Riesgo Elevado Obstetrico:

Alto riesgo obstétrico Oyarzún Ebensperger, Dr. Enrique, Poblete Lizana, Dr. José Andrés, 1997 Se llama alto riesgo al embarazo en el cual existe asociado a patología materna y/o fetal un pronóstico de morbilidad mayor que en un embarazo normal. Estos embarazos representan del 20% al 30% del total pero son responsables de más del 80% de los resultados maternos y perinatales adversos. Problemas como la prematuridad, la asfisia perinatal, las malformaciones congénitas y las enfermedades maternas pregestacionales requieren de estrategias orientadas a su prevención diagnóstica y tratamiento oportunos.

Capítulo 6. Anestesia obstétrica en la mujer con embarazo de alto riesgo. Dra. Ma. Bernardette de la Luz Casillas Sánchez, Dr. Anselmo Garza Hinojosa, Dr. Gustavo González Cordero, Dra. María Esther Pérez Bastidas, Dr. Elvis González Pérez, Dra. Nereida González Cabrera, Dr. Pastor Luna Ortiz, Dr. Héctor Manuel Colín Cortes, Dr. Félix López Fundora, Dra. Celina Hortencia Montes Ruiz, Dra. Olga Cecilia Correa Chacón, Dr. Javier García Cayuela, Dr. Manuel Belmonte Ibañez, Dr. Luis Miguel Toledo Muñoz, 2020-06-08 Consideremos que el embarazo sin ser precisamente una enfermedad es un estado normal; algunos dirían que fisiológicamente imposible en que casi todos los valores funcionales usuales de la mujer cambian para convertirla en un organismo apto para conservar, proteger y entregar a la vida extrauterina a un nuevo ser que engendró o que modernamente pudiera ser producto de una fertilización artificial. No podemos soslayar el problema que implica para todo el mundo la gran cantidad de mujeres que mueren durante el embarazo o puerperio por complicaciones médicas del embarazo mismo o de una patología previa que se agrava durante la gestación. Y es precisamente la experiencia de más de 40 años en el campo de la Anestesiología sobre todo atendiendo mujeres que suscitan casi la necesidad de producir este volumen contando con la sapiencia y muchos anestesiólogos de habla hispana de lugares que presentan problemas similares en la atención a nuestras embarazadas y familiarizados con la necesidad de aprovechar al máximo los recursos a nuestro alcance y en ocasiones improvisando soluciones en un afán de brindar a estos pacientes madre e hijo lo mejor de nosotros mismos. Muchas gracias desde el corazón a todos estos ilustres colaboradores, gracias por sus conocimientos, tiempo y paciencia.

Aplicación de un modelo biopsicosocial Julián A. Herrera, 2009-03-06. Modelo biopsicosocial para la reducción de la morbilidad y mortalidad materna y perinatal es una metodología construida mediante investigación entre 1987 y 1990, la cual fue validada en cuatro países de América Latina entre 1991 y 1992. Recientemente fue validada en dos países de Asia. La prueba poblacional realizada en siete departamentos del occidente de Colombia en el régimen subsidiado y vinculado y la realizada en catorce departamentos de todo Colombia en el régimen contributivo observó una reducción significativa en la morbilidad y mortalidad materna y perinatal. Los primeros nueve capítulos actualizan el estado del arte de las principales morbilidades trazadoras de mortalidad materna y perinatal, suministrando herramientas prácticas para que el equipo de salud pueda identificar e intervenir los principales riesgos biológicos, psicológicos y sociales en la mujer embarazada. Se presentan ocho nuevos capítulos en los cuales se discuten los avances y el estado del arte en: suplementación de micronutrientes; se describe la contribución de la enfermedad periodontal en las complicaciones maternas y perinatales y se describen los sistemas de información y la vigilancia epidemiológica. Se presentan también los resultados de la implementación del modelo biopsicosocial en Colombia. Las intervenciones en los aspectos biológicos, psicológicos y sociales están incluidas en las normas técnicas para la detección de las alteraciones del embarazo y en las guías de la enfermedad hipertensiva del embarazo. Resolución 412 de abril 2000 y Guías de medicina basada en la evidencia, julio 2007. Ministerio de la Protección Social.
