Mickolus,1980-12-29 Product information not available **Document Retrieval Index** ,1972 **Special Bibliography Series** ,1957 *Violent Crime* Darnell F. Hawkins,2003-02-24 Analysts have long noted that some societies have much higher rates of criminal violence than others They have also observed that the risk of being a victim or a perpetrator of violent crime varies considerably from one individual to another In societies with ethnically and racially diverse populations some ethnic and racial groups have

been reported to have higher rates of violent offending and victimization than other groups This series of essays explores the extent and causes of racial and ethnic differences in violent crime in the United States and several other contemporary societies **Advances in the Visual Analysis of Social Movements** Nicole Doerr,Alice Mattoni,Simon Teune,2013-03-14

This special issue is a key text in the current study of social movements It introduces new analytical concepts for understanding visuals in social movements and examines case studies from across the globe such as analysis of the symbols used in the Egyptian uprising and contested images from anti surveillance protests in Europe **The American Street**

Racism and Resistance Franziska Meister,2017-04-15 Even a cursory look at U S society today reveals that protests against racial discrimination are by no means a thing of the past What can we learn from past movements in order to understand the workings of racism and resistance In this book Franziska Meister revisits the Black Panther Party and offers a new perspective on the Party as a whole and its struggle for racial social justice She shows how the Panthers were engaged in exposing structural racism in the U S and depicts them as uniquely resourceful imaginative and subversive in the ways they challenged White Supremacy while at the same time revolutionizing both the self conception and the public image of black people Meister thus highlights an often marginalized aspect of the Panthers how they sought to reach a world beyond race by going through race A message well worth considering in an age of color blindness **The Struggle for Black**

Equality Harvard Sitkoff,2008-09-30 The Struggle for Black Equality is a dramatic memorable history of the civil rights movement Harvard Sitkoff offers both a brilliant interpretation of the personalities and dynamics of civil rights organizations and a compelling analysis of the continuing problems plaguing many African Americans With a new foreword and afterword and an up to date bibliography this anniversary edition highlights the continuing significance of the movement for black equality and justice *The Silent Revolution* Ronald Inglehart,2015-03-08 This book contends that beneath the frenzied

activism of the sixties and the seeming quiescence of the seventies a silent revolution has been occurring that is gradually but fundamentally changing political life throughout the Western world Ronald Inglehart focuses on two aspects of this revolution a shift from an overwhelming emphasis on material values and physical security toward greater concern with the quality of life and an increase in the political skills of Western publics that enables them to play a greater role in making important political decisions Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *When Men Revolt and Why*

Harold J. Bershad, 2020-03-26 The environment within which humans interact has changed dramatically since the Industrial Revolution. However, their expectations stem from the same hopes and dreams people have had from the beginning of humankind. *When Men Revolt and Why* encourages readers to look closer and more deeply into the relationships between humans and the institutions that have originated to help them realize their full potential. The contributors not only examine people but also the need to change institutions that have outworn their usefulness. When institutions inhibit rather than facilitate everyone's desire to live a full life, the result is likely to be violence. This book offers the ideas of many people who have tried to dig deeper into basic causes of violence. Included in this volume are selections by Aristotle, Tocqueville, Marx and Engels, and Brinton. The ideas they espoused still hold vitality. In his new introduction, James Davies talks about the circumstances under which this book was originally published. In Vietnam, a people were fighting for their autonomy. In the United States, many Americans were protesting against American involvement in the Vietnam War. Blacks were marching for their civil rights. Women were fighting for equality. Time has tempered these conflicts. Davies maintains that we remain ignorant of the elemental forces that impel people and nations to resort to violence. We are usually surprised by their anger and shocked by their violence. Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for such responses to change. *When Men Revolt and Why* is as timely as ever as we deal with uncertainty in various areas of the world: the former Yugoslavia, the Middle East, and Ireland, among others. It is especially pertinent for political scientists, historians, and sociologists. *Criminology and the Administration of Criminal Justice* Leon Radzinowicz, Roger Hood, 1976
