Matthew Worley, 2005-03-24 In 1906 a confident Labour Party felt that it was already rattling the governing classes Its campaigning cartoon which gives this book its title showed the party wielding an axe towards the gates of Parliament cutting through the special interests protecting the old system to aid the working classes What followed was the remarkable transformation of a parliamentary pressure group into a credible governing force The inter war years were a crucial stage in the development of the Labour Party as it grew from pressure group status to national opposition to party of government At the end of the Great War 1914-1918 Labour had a developing national organisation and a fledgling constitution By 1922 it rivalled the war ravaged Liberals as the party of opposition a fact that was affirmed with the formation of the first minority Labour government in January 1924 The second Labour administration of 1929 collapsed amidst the whirlwind of the great depression but the organisational basis of the party remained solid allowing Labour to reinvent itself over the 1930s By the Second World War the foundations had been laid for the landslide victory that brought in the Attlee government of 1945 Matthew Worley has written the first study dedicated solely to this crucial period in Labour's development In an accessible style he provides a comprehensive account of all aspects of the movement Using a wide range of sources he explores this often marginalised period in Labour's history both looking at the parliamentary party and the growing network of constituency parties Worley's approach unites high politics and issues that cross local and national boundaries He combines policy social history and economics with broader themes such as gender and culture *Labour inside the Gate* will appeal to students and scholars as well as all those interested in Labour's history Its new insights into the 1945 landslide victory illuminate this important period in the growth of the Labour Party as it continues to redefine and realign itself as the new party of government **America in the Progressive Era, 1890-1914** Lewis L. ### **Old Labor and New Immigrants in American Political Development**

Gwendolyn Mink, 2019-06-30 Why have American politics developed differently from politics in Europe Generations of scholars and commentators have wondered why organized labor in the United States did not acquire a broad based constituency or form an autonomous labor party In this innovative and insightful book Gwendolyn Mink finds new answers by approaching this question from a different angle she asks what determined union labor's political interests and how those interests influenced the political role forged by the American Federation of Labor At bottom Mink argues the demographic dynamics of industrialization produced a profound racial response to economic change among organized labor This response shaped the AFL's political strategy and political choices In her account of the unique role played by labor in politics prior to the New Deal Mink focuses on the ways in which the organizational and political interests of the AFL were mediated by the national issue of immigration and links the AFL's response to immigration to its conservative stance in and toward politics She investigates the political impact of a labor market split between union and nonunion old and new immigrant workers of dramatic demographic change and of nativism and racism Mink then elucidates the development of trade union political interests ideology and strategy the movement of the AFL into established state and party structures and the consequent separation of the AFL from labor's social base

**The Korean War** Steven Hugh Lee, 2013-12-02 Tens of thousands of US soldiers and untold millions of Koreans died in this war the first major arena of the East West conflict This concise international history of the war offers a new approach to its understanding tracing its origins and dynamics to the interplay between modern Korean history and twentieth century world history The narrative also uniquely examines the social history of the conflict and includes material on the newly racially integrated US fighting forces war and disease women and war and life in the Prisoner of War camps While most surveys stop at 1953 with the signing of the armistice Steven Hugh Lee carries the story through to the Geneva Conference in the spring of 1954 the last major international effort before recent years to negotiate a permanent peace for the Korean peninsula

*Eastern Europe Since 1970* Bulent Gokay, 2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern

Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region **Japan faces the World, 1925-1952** Mary L. Hanneman, 2013-11-14 By 1925 the process of Japan's transition to a modern industrialised westernised state was pretty much complete Not only had the imperial tradition been restored with the Meiji Restoration in 1868 but some forms of democratic parliamentary institutions had been set up However during the years that followed the so called imperial democracy came under pressure as the Japanese sought to impose tight control over not only their own people but their neighbours as well This impressive survey looks at developments at home Japan's aggressive foreign policy particularly in China during the 1930s and 1940s and her role in the Second World War Finally the post war reconstruction orchestrated by the Americans is examined The cut off point is 1952 the date when Allied Occupation formally came to an end and Japan once again became independent
