En este último capítulo se plantean algunas perspectivas de la investigación sobre el establecimiento de niveles de desempeño en traducción, a la par que se indican las dificultades que todo ello genera.

### 6.1. Perspectivas

#### 6.1.1. Necesidad de una validación a mayor escala

En primer lugar, cabe resaltar que la primera propuesta elaborada en el proyecto NACT en 2017 solo fue examinada por 99 expertos del mundo académico y profesional de la traducción (véase 4.3). La segunda propuesta que aquí se ha presentado (véase capítulo 5), surgida de ese juicio de expertos, debería someterse a una validación a mayor escala, garantizando una gran representatividad geográfica y lingüística y de todos los sectores implicados (formadores de traductores, traductores, asociaciones de traductores, organismos de acreditación en traducción e instituciones lingüísticas, empleadores) con el fin de afinar más la propuesta y obtener un mayor consenso.

linguistics      **Avances en los estudios de lingüística hispánica: perspectivas teóricas y aplicadas entre lengua y sociedad**, 2024-12-18 Este segundo volumen sigue en el marco del proyecto científico del que se originó también el libro anterior Mariottini Palmerini 2022 cuyo objetivo es profundizar en las diferentes vertientes de la lingüística hispánica contemporánea tanto teórica como aplicada y de destacar las tendencias y los avances en los estudios sobre el español llevados a cabo mediante herramientas propias de la lingüística. Con este objetivo la estructura del libro se construye alrededor de unos ejes temáticos que consideramos relevantes para brindar una fotografía del estado actual de la investigación en el ámbito de la lingüística hispánica.      *Lazos entre lingüística e ideología desde un enfoque historiográfico (SS. XVI-XX)* Borja Alonso Pascua, Francisco Escudero Paniagua, Carlos Villanueva García, Carmen Quijada Van Den Berghe, José J. Gómez Asencio, 2020-12-01 Los 17 trabajos reunidos en este volumen estudian desde una perspectiva historiográfica la manifestación explícita y/o implícita de ideologías en textos de carácter metalingüístico. Tomando como eje las relaciones entre lingüística e ideología y su proyección en el ámbito social político o didáctico se analiza aquí el contenido de obras gramaticales lexicográficas y ortográficas, historias de lenguas artísticas, periodísticos, discursos manifiestos y otros escritos publicados en la horquilla comprendida entre los siglos XVI y XX. Aunque el grueso de los trabajos se articula en torno a textos sobre el español tanto en su variedad europea como americana también se da aquí cabida a contribuciones sobre sistemas lingüísticos pasados como el latín o el mozárabe sobre otras lenguas peninsulares contemporáneas como el euskera o el catalán y sus variedades dialectales sobre el componente ideológico de los textos en los que la enseñanza del castellano se ve influida por el idioma de los destinatarios como el inglés, el árabe marroquí o el japonés e incluso sobre el complejo universo de las lenguas artificiales.

*La construcción de escalas de medición para la investigación lingüística y sus aplicaciones didácticas* Rafael Crismán Pérez, 2016-04-26 Esta obra pretende llevar a cabo tanto la elaboración como la aplicación de varios instrumentos de medición estadística con respecto al ámbito de la lengua española. Así pues, dentro de esta disciplina científica nos hemos centrado en el estudio de una posibilidad de variación diatópica de la lengua española: la modalidad lingüística andaluza. A partir de unas hipótesis hemos llevado a cabo un estudio empírico acerca de diferentes variables de medición. Así pues, mediante el presente trabajo queremos ofrecer un ejemplo acerca de cómo llevar a cabo un estudio lingüístico de campo a partir de diversas teorías de medición en ciencias sociales para lo cual recurriremos a una metodología cuasi experimental de investigación. Las variables que pretendemos medir serán tres a partir de una muestra de 460 sujetos matriculados en Educación Secundaria Obligatoria en Andalucía: la actitud hacia la modalidad lingüística andaluza, el conocimiento morfológico de la modalidad lingüística andaluza y la actitud hacia el uso de la modalidad lingüística andaluza en diferentes situaciones comunicativas. Nuestra investigación pretende superar los tradicionales análisis de estudio lingüístico de cuantificación acerca de un determinado fenómeno los cuales suelen estar basados en porcentajes de datos extraídos a partir de una muestra con el fin de ofrecer instrumentos de medición fiables en los cuales se haya llevado a cabo una comprobación de la fiabilidad de los mismos a partir

de la selección de los temas que componen dichos instrumentos mediante criterios teóricos y estadísticos ya que a la hora de construir un instrumento de medición es necesario no sólo recurrir a criterios teóricos basados en propuestas científicas o un marco teórico que plantee el problema de investigación sino que es necesario utilizar además recurrir a criterios estadísticos que nos permitan seleccionar aquellos temas con mayor poder discrimin

**Giro Lingüístico: Un Apunte sobre la Escuela Filosófica** Pons Malleus, 2025-10-02 En la historia de la filosofía pocos cambios han sido tan transformadores como el Giro Lingüístico Surgido a principios del siglo XX este movimiento intelectual reformuló el lenguaje no solo como medio para expresar el pensamiento sino como el marco mismo en el que este cobra forma Reorientó la investigación filosófica de la especulación metafísica al análisis del lenguaje marcando el comienzo de una profunda reorientación de nuestra comprensión del significado la verdad y la realidad Este libro explora ese momento crucial y sus repercusiones en el panorama filosófico El Giro Lingüístico no es obra de un solo filósofo o escuela sino de una constelación de pensadores cada uno de los cuales aborda las implicaciones del lenguaje para las cuestiones más persistentes de la filosofía Desde la semántica formal de Gottlob Frege y el atomismo lógico de

