## Riding North One Summer:

**The Self-Propelled Voyager** Duncan R. Jamieson, 2015-09-03 Before the last quarter of the nineteenth century people who wanted to travel independently either walked or rode horses. Then a newly invented machine changed forever the nature of personal transportation. The cycle self-propelled bicycles, tricycles, and tandems allowed almost anyone to travel around town, around their region, and around the world. While dramatic developments in equipment, clothing, road surfaces, and amenities make the physicality of cycling much different from the earlier era, the experience of cycling has seen little change. *The Self Propelled Voyager: How the Cycle Revolutionized Travel* recounts how a transportation innovation opened the world for not only those who made the journey but also for the armchair travelers who read with interest the cyclists' accounts of faraway places. Following a brief history of the development of the cycle, this book describes the exploits of long-distance riders who wrote of their experiences, their triumphs and their tragedies. Duncan R. Jamieson chronicles their journeys, their personal stories, and the times in which they lived, revealing that despite the continuing rise and fall of cycling interest, people continue to enjoy traveling in the slow lane. Drawing on books and articles by the women and men who rode and wrote of their travels, *The Self Propelled Voyager* also features photographs from the 1880s up to the modern day illustrating the development of the cycle through history.

**Ford Road** Amy Kenyon, 2012 A new Michigan-based novel explores how our connections with the past can affect our future. **A Walking Miracle** Richard Donald Pietz, 2010-04-14 *A Walking Miracle*, primarily written for the author's children, is a collection of personal stories revealing the life and times of a youngster growing up from the rural northern plains to the southern city streets. From the college campus to life in the military during the Vietnam crisis, surviving several close calls with the grim reaper leads the author to the conclusion that anyone reaching the age of twenty-five is a walking miracle. Part two contains stories from his father, a WW I diary kept by his grandfather, and a diary from the time of his great-great-grandfather.
