Rights Of Way Policy Culture And Management:

Rights of Way C. Watkins, 1996 This book explores the issue of public access to the countryside through the eyes of a variety of commentators and researchers Contributors come from different backgrounds geography rural land management sociology economics *Perspectives on British Rural Planning Policy, 1994-97* Andrew W. Gilg, 2019-01-15 First published in 1999 this volume explores the issue of rural planning which has become a complex activity in which policies in one area have important ramifications in other policy areas It is thus very important for all those involved in rural planning affairs to remain not only up to date but to place recent developments in a longer perspective This new series aims to answer all these needs by providing an accurate and informed account of recent developments in North American British and European rural policy and critiques of policy implementation and its impacts from new material and from analyses of published research findings This second volume in the series covers the last few years of the John Major administration until the election of the Tony Blair government in May 1997 It is divided into six chapters overview of changes affecting all rural planning activities the environment town and country planning extensive land uses nature conservation and recreation and social land economic issues The next British volume will cover the entire period of the current government with successive volumes covering each new government as it unfolds *Going Out for a Bike Ride* Pete McDonald, 2003-05-01 *Going Out for a Bike Ride* describes some recreational mountain biking undertaken in 2002 3 in the Dunedin area and in North and Central Otago Here and there in the generally enthusiastic narrative lie several accounts of access difficulties The second half forms a supplement to the diary looking first at access matters local to Dunedin and Otago and then at several national access issues of that time Page size A4 File format PDF Number of pages 84 About Recreation Cycling Mountain biking Access Land access New Zealand Maps Applied Geography Michael Pacione, 2002-03-11 *Applied Geography* offers an invaluable introduction to useful research in physical environmental and human geography and provides a new focus and reference point for investigating and understanding problem orientated research Forty nine leading experts in the field introduce and explore research which crosses the traditional boundary between physical and human geography A wide range of key issues and contemporary debates are within the books main sections which cover natural and environmental hazards environmental change and management challenges of the human environment techniques of spatial analysis *Applied geography* is the application of geographic knowledge and skills to identify the nature and causes of social economic and environmental problems and inform policies which lead to their resolution **High-quality Access** Pete McDonald, 2003-10-01 In January 2003 the Minister for Rural Affairs Jim Sutton set up the Land Access Ministerial Reference Group to examine access to land In August 2003 the Government published the Group s report *Walking Access in the New Zealand Outdoors* Accompanying each copy of the Report was a letter from Jim Sutton inviting public comment The letter included a list of questions under the heading Feedback High quality Access responded to those feedback questions Page size A4 File format PDF Number of pages 57

About Recreation Walking Cycling Tracks Trails Land access New Zealand Maps **Property Rights in Land** Rosa Congost, Jorge Gelman, Rui Santos, 2016-10-04 Property Rights in Land widens our understanding of property rights by looking through the lenses of social history and sociology discussing mainstream theory of new institutional economics and the derived grand narrative of economic development Written by a collection of expert authors the chapters delve into social processes through which property relations became institutionalized and were used in social action for the appropriation of resources and rent This was in order to gain a better understanding of the social processes intervening between the institutionalized rules of the game and their economic and social outcomes Foot-tracks in New Zealand: Origins, Access Issues and Recent Developments Pete McDonald, 2011 Foot tracks in New Zealand examines the development of walking tracks over two centuries from the early 19th century to about 2011 Publisher Pete McDonald Page size A4 ISBN 0473190958 9780473190958 File format PDF Number of pages 1000 About Trails Tracks New Zealand History Recreation Land access Music Festivals in the UK Chris Anderton, 2018-07-17 The outdoor music festival market has developed and commercialised significantly since the mid 1990s and is now a mainstream part of the British summertime leisure experience The overall number of outdoor music festivals staged in the UK doubled between 2005 and 2011 to reach a peak of over 500 events UK Music 2016 estimates that the sector attracts over 3.7 million attendances each year and that music tourism as a whole sustains nearly 40,000 full time jobs Music Festivals in the UK is the first extended investigation into this commercialised rock and pop festival sector and examines events of all sizes from mega events such as Glastonbury Festival V Festival and the Reading and Leeds Festivals to boutique events with maximum attendances as small as 250 In the past research into festivals has typically focused either on their carnivalesque heritage or on developing managerial tools for the field of Events Management Anderton moves beyond such perspectives to propose new ways of understanding and theorising the cultural social and geographic importance of outdoor music festivals He argues that changes in the sector since the mid 1990s such as professionalisation corporatisation mediatization regulatory control and sponsorship branding should not necessarily be regarded as a process of transgressive alternative culture being co-opted by commercial concerns instead such changes represent a reconfiguration of the sector in line with changes in society and a broadening of the forms and meanings that may be associated with outdoor music events **Citizenships, Contingency and the Countryside** Gavin Parker, 2003-08-29 Citizenships Contingency and the Countryside defines citizenship in relation to the rural environment The book expands and explores a widened conceptualization of citizenship and sets out a range of examples where citizenship at different scales has been expressed in and over the rural environment Part of the analysis includes a review of the political construction and use of citizenship rhetoric over the past 20 years alongside an historical and theoretical discussion of citizenship and rights in the British countryside The text concludes with a call to recognise and incorporate the multiple voices and interests in decision making that all affect the British countryside Outdoor Recreation Management J. Geography and Enlightenment David N. Livingstone, Charles W. J. Withers, 1999-12-15 *Geography and Enlightenment* explores both the Enlightenment as a geographical phenomenon and the place of geography in the Enlightenment From wide ranging disciplinary and topical perspectives contributors consider the many ways in which the world of the long eighteenth century was brought to view and shaped through map and text exploration and argument within and across spatial and intellectual borders The first set of chapters charts the intellectual and geographical contexts in which Enlightenment ideas began to form including both the sites in which knowledge was created and discussed and the different means used to investigate the globe Detailed explorations of maps created during this period show how these new ways of representing the world and its peoples influenced conceptions of the nature and progress of human societies while studies of the travels of people and ideas reveal the influence of far flung places on Enlightenment science and scientific credibility The final set of

chapters emphasizes the role of particular local contexts in Enlightenment thought Contributors are Michael T Bravo Paul Carter Denis Cosgrove Stephen Daniels Matthew Edney Anne Marie Claire Godlewska Peter Gould Michael Heffernan David N Livingstone Dorinda Outram Chris Philo Roy Porter Nicolaas Rupke Susanne Seymour Charles Watkins and Charles W J Withers

Cultural Turns/Geographical Turns Simon Naylor, James Ryan, Ian Cook, David Crouch, 2018-10-08 Introduces undergraduates to the key debates regarding space and culture and the key theoretical arguments which guide cultural geographical work This book addresses the impact significance and characteristics of the cultural turn in contemporary geography It focuses on the development of the cultural geography subdiscipline and on what has made it a peculiar and unique realm of study It demonstrates the importance of culture in the development of debates in other subdisciplines within geography and beyond In line with these previous themes the significance of space in the production of cultural values and expressions is also developed Along with its timely examination of the health of the cultural geographical subdiscipline this book is to be valued for its analysis of the impact of cultural theory on studies elsewhere in geography and of ideas of space and spatiality elsewhere in the social sciences