Bertrand Russell hasta las perspectivas cambiantes de Ludwig Wittgenstein en el *Tractatus* y las Investigaciones Filosóficas pasando por los desarrollos posteriores en la filosofía del lenguaje ordinario con figuras como J. L. Austin y Gilbert Ryle este giro representa un caleidoscopio de perspectivas sobre el poder de los límites y las estructuras del lenguaje. En esencia el Giro Lingüístico cuestiona la noción de que podemos acceder a una realidad prelingüística o puramente objetiva. Afirma en cambio que nuestro acceso al mundo siempre está mediado por el lenguaje. Esto tiene profundas consecuencias: nos obliga a reconsiderar la posibilidad del conocimiento objetivo, los límites de la investigación filosófica y la función misma de la filosofía. Para algunos como los positivistas lógicos del Círculo de Viena el lenguaje se convirtió en el filtro para determinar el discurso significativo. Para otros el lenguaje revela la arraigación del significado en el uso, la forma y el contexto cultural e histórico. Este libro no es un mero recuento histórico de ideas. Más bien busca rastrear las consecuencias filosóficas de este giro y explorar su relevancia actual. Si bien el Giro Lingüístico alcanzó su apogeo a mediados del siglo XX su legado continúa influyendo en los debates contemporáneos en filosofía del lenguaje, epistemología, metafísica e incluso teoría política. La división entre lo analítico y lo continental, el auge del posestructuralismo y el desarrollo de las ciencias cognitivas son signos de su influencia. El lector encontrará tanto textos fundacionales como voces menos conocidas pero igualmente importantes. Si bien algunos capítulos profundizan en argumentos técnicos como los relativos a la referencia, las condiciones de verdad o los actos de habla, otros se centran en las implicaciones más amplias de la filosofía lingüística para la autocomprensión humana. El objetivo es esclarecer no solo la contribución del Giro Lingüístico a la filosofía sino también su importancia. Al presentar esta obra he intentado encontrar un equilibrio entre una exposición rigurosa y una narrativa accesible. Está escrita para el lector con inclinaciones filosóficas ya sea un estudiante que se enfrenta a estas ideas por primera vez o un pensador experimentado que las retoma con una perspectiva nueva. Espero que al final del recorrido seas capaz de apreciar el lenguaje no solo como una herramienta que usamos sino como un paisaje que habitamos, un territorio de significado que moldea cada pensamiento, creencia e indagación. La filosofía no terminó con el Giro Lingüístico. Pero fue transformada irrevocablemente por él. Y esa transformación en toda su complejidad y matices es lo que este libro busca explorar.

**Linguistic Corpora and Big Data in Spanish and Portuguese** Miguel Calderón Campos, Gael Vaamonde, 2024-10-21 In recent decades corpus linguistics has experienced tremendous development in the Hispanic world along two opposite but complementary approaches: increase in corpus size (corpus linguistics as Big Data) and improvement in document selection and data annotation (corpus linguistics as High Quality Data). The first approach has led to the creation of massive corpora such as EsTenTen; at the same time it has promoted the use of the web and social networks as corpora. The second perspective gives rise to specialized corpora such as Post Scriptum or Oralía. Diacronica del español ODE. The contributions gathered in this volume combine both methods in order to exploit their advantages and to overcome their possible limitations. On the one hand it addresses the creation and design of small corpora focused on data quality; on the other hand it offers case studies that make use of both specialized corpora and

massive data extracted from the web Highlighting the complementary nature of both methods is the main idea of this book

**Studies in Contrastive Linguistics** Cristina Mourón Figueroa, Teresa Moralejo Gárate, Antonio Alvarez Rodriguez, 2006

**Estudios lingüísticos en homenaje a Emilio Ridruejo** AAVV, 2019-10-08 En estos dos volúmenes se rinde un merecido homenaje a Emilio Ridruejo por su dedicación incansable y rigurosa a la ciencia lingüística así como por su generoso magisterio. A la semblanza y currículum del homenajeado siguen los estudios ofrecidos por sus colegas en los que se encuentran acercamientos de distinto tipo al estudio de las lenguas a su funcionamiento y a su evolución con particular atención al español de España al español de América y a las variedades lingüísticas peninsulares en sus diferentes aspectos gramaticales pragmáticos sociolingüísticos gramatológicos etc. Todo ello desde la perspectiva de la filología románica en general y de la filología hispánica en particular de la lingüística sincrónica y la diacrónica en sus vertientes histórica e historiográfica. **Monographic Series** Library of Congress, 1982 Hacia un enfoque múltiple de la polisemia Marlies Jansegers, 2017-02-06 This study focuses on the formalization of a fundamental experience of human existence the act of perception. Unlike most other linguistic research dealing with the prototypical verbs of visual and auditory perception it concentrates on the complicated polysemy of the multimodal verb *sentir*. The findings provide important new insight into the linguistic expression of perception in general.

## **Perspectivas De La Investigacion Linguis Introduction**

In today's digital age, the availability of Perspectivas De La Investigacion Linguis books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Perspectivas De La Investigacion Linguis books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Perspectivas De La Investigacion Linguis books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Perspectivas De La Investigacion Linguis versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Perspectivas De La Investigacion Linguis books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Perspectivas De La Investigacion Linguis books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Perspectivas De La Investigacion Linguis books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Perspectivas De La

Investigacion Linguis books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips.
