## **Rift And Revolution The Central American Imbroglia Studies In Foreign Policy:**

**European Union Foreign Policy and Central America** H. Smith, 1995-07-17 This book provides an evaluation of the European Community's transformation from a rather uncoordinated small group of member states with a barely visible foreign policy into a relatively cohesive and independent foreign policy actor that is today known as the European Union. The EC's extensive and hitherto undocumented intervention in the high profile Central American conflict of the 1980s demonstrates a coherence and convergence around a policy that was different from that of the United States and in the end more effective. The book also discusses how four key member states Britain, the Federal Republic of Germany, France, and Spain reacted both to the growing crisis in Central America and to West Europe's conflictual relations with the US. The EC's foreign policy success will not easily be emulated in another international crisis. While the EU remains a non-unitary non-state actor, it is only in non-crises that the EU, particularly an enlarged EU, will be able to operate an effective foreign policy post Maastricht.

***Rift and Revolution*** Howard J. Wiarda, 1984 ***American Foreign Policy Toward Latin America in the 80s and 90s*** Howard J. Wiarda, 1992 This thoughtful controversial book by one of the country's leading Latin America scholars examines the fundamental tenets and ideologies behind America's policy towards Latin America over the course of the last three administrations. Howard Wiarda, who has served as a consultant for the State Department, the Department of the Army, the National Security Council, the Kissinger Commission, and the White House, is ideally situated to provide an insider account of policy decisions and process during the Reagan-Bush era. The combination of Wiarda's academic background and his hands-on knowledge of Washington practices and processes results in a volume that is extremely readable and will serve as a vital link between the scholarly and policymaking communities. Wiarda supplements his incisive analysis on the role of the military in Latin America, shifting US strategic policy, democracy and human rights, and the problems presented by dictators in decline with illuminating case studies of Mexico, Cuba, Nicaragua, South America, and the Caribbean. The result is a book that will be of interest to both scholars and students of American foreign policy and Latin American studies, as well as policymakers and analysts.

**Artificial Intelligence And International Politics** Valerie M. Hudson, 2019-08-30 For well over a decade, researchers in international relations have sought ways to combine the rigor of quantitative techniques with the richness of qualitative data. Many have discovered that artificial intelligence computer models allow them to do just that. Computer programs modeling international interactions and foreign policy decision making attempt to reflect such human characteristics as learning, memory, and adaptation. In this volume of original essays, distinguished scholars present a comprehensive overview of their research and reflect on the potential of artificial intelligence as a tool for furthering our understanding of international affairs. The contributors take a broad look at the early stirrings of interest in artificial intelligence as a potentially useful method of political analysis, exploring such topics as intentionality, time, sense, and knowledge representation. The work also focuses on the current state of artificial intelligence.

and examines its general areas of emphasis international interaction decision making groups and cognitive processes in international politics The contributors represent a cross section of different approaches to using artificial intelligence and reflect the major research programs across the country in this new international relations subfield **Air University Review**, 1986-07 **AEI Foreign Policy and Defense Review** American Enterprise Institute for Public Policy Research, 1984 *The Iberian-latin American Connection* Howard J. Wiarda, Eusebio Mujal-Leon, Alistair Hennessy, Janine T Perfit, 2019-07-11 This book is especially timely as Latin America is diversifying its international connections Spain and Portugal are seeking to expand their interests and presence in Latin America and U S policy toward both regions has become increasingly complex Contributors trace the history of Iberian Latin American relations from colonial times and then examine the cultural economic political and strategic ties that currently exist between the two regions Particular attention is focused on the impact of Iberian Latin American relations on U S foreign policy The book concludes with a section of country specific case studies *The Soviet Attitude to Political and Social Change in Central America, 1979-90* D. Paszyn, 2000-04-07 The study analyses Soviet policy towards Nicaragua during the rule of the Sandinista National Liberation Front FSLN and towards the guerrillas fighting for political and social change in El Salvador and Guatemala It covers the period from the Sandinista victory in July 1979 until the loss of power in February 1990 This work aims to counter the tendency found in the western literature which over emphasizes the ideological and strategic factors motivating Soviet policy towards Nicaragua and Central America as a whole **Air university review, 1982**, 1982 *Latin America At The Crossroads* Howard J. Wiarda, 2019-04-02 A provocative and controversial look at Latin America as it stands at a crossroads this book analyzes the complex economic and social roots of the debt crisis and evaluates the prospects for new development strategies for the 1990s Dr Wiarda begins by placing the regional economic crisis in the larger context of technological change political upheaval and the international economy He then explores new choices and realities in inter American relations and the role international lending agencies can take to assist Latin America in meeting the challenge of the next decade The author suggests that smokescreens and mirrors have obscured the true nature of the crisis and as a result have skewed the policy debate **In the Name of Democracy** Thomas Carothers, 1993-01-01 The most balanced and sophisticated account currently available of U S policy toward Latin America in the 1980s and of the complexities tensions and difficulties inherent in making democratization in a foreign policy objective A must read Ambassador Viron P Vaky former Assistant Secretary of State for Inter American Affairs The most balanced and sophisticated account currently available of U S policy toward Latin America in the 1980s and of the complexities tensions and difficulties inherent in making democratization in a foreign policy objective A must read Ambassador Viron P Vaky former Assistant Secretary of State for Inter American Affairs *U.S. Policy in Central America*, 1984 Selected papers by lead consultants for the Commission **Natural Allies?** Klepak, 1996-06-15 To what extent are Canada and Mexico natural allies in continental and world affairs How will this relationship unfold in terms

