death the implications of the shared masculinity of Sherpas and sahibs and the relationship between Sherpas and the increasing number of women climbers Ortner also tackles debates about whether the Sherpas have been spoiled by mountaineering and whether climbing itself has been spoiled by commercialism Escape
