Green Forest Stories Thornton W. Burgess, 2023-06-12 American naturalist and conservationist Thornton W. Burgess was the author of more than one hundred books for children; the best remembered of these is *Old Mother West Wind*, which was originally written for his young son. Burgess also wrote dozens of books about the creatures of the northern North American forest, four of which are collected here as the *Green Forest Stories*. This *Green Forest Stories* compilation focuses on Lightfoot the Deer, Blacky the Crow, Whitefoot the Wood Mouse, and twin bear cubs Woof Woof and Boxer. Readers may have encountered these characters in other of Burgess's stories about the little people of the Massachusetts forest. Burgess's earliest ventures into animal fantasy are roughly contemporary with Rudyard Kipling's *Just So Stories* and Beatrix Potter's tales of various animals and represent the most lasting American entry into this genre. Animal fantasy is a sub-genre of children's literature in which animals are anthropomorphized into human-like characters and use language like humans. It is often criticized by those who want readers to experience more realistic representations of animals and the natural world, but animal fantasies engage a millennia-old tradition in the Western canon, reaching back at least as far as Aesop's Fables. Animal characters feature in teaching stories for children and adults in cultures around the world. Burgess's stories are intended for children in the early elementary grades. The challenges and triumphs of the little people in his stories will feel identifiable to many young readers, and the snippets of moralizing and authorial commentary interleaved with the actions of the plot reflect

a teaching device with a long history In these stories as in the Green Meadow Stories collection we observe features that signal Burgess s experience as a writer for periodicals and as an early radio broadcaster Each chapter begins with reminders about the previous chapter and chapters end with either a strong propulsive conclusion or a traditional cliff hanger The chapters are generally quite short a comfortable size to read as a bedtime story and just long enough to hold a new reader s attention without demanding too much of that reader s energy The strong narrative voice sounds distinctly like oral storytelling One can almost imagine a small group of young people seated in a circle at the storyteller s feet That image captures the essence of these animal tales They are light bright peeks into a complex and beautiful world a world any girl or boy may want to pursue through study or personal explorations As humanity faces the daily loss of animal species stories that delight readers and listeners that encourage them to learn about and respect the creatures of the non human world deserve our renewed attention and respect