of security issues in the aftermath of the Cold War These questions were the focus of a workshop held in Mexico City in 1994 from which this book took its themes historical context American influence and potential cooperative security options A process of redefining security concerns in a changing hemisphere is clearly underway and *Natural Allies* examines economic factors drug trafficking questions of autonomy and strategic alliance and defence priorities as intersecting interests in the Canada Mexico dialogue This is volume two in *CHANGING AMERICAS* a series published in collaboration with the Canadian Foundation for the Americas FOCAL

*Grenada And Soviet/cuban Policy* Jiri Valenta, 2019-03-05 The turmoil in the Caribbean and Central America does not have a single cause it results from both indigenous factors and outside intervention Some liberals see revolution as the result of poverty and injustice and ignore the East West security dimensions of the problem the role of Leninist ideology and the actions of the Soviet Union and its allies Some conservatives point to the evil machinations of the Kremlin and its proxies to explain revolution and ignore the economic social and political roots of discontent In reality however causes of revolution are both internal and external This volume is a collection from a conference at the Naval Postgraduate School in Monterey California on August 15 18 1984 and tells much more about Soviet Cuban strategy and tactics in the Third World than was known before It also provides a useful corollary to recommendations put forward by the Bipartisan Commission For all of these reasons this work should be read not only by scholars but also by policymakers analysts and all discerning readers who care about America's role in the world The purposes of the meeting were 1 to generate scholarly examination of documents captured during the U S fEast Caribbean forces intervention in Grenada in October 1983 so as to determine the causes of the bloody coup in Grenada and the impact of the intervention on Soviet Cuban politics in the Caribbean Basin and other areas of the Third World and 2 to examine in bipartisan fashion U S options for countering Soviet Cuban adventurism Both objectives were met

Generals in the Palacio Roderic A. Camp, 1992 While there is considerable literature on civilian military relations worldwide there is as yet no study of the Mexican military Despite their intense desire to remain unexamined Camp's portrait of the Mexican military from 1946 to 1990 takes us inside their world to examine their values relationships backgrounds education and promotion patterns and considers these findings in the context of Mexican society and politics Camp provides fresh empirical data for testing claims concerning civil military relations worldwide

**Cuba** Georges Alfred Fauriol, Eva Loser, 1990-01-01 Fidel Castro's revolution and its foreign policy extensions have been the source of much U S Latin American policy frustration during the last 30 years Not only the ideological tensions but the almost global sweep of Cuba's national pretensions have consumed U S resources and political capital and thrust a small island nation to the forefront of global intrigue and crisis But as this volume shows there are signs that Cuba's internationalism is now at a crossroads Fauriol and Loser have gathered together a distinguished group of specialists on Cuba to review principal aspects of Cuba's international relations Among the new dimensions discussed are shifts in Cuba's African policy the residual political impact of Grenada developments in Central America the aftermath of the

Ochoa narcotics episode and perhaps most significantly the degree of tension between Cuba and both Moscow and Washington and leadership succession beyond Castro A primary issue for Cuba the authors show will be its isolation within the Soviet bloc and its refusal to address Gorbachev's challenges to the status quo At the very least Cuba risks becoming an irrelevant anachronism amidst the groundswell of change in the communist world These and other issues are addressed in a major review of Cuba's position in the world 30 years after its revolution Cuba The International Dimension will be of interest to researchers and policy makers concerned with Latin America and the Caribbean as well as those interested in changes in the Third World and communist countries worldwide Contributors include Jiri Valenta Jaime Suchlicki William Ratliff Ernest Evans Juan Benemelis Gillian Gunn Scott MacDonald Michael J Mazaar Constantine Menges Jorge F Perez Lopez Jorge Sanguinetti Paula J Pettavino and Juan M del Aguila      Democracy and Its Discontents Howard J. Wiarda, 1995 Focusing on development in Latin America and recent breakthroughs and setbacks to democracy in the region noted policy expert Howard J Wiarda here collects new and previously published pieces examining the complex issues of U S Latin American relations      U.S. Policy and Latin America in the 1990s Frances Scott, 1992      Limits of Soviet Power Edward A. Kolodziej, Roger E. Kanet, 2015-12-25 An evaluation of Soviet efforts to penetrate the major regions in the southern hemisphere concluding that success has been modest and continues to be costly It is suggested that a world society could emerge based on socio economic and political competition rather than conflict and arms races      The Alternative Futures of Latin America , 1985

## Unveiling the Power of Verbal Art: An Mental Sojourn through **Rift And Revolution The Central American Imbroglia Studies In Foreign Policy**

In a world inundated with screens and the cacophony of quick connection, the profound energy and psychological resonance of verbal beauty frequently fade in to obscurity, eclipsed by the regular onslaught of noise and distractions.
